SCSI/Fibre Channel - 30-in. Internal SCSI Ribbon Cable 4Conn 50SOK

MODEL NUMBER: **S006-30I**

Highlights

- Premium cabling

System Requirements

- Narrow SCSI controller
- Narrow SCSI device

Package Includes

- 30 inch internal SCSI ribbon cable 4Conn 50SOK

Description

Tripp Lite's internal 30-in. (2.6ft) 50pin SCSI ribbon cable has 4 connectors and is used to connect 50pin internal devices. This is the internal 50-pin ribbon cable required for narrow and wide SCSI applications (sometimes called SCSI-1 or SCSI-2). Perfect for internal CD-ROM drives and hard drives. Our products are fully tested and certified to meet or exceed applicable industry standards. Tripp Lite warrants this product to be free from defects in materials and workmanship for life.

Features

- 30 inches
- Four 50sok(female) narrow SCSI connectors
- Internal 30in 50pin SCSI ribbon cable with 4 connections used to connect 50pin internal devices
- All Tripp Lite SCSI products, regardless of the SCSI generation, meet the latest specifications of ANSI
- Tripp Lite offers a complete line of internal and external solutions for SCSI/RAID and fibre channel ranging from the very latest ultra 320 to legacy SCSI-1 and every combination in between
- Tripp Lite warrants this product to be free from defects in materials and workmanship for life
