# Regulated Converter

- Wide input range 85-305VAC
- Operating temperature range: -40°C to +80°C
- High efficiency over entire load range
- No external components necessary
- Household certification IEC/EN60335
- Overvoltage category OVCIII (IEC62477-1)
- 140% Peak load capability

## RAC10-K/277

10 Watt  
2" x 1"  
Single and Dual Output

### Description

The RAC10-K/277 series are highly efficient PCB-Mount power conversion modules with ultra-low energy losses even in light load conditions. Built for worldwide usage, the AC/DC units cover an enhanced mains input range of 85VAC up to 305VAC and come with international safety certifications for both industrial and household standards. These AC/DC modules offer fully protected single or dual outputs as well as EMC Class B compliance without the need of any external components. The 140% peak power capability makes the RAC10-K/277 series suitable for inductive, high start-up current or nonlinear loads. With a full load temperature range of -40°C to +65°C, they are ideal for always-on and standby mode operations in process automation, IoT and smart building applications.

### Selection Guide

Part Number	Input Voltage Range [VAC]	Output Voltage [VDC]	Output Current [mA]	Efficiency typ. (1) [%]	Max. Capacitive Load [µF]
