## **DICTOPRO X100** - HD Digital Voice Recorder With Double Microphone

Check out DICTOPRO X100 main features below

**HIGH QUALITY ALUMINUM BODY** - With a beautiful color LCD display, feels strong and sturdy, while being light and small. Conveniently fits in any palm, pocket or a purse for easy access and portability.

**TWO ULTRA SENSITIVE MICROPHONES** with DYNAMIC NOISE REDUCTION - Now you can enjoy crystal clear recordings even while you're up to 40ft away or to record quiet, discreet conversations.

**VOICE ACTIVATED RECORDING** - Means you don't have to click the record button every time to begin recording. Be it at the doctor's office or a college lecture, the X100 will be your personal note-taker.

**8GB OF INTERNAL MEMORY** - Lets you store up to 700 HOURS of recordings without the need for additional memory cards. Use the huge internal memory capacity to store any other type of data files.

**EASILY TRANSFER FILES TO MAC OR PC** - Just connect the recorder to your computer using the supplied USB cable and drag the files over to your PC. It is really that simple!

**100% SATISFACTION GUARANTEE** – Make everything you do more fun with X100 voice recorder or we'll refund you! **1-YEAR WARRANTY & 30-DAY RETURNS** makes this a zero-risk purchase.

(WARNING: Does NOT record phone calls with external microphone).
