

OWON B35T+ Multi-meter with True RMS Measurement with Test Leads TLP20157

- function as 3 in 1 : datalogger + multi-meter + temperature meter
- multi-connection (more than one device) supported via mobile app
- the change trend analysis accessible via special chart mode
- voice warning supported, which assures measurement safety
- smart voice-reading accessible
- 3(5/6)-digit full scale reading, achieving higher measurement accuracy than 3(3/4)-digit counterparts
- smart power-off option extending battery life
- true RMS value available (only in B35T, and D35T)
- Bluetooth 2.0 version- supports mobile device with Android 4.0 or above OS
- Bluetooth 4.0 version- supports mobile device with Android 4.3 or above / iOS 7.0 or above OS, and equipped with Bluetooth 4.0 module.

OWON B35T+ Details

Auto Ranging	√	Data Hold	√
Offline Recording Function	√	Relative Measurement	√
LCD Backlight	√	Max / Min Value	√
Diode Test	√	Bluetooth Module	√
Audion Test	√	True RMS	√
Auto Power-off	√	Simulated Chart	√
On-off Warning	√	Input Protection	√
Low-battery Indicator	√	NCV	X

AideTek needle tipped tip test leads set for multi-meter two alligator clips with removable insulator Electronic Test Lead Kit

1) Two (one red + one black) alligator clips with removable insulators

Whole Length: 5cm, 1.2cm The maximum size of the opening

2) Two plunger mini-hooks mini-grabber (one red + one black) with 0.16 inch banana plug tip

Whole length: 60cm (23.58 inch)

3) Two PVC lead extensions, Shrouded banana plugs at both ends

Whole length: 82cm (32.22 inch)

4) A pair of sharp Stainless Steel Needle Tipped Tip Multi-meter Probes Test Leads

600v 1a 4mm Socket, Whole Length: 129.5mm Needle length: 20.5mm, Match with the test lead of Multi-meter or Oscilloscope Advantage: Lengthened sharp and hard stainless steel

needle(Dia.1mm) can easily pierce the surface of cable but doesn't destroy it.It can be widely used about the non-destructive cable test in auto,Telecom,Industry or test inside of the plug.

Available color: Red Black Metal material: Brass、Stainless Steel Insulator material: PA Rated voltage/current: CE CATII 600V /MAX. 1A Connect method: 4mm socket connection

5) Two (one red + one black) modular 4 inch heavy duty test probe handles

Length: 10.5cm

Material: Insulator:PA

Body:Brass

Spring:Beryllium copper

Surface:Nickel plated

Rated voltage/current:

CATII 1000V/Max.32A, CE certificate

Feature

Safety test probe with 4mm socket connection. Spring-loaded tip

1 2 3 4 5 with the protective cap

What is included:

1* OWON B35T+ Multi-meter

1*User Manual

1*Probes

1*Soft carrying case

1*Alligator Clips

1*Multi-function test bench

1*K-type thermocouple

1*TLP20157 test leads kit
