SIEMENS

Data sheet   6GK5980-1BC00-0AA5

product type designation	**Terminal block for SCALANCE XR-300 with 240 V AC, 2-pin, screw terminals, power supply**
product description	Terminal block for SCALANCE XR-300 with 240 V AC, 2-pin, screw terminals, power supply
	2-pole terminal block for power supply (230 V AC) incl. enclosure; for SCALANCE XR-300 1 pack=5 units; spare part.

suitability for use	Power supply for SCALANCE XR-300 with 240 V AC
interfaces	
type of electrical connection	screw terminal
mechanical data	
locking mechanism design	Screw flange
number of poles	2
tightening torque / for contacts / with screw-type terminals	0.5 ... 0.6 N·m

security information	
security information	Siemens provides products and solutions with industrial cybersecurity functions that support the secure operation of plants, systems, machines and networks. In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement – and continuously maintain – a holistic, state-of-the-art industrial cybersecurity concept. Siemens' products and solutions constitute one element of such a concept. Customers are responsible for preventing unauthorized access to their plants, systems, machines and networks. Such systems, machines and components should only be connected to an enterprise network or the internet if and to the extent such a connection is necessary and only when appropriate security measures (e.g. firewalls and/or network segmentation) are in place. For additional information on industrial cybersecurity measures that may be implemented, please visit www.siemens.com/cybersecurity-industry. Siemens' products and solutions undergo continuous development to make them more secure. Siemens strongly recommends that product updates are applied as soon as they are available and that the latest product versions are used. Use of product versions that are no longer supported, and failure to apply the latest updates may increase customer's exposure to cyber threats. To stay informed about product updates, subscribe to the Siemens Industrial Cybersecurity RSS Feed under https://www.siemens.com/cert. (V4.7)
