

BARRACUDA™ SAW BLADES

PRECISION ARBORIST SOLUTIONS

Barracuda™ Tri-Cut Teeth

Jameson's line of Barracuda™ Tri-Cut saw blades have been an industry standard with CATV and telecommunication companies for line clearance. Expanding our product line to meet the demands of professional arborists, Jameson introduced Barracuda™ Tri-Cut Saw Blades. Hard-chrome plated with impulse hardened teeth, tri-cut blades provide a quicker, cleaner cut with less wear on the blade than traditional blades.

For versatility and productivity, Tri-Cut Blades fit Jameson's Pole Saw Heads, SB-UC Universal Saw Blade Casting and Hand Saw Handles.

Note: Mammoth Wide Saw Blade does not fit Hand Saw Handles.
