

 Edition 21

CABLE ACCESSORIES

Data sheets are as of date of print.
You can find the latest versions online
according to this principle:
www.helukabel.com/10001en*

* Instead of 10001 please insert the wanted part number.

■ EDITORIAL

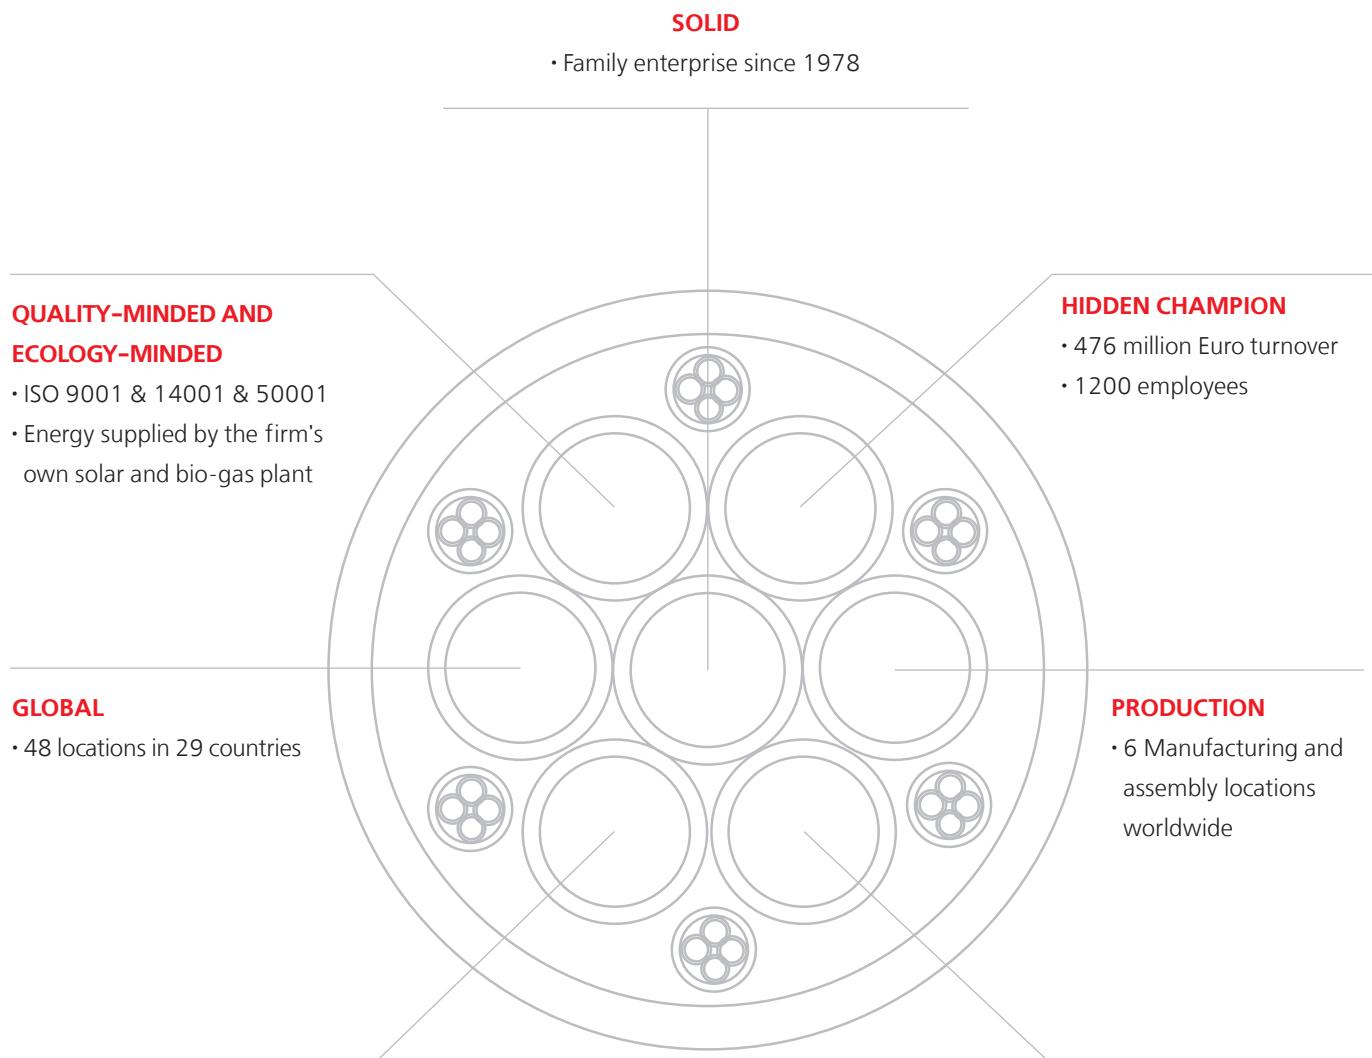

Whether connecting, fastening or protecting – only with a screened connection equipment cables will fulfil its function reliable and especially permanent. For this reason we are offering the appropriate accessories for our cables and wires. Now the time has come: The new catalogue is hot off the press. The new "Cable accessories Edition 21" catalogue has not just be given a new facelift - also the content was revised. We expanded the catalogue with some more products: The new cable gland HELUTOP-HT-AIR-PA prevents the formation of condensation, for instance in switching cabinets beeing exposed to changing temperatures (see p. 185). The HELUTOP HT-Clean, a cable gland with blank surface used in the hygiene sector has very good cleaning properties and is also available as EMC version (see p. 176). All accessories in our product range comply with the latest guidelines and standards. Furthermore, you will find a completely revised cable lug program (from p. 379). All accessories are available from stock in our fully automated small parts warehouse with more than 36,000 bin locations – guided by the motto „Everything from a single source“.

Helmut Luksch,
CEO of HELUKABEL® GmbH

GENUKASE®

RESEARCH & DEVELOPMENT

We develop optimal, customized cable solutions for our customers.

Torsion test

Our test facilities:

- Test systems for bending and torsion requirements
- Drag chain test systems with movement distances from 1 m, 3 m, 5 m, 6 m, 18 m, and 40 m
- Fire testing systems
- Abrasion testing systems
- Torsion test tower for wind turbines
- Aging ovens in accordance with UL, VDE, CSA, HAR, TÜV, CCC

Research and development are the foundation of our work and are an important engine for growth. In interdisciplinary teams we continuously develop our products and seek to enhance them for multiple applications. Moreover, we rely on customer feedback as well as cooperation with regional colleges and research institutes.

The materials that will be used are an important starting point of our work. In this regard, we place as much emphasis on searching for and utilizing new materials as we do on manufacturing our plastic mixtures (granulates) ourselves, in order to enhance mechanical properties, such as oil resistance, temperature range or chemical compatibility. Furthermore, we are capable of pulling a majority of our copper ourselves, and thus ensure a uniform, high quality relative to properties and workmanship.

By continuously optimizing our manufacturing processes and procedures, we have become more efficient and economical, and yet we are still able to take the complex requirements of a wide variety of applications (such as cables for industrial robots or for applications under clean-room conditions) into account.

A crucial stage in the development process of our products is the work done in our Test Centre. For example, cables suitable for drag chain implementation can be tested with acceleration up to 10 G. Temperature ranges from -50°C to +250°C are simulated in a special climate device so that drag chain cables can be tested for series production readiness before they are installed in applications like refrigerated warehouses or steel mills.

Drag chain test system

HENGSTEN

■ PRODUCTION

We specialize in the production of high-quality cables and wires.

In our two German plants, using the latest production methods, each year we manufacture approximately one million conductor kilometers (= 25 times around the world). More than 300 qualified employees are specialized in the production of high-quality standard and specialty cables. Through use of the latest materials and collaboration with international test institutes, we drive innovation in the areas of automation, data technology, building system technology, and renewable energy.

Since 2014, in a 7,000 m² facility in the Chinese city of Taicang (approx. 50 km northwest of Shanghai) HELUKABEL® has been producing cable and wires, primarily for the Asian region. As in the German plants, the focus here is also on high-quality, flexible and highly flexible cables and wires that are manufactured in accordance with Chinese and international standards. The use of flexible manufacturing cells enable short delivery times.

Braiding machine

Stranding machine

Our production in numbers:

- 40 000 m² production area
- 23 extruder systems
- 19 stranding machines
- 50 braiding machines
- Cables & wires from 0.05 to 1000 mm²
- Manufacturing in accordance with: VDE, EAC (GOST-R), UL, CSA, HAR, CCC, Germanischer Lloyd, TÜV or customer specification

■ LOGISTICS

Cable industry logistics redefined.

INDUSTRIAL CABLE

Our logistics center - Hemmingen/Stuttgart

- 40,500 Euro-pallet racks with max. reel weight of 1,500 kg; 16 aisles with 16 storage and retrieval devices
- 36,800 bin locations in the automatic small parts warehouse with a capacity of 1,000 bins per hour
- 670 storage spaces in the heavy load warehouse with max. reel weight of 4,000 kg and 2.20 m diameter
- 2 km conveyor line for pallets
- Conveyer connects direct to the cable-cutting machines
- Manual processes reduced to merely packing

INFRASTRUCTURE CABLES

Our logistics center - Neuenhagen/Berlin

- 11,000 cable reels in stock
- Automatic processing of reels up to 2.80 m diameter and 10 t
- 10 rewinding machines
- Cut to length with state-of-the-art 1,200 mm² cutting tools
- 24-hr delivery is possible

At its corporate headquarters in the Swabian town of Hemmingen, HELUKABEL® operates Europe's largest distribution centre for cables and wires. This is where a majority of the more than 33,000 products are housed in a 160,000 m² storage area. Through the use of state-of-the-art conveyor and control technology, more than 1,000 orders can be picked and shipped daily to destinations around the world.

Heavy-load length-cutting facility

Neuenhagen/Berlin is the central warehouse location for underground cable, medium-voltage cable, and other infrastructure cables. Storage capacities of more than 5,000 m² in the warehouse and 50,000 m² outdoors enable fast deliveries of cable, configured from 1 – 30 kV, to construction sites and major projects. The patented heavy load length-cutting machines with more than 10 tons of load capacity are the largest of their type in Germany.

The new logistics centre at the Taicang (China) production facility serves as a product distribution hub for the Asian region, and offers incredible advantages, particularly for servicing time-critical and volume-critical major projects.

Small parts warehouse

■ OUR VALUES

Success through quality and innovation

HELUKABEL® GmbH is an independent company that develops, manufactures and sells cables, wires and accessories. In an environment of increasing expectations from both customers and society, the growth strategy of HELUKABEL® GmbH is based on consistent target orientation, high adaptability and continuous development of its management system. Our goal is to achieve sustainable business success through the confidence and satisfaction of our customers and society.

As a result, HELUKABEL® GmbH places great emphasis on

the quality and environmental impact of its processes and products, the efficient use of resources and energy, and on satisfying legal and regulatory requirements. This is why HELUKABEL® GmbH developed and implemented an integrated management system for quality, environmental impact and energy performance based on the DIN EN ISO 9001, DIN EN ISO 14001 and DIN EN ISO 50001 standards. Our high standards are reflected in the following criteria:

The integrated management system for quality, environmental impact and energy performance reinforces HELUKABEL®'s success as a company and documents our work processes, which all employees and managers are bound to implement in accordance with what is prescribed in the management handbook.

■ OUR BRANDED PRODUCTS

Cables & Wires

- | | |
|----------------------------|--|
| • BIOFLEX-500® | bio-oil resistant cables |
| • CLEANFLEX® | cleanroom data and control cables |
| • DATAFLAMM® | data and computer cables, halogen-free |
| • DATAPUR-C® | data and computer cables |
| • GALVANICABLE® | high-voltage cathode cable |
| • HELUFLOW® | heat-resistant cables |
| • HELUTHERM® | heat-resistant cables |
| • HELUTRAIN® | train cables |
| • HELUTRUCK® | vehicle cables / truck cables |
| • HELUWIND® | wind power cables |
| • KOMPOFLEX® | microbe-resistant cables |
| • KOMPOSPEED® | bio-oil resistant drag chain cables |
| • LIFT-TRAGO® | elevator control cables |
| • MEGAFLEX® | flexible control cables, halogen-free (UL/CSA) |
| • MULTIFLEX 512® | drag chain cables PUR |
| • MULTISPEED® | drag chain cables |
| • NANOFLEX® | PUR special control and data cables |
| • ROBOFLEX® | robot cables |
| • SENSORFLEX® | sensor cables |
| • SHIPFLEX® | drag chain cables |
| • SOLARFLEX® | photovoltaic cables |
| • SUPER-PAAR-TRONIC-C-PUR® | drag chain cables, halogen-free |
| • SUPERTRONIC® | drag chain cables |
| • THERMFLEX® | heat-resistant cables |
| • TOPFLEX® | servo, encoder, and motor cables |
| • TOPSERV® | servo, encoder, and motor cables |
| • TRAYCONTROL® | exposed run cable |
| • TROMMPUR® | easy-to-wind cables |
| • UNIPUR® | PUR, flexible control cables |

Cable accessories

HELUKABEL®

■ ROBOTEC SYSTEMS - COMPETENCE IN EVERYTHING RELATED TO THE ROBOT

Since its founding in 1998, Robotec Systems GmbH headquartered in Kamp-Lintfort, Germany has become one of the leading European companies for robot hose packages and the associated fastening systems as well as for special robot cables, cable assemblies, power screwdriver technology, controllers for measurement instrumentation, and media systems such as air hoses and water hoses. The company has been a 100% subsidiary of HELUKABEL® GmbH since July 2012.

Robotec Systems develops tailored energy-supply systems that are pre-assembled

and ready to install. From the development of different solution concepts to prototyping, to final installation and onsite service, Robotec is a single source for all services.

Through the use of first-class components, as well as superstructures and material compositions tailored for the respective application the highest level of reliability and productivity is achieved.

Robotec's products are used in applications, such as spot welding, laser welding and inert gas welding, robot handling systems and tool changing systems.

Repair/maintenance

Our components:

- Fastening elements & accessories
- Pivot bearings
- Spring clamps
- Protector / impact protection
- Trumpet and accessories
- Precision pipes
- Self-fastening hoses and accessories
- Cable protection hose
- Attachment parts
- Primary cables
- Control cables
- Cables for bus systems
- Pre-assembled special cables

WICKELTECHNIK

kabelmat[®]
WICKELTECHNIK

■ KABELMAT WICKELTECHNIK GMBH

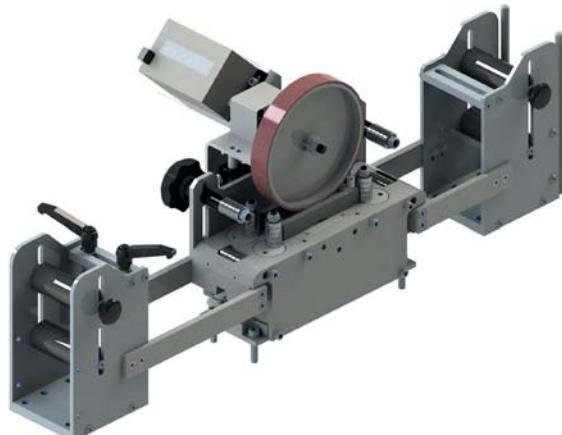

Kabelmat Wickeltechnik GmbH's history goes back to the 1960s and for a long time, the company has been among the market leaders for winding systems for the cable & wire industry and/or processing.

Customers include manufacturers, retailers, and processors of cables and wires, as well as cable assemblers, electricians, machine manufacturing companies, and many more.

The product range includes virtually all devices and machines for storing, winding, and cutting cables and wires, wire rope, tubes, hoses, and profiles.

Winding from drums and onto drums, as well as from drums to rings are among the tasks that are executed efficiently worldwide with the Kabelmat products.

We would be pleased to show you our products in our showroom. You are cordially invited to visit us at our facility.

■ PLASTIC CABLE GLANDS

Cable gland

Cap nut and gland body are made of polyamide 6 (PA6) in the following colours

- light grey RAL 7035
- dark grey RAL 7001
- black RAL 9005

Polyamide 6 (PA6) is abrasion and impact resistant, and withstands hydrocarbons/fuels and cleaning agents. It is tried-and-tested material for cable glands in standard applications.

The moulded seal is made of chloroprene rubber (CR, Neoprene).

HELUTOP® HT and HSK cable glands are fitted with vibration protection for secure attachment in mobile applications.

Lock nut

The lock nuts with or without collar are made of polyamide 6 (PA6).

Accessories

Accessories suitable for use with the plastic cable glands:

- Lock nuts
- Adapters
- Extenders
- Reducers

Accessories suitable for use with all cable glands:

- Sealing plugs
- Multiple sealing inserts / lock bolts
- O-rings
- Connection thread gaskets
- Blind plates

HELUTOP® HT

Plastic cable gland with vibration protection.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

Material

Polyamide PA 6
Seal: Chloroprene-rubber (CR)

- phosphor-free
- silicone-free
- cadmium-free

Properties

- Optimum strain relief through clamping lamella
- Easy to assemble
- Large clamping areas

Note

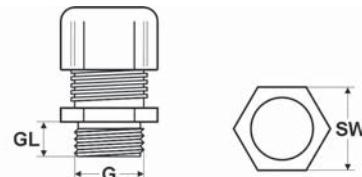

Details on the individual tests appear in section "Technical Information".

Technical data

Protection class: IP 68 - 5 bar / IP 69K

Temperature range: -20°C up to +100°C

Test standard: EN50262

HELUTOP® HT-BS

Plastic cable gland with vibration protection and pre-assembled dust protection.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

Material

Polyamide PA 6
Seal: Chloroprene-rubber (CR)
Dust protection: Foam rubber

- phosphor-free
- silicone-free
- cadmium-free

Properties

- Optimum strain relief through clamping lamella
- Easy to assemble
- Large clamping areas

Note

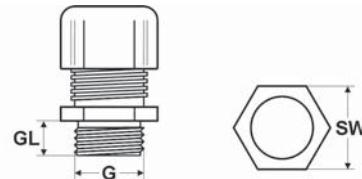

Details on the individual tests appear in section "Technical Information".

The information of the protection classification applies only by use as cable gland, not as dust cap.

Technical data

Protection class: IP 68 - 5 bar / IP 69K

Temperature range: -20°C up to +100°C

With anti-kink spirals

HELUTOP® HT-K

Plastic cable gland with anti-kink spiral for mobile use.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology

Material

Polyamide PA 6
Seal: Chloroprene-rubber (CR)

- phosphor-free
- silicone-free
- cadmium-free

Properties

- Optimum strain relief through clamping lamella
- Easy to assemble

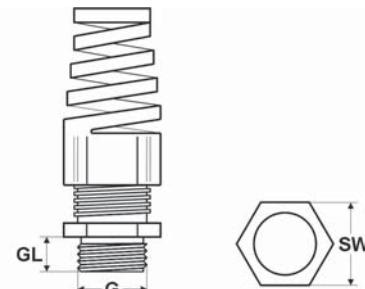

Note

Details on the individual tests appear in section "Technical Information".

Technical data

Protection class: IP 68 - 5 bar / IP 69K

Temperature range: -20°C up to +100°C

HSK-METRICA-P

The cable gland meets high standards in technology.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

Material

Polyamide
Seal: NBR

- halogen-free
- phosphor-free
- silicone-free
- cadmium-free

Properties

- Easy to assemble
- Completely water-tight
- Optimum strain relief
- Clamping areas with metric dimensions

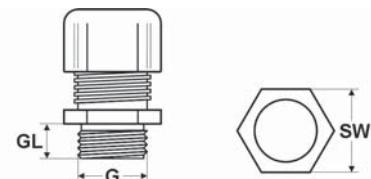

Note

For the intrinsically safe area type "i" cable glands in blue, RAL 5012, are used.

Technical data

Protection class: IP 68 - 10 bar / IP 69K (within the specific clamping range with additional o-ring)

Temperature range: -40°C up to +100°C

Dimensions

HSK-L

With long threaded connection

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

Material

PA 6, V0 acc. to UL 94

Seal: NBR

- halogen-free
- phosphor-free
- silicone-free
- cadmium-free

Properties

- Easy to assemble
- Completely watertight
- Optimum strain relief
- Large clamping areas

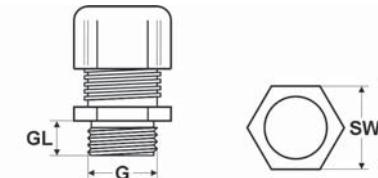

Note

For the intrinsically safe area, type "i" cable glands in blue, RAL 5012, are used.

Technical data

Protection class: IP 68 - 10 bar / IP 69K (within the specific clamping range with additional o-ring)

Temperature range: -40°C up to +100°C

HSK-B

With anti-kink spirals

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

Material

Polyamide
Seal: NBR

- halogen-free
- phosphor-free
- silicone-free
- cadmium-free

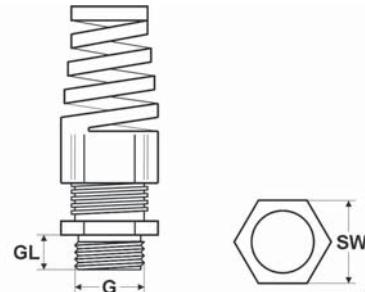

Properties

- Easy to assemble
- Completely water-tight
- Optimum strain relief
- Large clamping ranges

Technical data

Protection class: IP 68 - 10 bar / IP 69K (within the specific clamping range with additional o-ring)

Temperature range: -40°C up to +100°C

Dimensions

G Thread size
GL Thread length
SW Spanner size

UNI-DICHT-PA

Plastic sealing gland with colour-coded TPE inserts.

Material

Polyamide PA6-3
Seal: TPE

- halogen-free
- phosphor-free
- silicone-free
- cadmium-free

Properties

- Extensive cable sealing
- Easy to assemble
- Large clamping areas

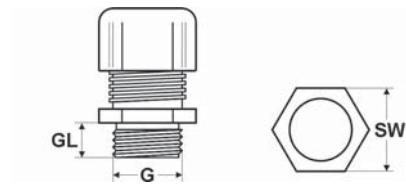

Note

Black cable glands are available on request.
UL- and CSA- approval for use with TPE-V
inserts. TPE-V inserts on request.

Technical data

Protection class: IP 68 - 10 bar

UNI-DICHT-MFD-PA Cable gland

With multiple sealing inserts

UNI-DICHT-MFD-PA

Plastic sealing gland with multiple TPE sealing inserts.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

Material

Polyamide PA6-3
Seal: TPE

- halogen-free
- phosphor-free
- silicone-free
- cadmium-free

Properties

- Extensive cable sealing
- Easy to assemble

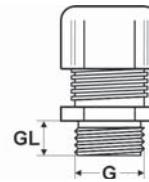

Note

Protection class IP 68, if the bore diameter in the sealing insert area is equal to the cable diameter.

Technical data

Protection class: IP 65

Temperature range: -20°C up to +100°C

Dimensions

UNI-DICHT-VK-PA Gland body

UNI-DICHT-VK-PA

Gland body made of polyamide for fitting with TPE sealing inserts.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

Material

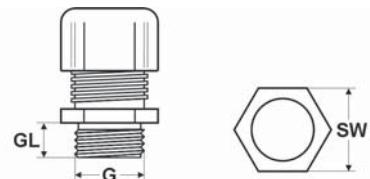

Polyamide PA6-3

Note

The gland body M20x1,5 part no. 903941 is suitable for PG 11 inserts; part no. 90831 is suitable for PG 13,5 inserts.

Technical data

Temperature range: -20°C up to +100°C

UNI-DICHT Sealing insert

Closed

UNI-DICHT sealing insert closed

Closed TPE-V sealing inserts which fit in UNI-DICHT gland bodies - plastic or brass.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

Material

TPE-V

- halogen-free
- phosphor-free
- silicone-free
- cadmium-free

Note

The UNI-DICHT sealing insert M20x1,5 (part no. 903944) can only be used with **UNI-DICHT-VK-PA** M20x1,5 (part no. 90831). The UNI-DICHT sealing insert M20x1,5 (part no. 903945) can only be used with **UNI-DICHT-VK-MS** M20x1,5 (part no. 904213).

Technical data

Temperature range: -40°C up to +135°C

UNI-DICHT sealing insert

Standard

UNI-DICHT sealing insert standard

Colour coded TPE sealing insert for UNI DICHT gland bodies - polyamide or brass.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

Material

TPE

- halogen-free
- phosphor-free
- silicone-free
- cadmium-free

Technical data

Temperature range: -40°C up to +130°C

Note

The UNI-DICHT sealing inserts M20x1,5 (part no. 903961 up to 903965) can only be used with **UNI-DICHT-VK-PA** M20x1,5 (part no. 90831).

The UNI-DICHT sealing inserts M20x1,5 (part no. 903966 up to 903970) can only be used with **UNI-DICHT-VK-MS** M20x1,5 (part no. 904213).

The UNI-DICHT sealing insert PG21 (part no. 903981) can only be used with **UNI-DICHT-VK-MS** PG21 (part no. 904226).

The UNI-DICHT sealing insert M32x1,5 (part no. 903981) can only be used with **UNI-DICHT-VK-MS** M32x1,5 (part no. 904216).

UNI-DICHT MFDE Multiple sealing insert

UNI-DICHT multiple sealing insert

Multiple TPE sealing insert which fit in UNI DICHT gland bodies - polyamide or brass.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

Material

TPE

- halogen-free
- phosphor-free
- silicone-free
- cadmium-free

Note

The UNI-DICHT sealing inserts M20x1,5 (part no. 904004 up to 904010) can only be used with UNI-DICHT gland body made of polyamide M20x1,5 (part no. 90831).

The UNI-DICHT sealing inserts M20x1,5 (part no. 904011 up to 904017) can only be used with **UNI-DICHT-VK-MS** M20x1,5 (Art.-Nr. 904213), **UNI-DICHT-VK-PA** PG13,5 (part no. 96045) and **UNI-DICHT-VK-MS** PG13,5 (part no. 904223).

UNI-DICHT-ASI-PA Cable gland

CE

Profile fits to ASI-bus cable

UNI-DICHT-ASI-PA

Plastic sealing gland with inserts for ASI BUS cables.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Installation technology
- Control cabinet construction

Material

Polyamide
Seal: TPE-V

- halogen-free
- phosphor-free
- silicone-free
- cadmium-free

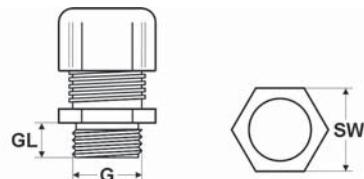

Properties

- Large-areas cable sealing
- Easy to assemble

Technical data

Protection class: IP 68 - 10 bar

Temperature range: -20°C up to +100°C

Dimensions

UNI-DICHT sealing insert

Profile fits to ASI-bus cable

UNI-DICHT Sealing insert ASI

TPE sealing insert for fitting in UNI DICHT gland bodies - plastic or brass. Profile fits into ASI bus cable.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Installation technology
- Control cabinet construction

Material

TPE-V

- halogen-free
- phosphor-free
- silicone-free
- cadmium-free

Properties

- Large-area cable sealing
- Easy to assemble

Technical data

Temperature range: -20°C up to +100°C

Note

The UNI-DICHT sealing inserts ASI (part nos. 905910 and 905911) can be used with **UNI-DICHT-VK-PA** M20x1,5 (part no. 90831). The UNI-DICHT sealing inserts ASI (part nos. 903992 and 903993) can be used with **UNI-DICHT-VK-MS** M20x1,5 (part no. 904213) and **UNI-DICHT-VK-PA/MS** PG13,5 (part no. 96045 and 904223).

STK-PA Cable gland

With incision sealing ring

EAC

STK-PA with incision ring

Polyamide cable gland according to DIN 46320 with incision sealing ring.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

Material

Polyamide
Seal: NBR

- halogen-free
- phosphor-free
- silicone-free
- cadmium-free

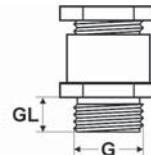

Note

Protection classification IP 65 with an additional O-ring on the external thread.

Technical data

Protection class: IP 54

Temperature range: -20°C up to +60°C

Dimensions

G Thread size
GL Thread length
SW Spanner size

STK-F Flat cable gland

STK-F

Plastic flat cable gland.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

Material

Polyamide
Seal: TPE
Thrust washers: Galvanized steel

- halogen-free
- phosphor-free
- silicone-free
- cadmium-free

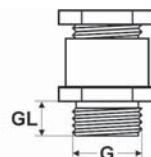

Note

Protection classification IP 65 with an additional O-ring on the external thread.

KMK-PA-MB Counternut with collar

KMK-PA-MB

Counternut made of polyamide.

The counternut with collar has a bigger sealing area - sealing with an additional O-ring will be simplified.

Application

- Plant and machine construction
- Automation technology
- Vehicle construction and shipbuilding
- Installation technology
- Control cabinet construction

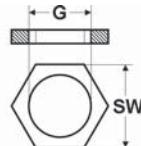

Material

Polyamide PA 6

- halogen-free
- phosphor-free
- silicone-free
- cadmium-free

Technical data

Temperature range: -40°C up to +100°C

Dimensions

BL-W Blind plug

Soft

Blind plug BL-W

Blind plates as dust cap for HSK cable glands.

Material

Foam

Technical data

Temperature range: -20°C up to +70°C

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

Dimensions

D Outer diameter

BL-W flexible

Incision sealing ring

Incision sealing ring

Incision sealing rings for universal cable inlet due to large cable clamping areas.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

Material

Chloroprene-rubber (CR)

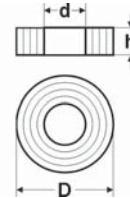

Colour: black

Note

Incision sealing rings for PG thread:
Material: NR
Temperature range: -40°C up to 90°C

Technical data

Temperature range: -30°C up to +120°C

HELUTOP HT-Clean

■ BRASS CABLE GLANDS

Cable gland

Cap nut and gland body are made from nickel-plated brass.
These glands are used for standard applications where metal glands are needed.

The terminal insert is made from polyamide 6 (PA6).

The moulded seal is made from chloroprene rubber (CR, Neoprene).

The O-ring is made from nitrile rubber (NBR, Buna-N).

Lock nut

The lock nuts are made from nickel-plated brass.

Accessories

Accessories suitable for use with the brass cable glands:

- Lock nuts
- Adapters
- Extenders
- Reducers

Accessories suitable for use with all cable glands:

- Sealing plugs
- Multiple sealing inserts / lock bolts
- O-rings
- Connection thread gaskets
- Blind plates

HELUTOP® HT-MS

Nickel-coated brass cable gland.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

Material

Brass, nickel plated
Clamp: Polyamide PA 6
Seal: Chloroprene-rubber (CR)
O-ring: NBR

Properties

- Optimum strain relief due to clamping plates
- Easy to assemble
- Large clamping areas

Note

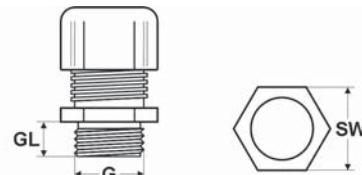

Details on the individual tests appear in section "Technical Information".

Technical data

Protection class: IP 68 - 5 bar / IP 69K

Temperature range: -20°C up to +100°C
Temperature range temporary: -40°C up to +150°C

Test standard: EN50262

HSK-MS-L

With long threaded connection

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

Material

Brass, nickel plated
Clamp: Polyamide
Seal: NBR
O-ring: NBR

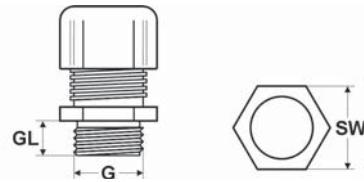

Properties

- Easy to assemble
- Completely watertight
- Optimum strain relief
- Large Clamping areas

Technical data

Protection class: IP 68 - 10 bar / IP 69K

Temperature range: -40°C up to +100°C

Dimensions

G Thread size
GL Thread length
SW Spanner size

With multiple sealing inserts

UNI-DICHT-MFD-MS

Sealing cable gland made of brass with multiple sealing inserts made of TPE.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

Material

Brass, nickel plated
Seal: TPE

Properties

- Large-area cable seal
- Easy to assemble

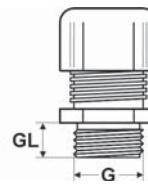

Note

Protection classification IP 68, provided that the bore diameter in the sealing insert area is equal to the cable diameter.

Technical data

Protection class: IP 65

Temperature range: -40°C up to +130°C

Dimensions

G Thread size
GL Thread length
SW Spanner size

UNI-DICHT-VK-MS Gland body

UNI-DICHT-VK-MS

Gland body made of brass for fitting in TPE inserts.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

Material

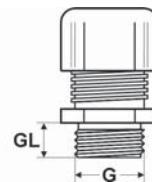

Brass, nickel plated

Note

Gland body M20x1,5 (part no. 904212) is populated by inserts PG11; part no. 904213 is used with inserts PG13,5.
Part No. 904215 and 904225 cap aperture 18mm.
Part No. 904216 and 904226 cap aperture 21mm.

Technical data

Temperature range: up to +200°C

UNI-DICHT sealing inserts

UNI-DICHT sealing insert closed

Closed TPE-V sealing inserts which fit in UNI DICHT gland bodies - plastic or brass.

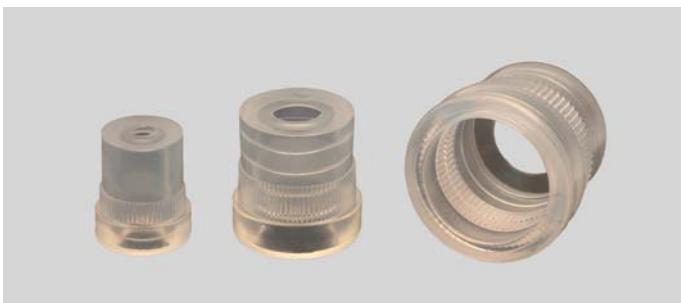

refer to page 48

UNI-DICHT sealing insert standard

Colour coded TPE sealing insert for UNI DICHT gland bodies - polyamide or brass.

refer to page 49

UNI-DICHT sealing insert silicone

Sealing inserts made of silicone for populating of UNI-DICHT gland bodies. For use in chemical industry and at high temperatures.

refer to page 148

UNI-DICHT multiple sealing insert

Multiple TPE sealing insert for fitting in UNI DICHT gland bodies - polyamide or brass.

refer to page 52

Sealing plug

For not assigned penetrations.

refer to page 33

UNI-DICHT-ASI-MS Cable gland

CE

Profile fits to ASI-bus line

UNI-DICHT-ASI-MS

Sealing cable gland made of brass with inserts made of TPE-V, profile fits to ASI-bus line.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Installation technology
- Control cabinet construction

Material

Brass, nickel plated
Seal: TPE-V

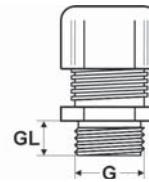

Properties

- Large-area cable sealing
- Easy to assemble

Technical data

Protection class: IP 68 - 10 bar

Temperature range: -40°C up to +135°C

Dimensions

G Thread size
GL Thread length

KVA-MS Cable gland

KVA-MS

Sealing cable gland made of brass with colour-coded Soft PVC inserts.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

Material

Brass, nickel plated
Seal: Soft PVC
O-ring: NBR

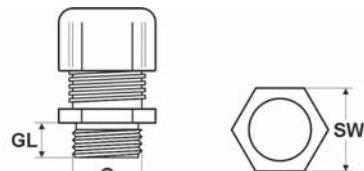

Properties

- Large-area cable sealing
- Easy to assemble
- Large clamping areas

Technical data

Protection class: IP 68 - 10 bar

Temperature range: -20°C up to +105°C

KVA-MFD-MS Cable gland

With multiple sealing inserts

KVA-MFD-MS

Cable gland made of brass with multiple sealing inserts made of Soft PVC inserts.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

Material

Brass, nickel plated
Seal: Soft PVC
O-ring: NBR

Properties

- Large-area cable sealing
- Easy to assemble

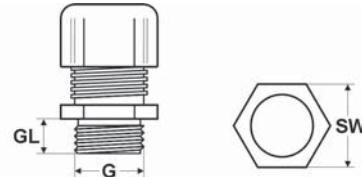

Note

Protection class IP 68, if the bore diameter in the sealing insert area is equal to the cable diameter.

Technical data

Protection class: IP 68 - 10 bar

Temperature range: -20°C up to +105°C

Dimensions

G Thread size
GL Thread length
SW Spanner size

Metric thread

KVA Sealing insert

Closed

KVA sealing insert closed

Closed sealing inserts made of Soft-PVC suitable for KVA gland bodies.

Material

Soft PVC

Technical data

Temperature range: -20°C up to +105°C

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

KVA Sealing insert

Standard

KVA sealing insert standard

Colour coded sealing inserts made of Soft-PVC suitable for KVA gland bodies.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

Material

Soft PVC

Technical data

Temperature range: -20°C up to +105°C

Note

* The KVA sealing inserts M12x1,5 (part no. 90299) can be used only with KVA brass cable glands.

* The KVA sealing inserts M12x1,5 (part no. 90291) can be used only with KVA polyamide cable glands.

KVA-ASI-MS Cable gland

To ASI-bus-cable

KVA-ASI-MS

Sealing cable gland made of brass with Soft PVC inserts, profile fits to ASI-bus cable.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Installation technology
- Control cabinet construction

Material

Brass
Seal: Soft PVC

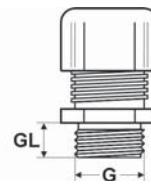

Properties

- Large-area cable sealing
- Easy to assemble

Technical data

Protection class: IP 68 - 10 bar

Temperature range: -20°C up to +105°C

KVA Sealing insert

To ASI-bus-cable

KVA sealing insert ASI

Sealing inserts made of Soft-PVC for use with KVA gland bodies. Profile fits into ASI-bus cable.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Installation technology
- Control cabinet construction

Material

Soft PVC

Properties

- Large-area cable sealing
- Easy to assemble

Technical data

Temperature range: -20°C up to +105°C

KVA-XXL-MS Cable gland

For particularly large cable diameters

KVA-XXL-MS

Cable gland made of brass for very large cable diameters.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Installation technology
- Control cabinet construction

Material

Brass, nickel plated
Seal: TPE-V
O-ring: NBR

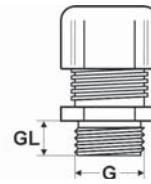

Properties

- Large-area cable sealing
- Easy to assemble
- Large clamping range

Technical data

Protection class: IP 68 - 10 bar

Temperature range: -40°C up to +135°C

Dimensions

STR Cable gland acc. to DIN

Round

STR

Round brass gland acc. to DIN 46320.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

Material

Brass, nickel plated
Seal: NR

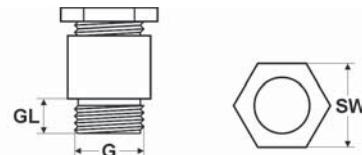

Note

Protection classification IP 65 with additional O-ring mounted at the thread.

Technical data

Protection class: IP 54

Temperature range: -30°C up to +80°C

STS-F Flat cable gland

STS-F

Brass gland for flat cables.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

Material

Brass, nickel plated

Seal: SBR

Thrust washers: Galvanized steel

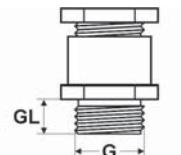

Note

Protection classification IP 65 with an additional O-ring on the external thread.

Technical data

Protection class: IP 54

Temperature range: -30°C up to +80°C

Adapter round

Adapter round brass

Round brass adapter for thread adjustment from metric to PG and NPT.

Material

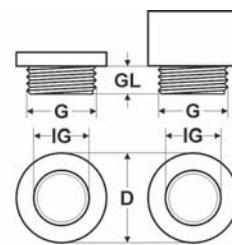

Brass, nickel plated

Technical data

Temperature range: up to +200°C

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

Dimensions

RE round Reducer

RE round brass

Brass reducer. Transition from large to small thread.

Material

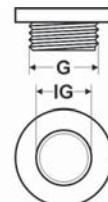

Brass, nickel plated

Technical data

Temperature range: up to +200°C

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Installation technology
- Control cabinet construction

■ CABLE GLANDS FOR ELECTROMAGNETIC COMPATIBILITY (EMC)

Cable gland

The cable glands are used in high-quality EMC applications. The cable glands are used in high-quality EMC applications.

Cap nut and gland body are made from nickel-plated brass.

The contact springs form a safe and reliable contact with the screened braiding of the cable. They are made from copper beryllium, which ensures good conductivity and a strong, long-lasting spring force. The spring ring is movable prior to the cap nut being tightened, which prevents damage to the screened braiding during assembly.

The terminal insert is made from polyamide 6 (PA6).

The moulded seal is made from chloroprene rubber (CR, Neoprene).

The O-ring is made from nitrile rubber (NBR, Buna-N).

Lock nut

The lock nuts are made from nickel-plated brass. They have cutting edges for cutting through coated surfaces.

Accessories

Accessories suitable for use with the brass cable glands:

- Counternuts

Accessories suitable for use with all cable glands:

- Sealing plugs
- O-rings
- Connection thread gaskets
- Blind plates

A copper tape prevents an expansion of the braid.

■ ELECTROMAGNETIC COMPATIBILITY

The subject of electromagnetic compatibility covers everything connected with intentional and unintentional malfunctions in electrical operating materials caused by electrical, magnetic or electromagnetic fields and processes.

Technically, a distinction is made between "conducted" and "non-conducted" faults:

Conducted interference are transferred directly from the source of the fault to the sink via power or signal cables.

Radiative interference is coupled with the sink by means of an electromagnetic field, i.e. as electromagnetic radiation, and is received there by a wire functioning as an antenna.

Malfunctions should not occur.

In the European EMC Directive, electromagnetic compatibility is defined as follows: The ability of a device, unit of equipment or system to function satisfactorily in its electromagnetic environment without introducing intolerable electromagnetic disturbances to any device, unit of equipment or system in that environment.

The power companies and the EU legislator require that manufacturers of electrical devices adhere to appropriate "protection requirements".

The EMC Directive is generally applied in conjunction with the Low Voltage Directive. The EMC Directive is generally applied in conjunction with the Low Voltage Directive.

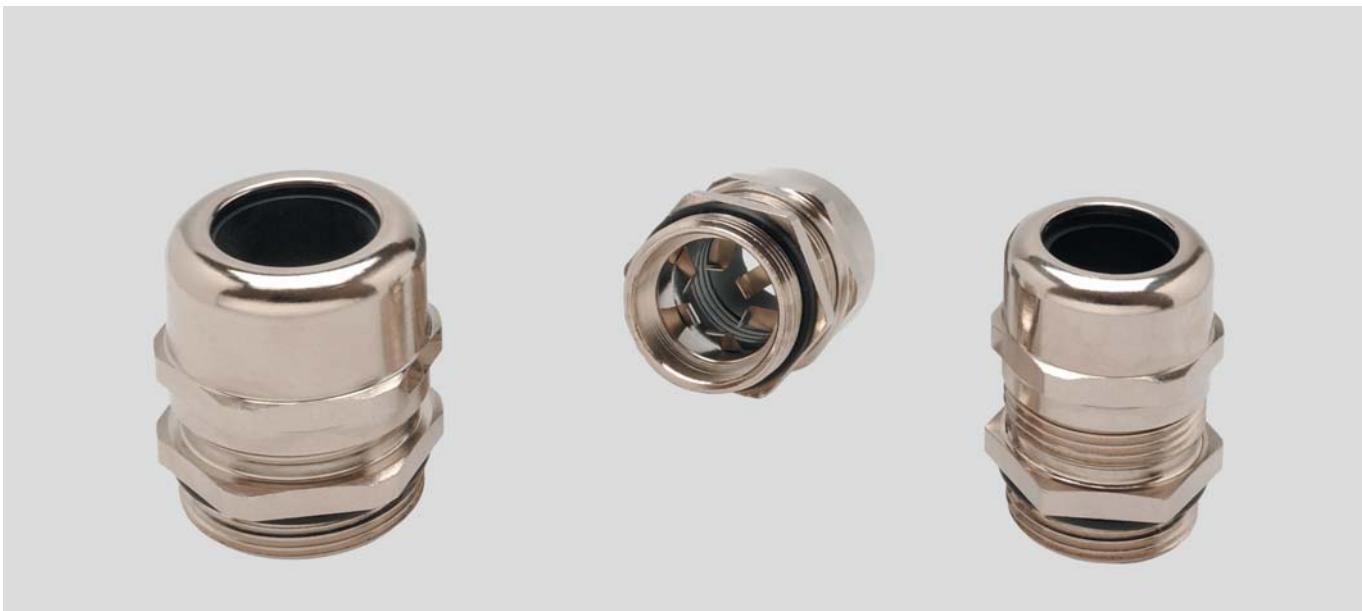

Important components to avoid malfunctions

Screened cables:

The screen over the inner sheath of the cable is designed to keep out external disturbances and keep in internally-generated disturbances.

Sheet shielding or

Screened braiding – a coverage of more than 85% is considered necessary.

HELUTOP® MS-E

EMC cable gland with clamping fingers from spring steel for quick assembly and contacting.

Material

Brass, nickel plated
Contact system: Copper-Beryllium
Clamp: Polyamide PA 6
Seal: Chloroprene-rubber (CR)
O-ring: NBR

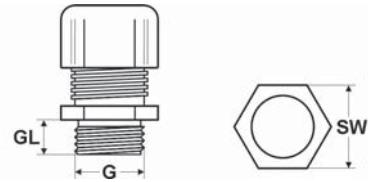

Note

Details on the individual tests appear in section "Technical Information".

HELUTOP® MS-EP

EMC- and earthing gland with integrated contact system for safe and quick assembly as well as contacting.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

Material

Brass, nickel plated
Contact system: Copper-Beryllium
Clamp: Polyamide PA 6
Seal: Chloroprene-rubber (CR)
O-ring: NBR

Properties

- Optimum strain relief through clamping plates
- No damage of shield during assembly or disassembly by moving contact ring
- Contact made automatically when the gland is closed
- Excellent shield damping and current deflection
- High savings achieved in time and assembly costs

Note

Details on the individual tests appear in section "Technical Information".

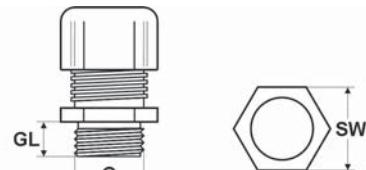

Technical data

Protection class: IP 68 - 5 bar

Temperature range: -40°C up to +100°C

Test standard: EN50262

Contact system: patented

ELECTROMAGNETIC COMPATIBILITY

EMC glands

The screen of the cable is contacted with the housing of the control/motor via appropriate cable glands.

If the screen is applied at both ends, then one has the additional benefit of potential equalisation at both ends, and effective screening. Here it should be ensured that the two grounds are not different, otherwise a flow of disturbing equalising currents could occur.

The contact in the gland is generally created by means of a contact spring. This gives a good contact but also allows rapid assembly. Our HELUTOP® MS-EP 4 and HELUTOP® MS-EP have a simultaneously-rotating spring ring. Provided that the cable is not yet fixed, it is still possible to turn the cable in the gland. Only when it is fixed by turning the cap nut is the screen contact also finally fixed.

The particularly simple cable assembly and disassembly conditions, the gentle spring contact on the cable shield and the EMC shield's excellent resistance to vibrations are also outstanding characteristics that distinguish the new HELUTOP® MS-EP4.

Most important accessories: Lock nut with cutting edges.
Painted, anodised or contaminated surfaces are cut through by the cutting edges and the contact between the cable gland and the housing is thereby securely made.

HELUTOP® MS-EP4

EMC- cable gland with integrated contact system.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

Material

Brass, nickel plated
Contact system: Copper-Beryllium
Clamp: Polyamide PA 6
Seal: Chloroprene-rubber (CR)
O-ring: NBR

Properties

- Easy installation
- Secure contact
- High vibration resistance

Note

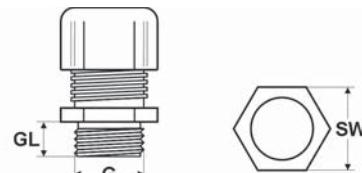

Details on the individual tests appear in section "Technical Information".

Technical data

Protection class: IP 68 - 5 bar

Temperature range: -40°C up to +100°C

KVA-XXL-MS-E EMC cable gland

EMV

For particularly large diameters

KVA-XXL-MS-E

EMC and sealing cable gland made of brass for particularly large cable diameters.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Installation technology
- Control cabinet construction

Material

Brass, nickel plated
Contact system: stainless steel 1.4310

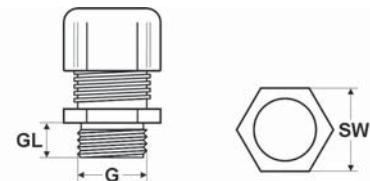

Properties

- Large-area cable sealing
- Easy to assemble
- Large clamping range

Technical data

Protection class: IP 68 - 10 bar

Temperature range: -40°C up to +135°C

Copper tape

Stabilizes the braided ends of shielded cables and wires.

Material

Rolled copper foil

Properties

- Self-adhesive
- With protective cover for the adhesive
- Electrically conductive adhesive
- Adhesive strength 900g/inch (according to KS A 1107)
- Thickness approx 40µm
- Thickness incl. adhesive approx 70µm

Note

HELUTOP MS-EP4

KVA-XXL-MS

HELUTOP HT-clean

■ STAINLESS STEEL CABLE GLANDS

Cable gland

Cap nut and gland body are made of stainless steel.

Due to their high degree of corrosion resistance and longevity, these glands are suitable for tough conditions:

- Heavy chemical loads
- Cleaning agents (e.g. in the food industry)
- Weather-resistant when used outdoors.

The terminal insert is made from polyamide 6 (PA6).

The moulded seal is made from chloroprene rubber (CR, Neoprene).

The O-ring is made from nitrile rubber (NBR, Buna-N).

Lock nut

The lock nuts are made from stainless steel.

Accessories

Accessories suitable for use with the stainless steel cable glands:

- Lock nuts

Accessories suitable for use with all cable glands:

- Sealing plugs
- Multiple sealing inserts / lock bolts
- O-rings
- Connection thread gaskets
- Blind plates

Stainless steel

HELUTOP® HT-E

Stainless steel cable gland for heavy load.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

Material

Stainless steel 1.4305 / AISI 303
Clamp: Polyamide PA 6
Seal: Chloroprene-rubber (CR)
O-ring: NBR

Properties

- Optimum strain relief through clamping plates
- Highly corrosion-resistant
- Highly durable
- Easy to assemble
- Large clamping areas

Note

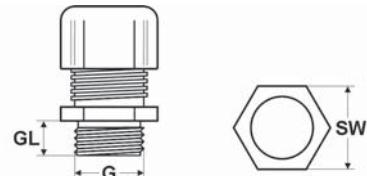

Details on the individual tests appear in section "Technical Information".

Technical data

Protection class: IP 68 - 5 bar

Temperature range: -40°C up to +100°C

Test standard: EN50262

UNI-DICHT-VK-PVDF Body gland

Polyvinylidene fluoride

UNI-DICHT-VK-PVDF

Gland body made of PVDF for populating with inserts made of TPE or silicone. For use in chemical industry, at high temperatures, or long lasting UV-stress.

Application

- Chemical industry
- Food industry
- Plant and machine construction
- Automation technology
- Installation technology
- Control cabinet construction

Material

PVDF

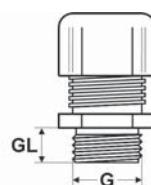

- phosphor-free
- cadmium-free

Note

Use short-sized inserts when using gland bodies of size M12x1.5 or M20x1.5.

Technical data

Temperature range: -40°C up to +150°C

Dimensions

UNI-DICHT Sealing insert

Standard, silicone

UNI-DICHT sealing insert silicone

Sealing inserts made of silicone for populating of UNI-DICHT gland bodies. For use in chemical industry and at high temperatures.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

Material

Silicone

- halogen-free
- phosphor-free
- cadmium-free

Note

Short-size inserts are used with gland bodies made of PVDF.

Standard size inserts are used with gland bodies made of stainless steel.

Technical data

Temperature range: -60°C up to +200°C

HELUTOP® HT-PA-EX

Explosive area

HELUTOP® HT-PA-EX

For use in explosive areas.

Application

Zone 1, Zone 2, Zone 21, Zone 22, IIA, IIB, IIC

Material

Polyamide PA 6
Seal: Chloroprene-rubber (CR)
O-ring: Chloroprene-rubber (CR)

- phosphor-free
- silicone-free
- cadmium-free

Note

Certificate of Conformity: IMQ 13 ATEX

010 X, IEC Ex IM2 13.003

Marking: Ex II 2GD Ex e IIC Gb, Ex tb IIIC Db

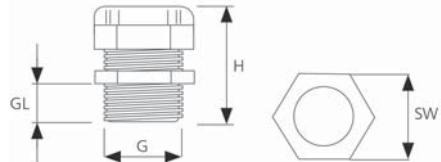

Technical data

Protection class: IP 66 / IP 68 (EN 60529)

Impact-resistant: 4 Joule

Temperature range: -40°C up to +80°C

Test standard: EN 60079-0:2012 / EN 60079-7:2007 / EN 60079-11:2012 / EN 60079-31:2014 / IEC 60079-0:2011 / IEC 60079-7:2006 / IEC 60079-11:2011 / IEC 60079-31:2013

HSK-EX

For use in explosive areas

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

Material

PA 6, VO acc. to UL 94
Seal: NBR
O-ring: NBR

- halogen-free
- phosphor-free
- silicone-free
- cadmium-free

Properties

- Easy to assemble
- Completely water-tight
- Optimum strain relief
- Large clamping areas

Note

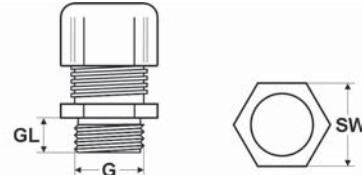

Certificate of Conformity:
EExell DMT 02 ATEX E 047 X

Technical data

Protection class: IP 68 - 10 bar / IP 69K

Temperature range: -20°C up to +95°C

Test standard: EN 60079-0:2006

HSK-EX-Active

For use in explosive areas

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

Material

Fibreglass reinforced polyamide V0 acc. to UL 94

Seal: NBR

O-ring: NBR

- halogen-free
- phosphor-free
- silicone-free
- cadmium-free

Technical data

Protection class: IP 68 – 10 bar acc. to DIN EN 60529

Temperature range: -20°C up to +85°C

Test standard: EN 60079-0:2012 / EN 60079-7:2007 / EN 60079-31:2011 / IEC 60079-0:2011 / IEC 60079-7:2007 / IEC 60079-31:2013

Properties

- Easy to assemble
- Completely water-tight
- Optimum strain relief
- Large clamping areas

Note

EC-Type Examination Certificate:

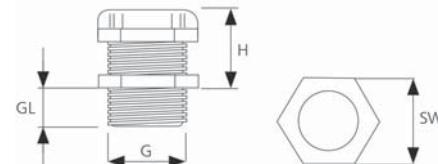

BVS 14 ATEX E 025 X

IECEx Certificate of Conformity:

IECEx BVS 14.0020X

Marking:

II 2G Ex e IIC Gb, II 1D Ex ta IIIC Da

HELUTOP® HT-MS-EX-d 1 EMV

For use in explosive areas. For cables with braided hose, copper tinned (EMC)

Application

- Zone 1, Zone 2, Zone 21, Zone 22, IIA, IIB, IIC

Material

Brass, nickel plated
Contact system: Copper-Beryllium
Clamp: Polyamide PA 6
Seal: Chloroprene-rubber (CR)
O-ring: Chloroprene-rubber (CR)

Note

Also available in stainless steel 1.4404, further sizes or for other temperature ranges on request.

Certificate of Conformity: IMQ 11 ATEX 018 X

Marking: Ex-d, Ex-e EX II 2GD Ex d IIC Gb, Ex e IIC Gb, Ex tb III CDb

HSK-MS-EX

For use in explosive areas

Application

- Plant and machine construction
- Automation technology
- Control cabinet construction
- Installation technology

Material

Brass, nickel plated
Clamp: Polyamide PA 6
Seal: NBR
O-ring: NBR

Properties

- Easy to assemble
- Completely water-tight
- Optimum strain relief
- Large clamping areas

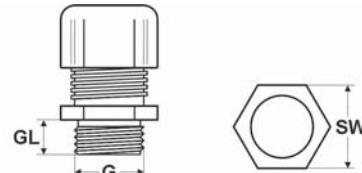

Note

Certificate of Conformity:
DMT 03 ATEX E 051 X

Technical data

Protection class: IP 68 - 10 bar / IP 69K

Temperature range: -20°C up to +95°C

Adapter PA-ATEX

ATEX 

Explosive area

Adapter PA-ATEX

Adapter made of polyamide for thread adjustment from PG to metric, for use in explosive areas.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Installation technology
- Control cabinet construction

Material

Polyamide

Colour: black
RAL: 9005

- halogen-free
- phosphor-free
- silicone-free
- cadmium-free

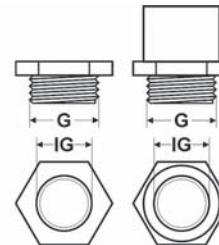

Note

Approval: PTB 04 ATEX 1040 X

Technical data

Protection class: IP 66

Temperature range: -20°C up to +70°C

Dimensions

HELUTOP HT

HSK-PVDF

HELUTOP MS-EP4

KVA-XXL-MS

HELUTOP HT-Clean

HELUTOP® Easy

Threadless cable gland for easy and quick installation with patented spring/snap system without tools.

Advantages:

- No tools required for installation
- No threaded holes required
- No locknuts required
- Same clamping range as HELUTOP® HT-Series
- VDE-according to DIN EN 62444
- Gland and cable will be fixed with clockwise thread
- Installation in tight areas and no-access spaces (locknut side)
- Cable gland fits as tightly as traditional gland held in place with threaded hole or locknut
- Hexagon of body and cap are same SW
- Large wall thickness range: 0,5 – 4,0 mm
- Quick and easy disassembly with separate tool. No damage to cable gland or wall

Material

PA 6, V2 acc. to UL 94
Seal: Chloroprene-rubber (CR)

Note

Additional colors on request: red RAL 3020, white RAL 9003, blau RAL 5015.
Dimensions borehole Ø = +/- 0.1

Technical data

Protection class: IP66 / IP68 - 5 bar

Temperature range: -20°C up to +100°C

Temperature range temporary: -30°C up to +150°C

HELUFAST

Threadless plastic cable gland for easy and quick installation.

Application

- Plant and machine construction
- Automation technology
- Installation technology
- Control cabinet construction

Material

PA 6, V2 acc. to UL 94
Seal: NBR

- halogen-free

Properties

- Quick and simple assembly
- Can be mounted close together
- No locknut required
- Optimum strain relief
- Large clamping areas
- Infinitely applicable for different wall thicknesses

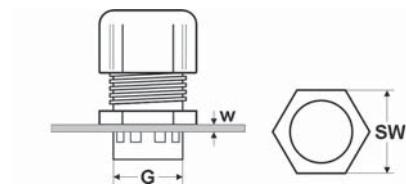

Note

Wall thickness 2,5-4,0 m.
Color of clamping ring: green

Technical data

Protection class: IP 68 - 5 bar

Temperature range: -20°C up to +100°C

HELUTOP® HT-Clean Stainless steel cable gland

HELUTOP® HT-Clean

Highest requirements to cleanliness and cleaning.

- EHEDG authorized
- ECOLAB certified

Application

- Food industry - milk and meat products
- Packaging of food machines
- Beverage industry
- Pharmaceutical industry
- Clean room technology
- Biotechnology
- Chemical industry

Material

Stainless steel 1.4305 / AISI 303

Strain relief: POM

Grommet: TPE according to FDA 21 CFR 177.2600

Technical data

Protection class: IP 68-5 bar, 30 min.
according to EN 60529;
IP 69K according to DIN 40050-9

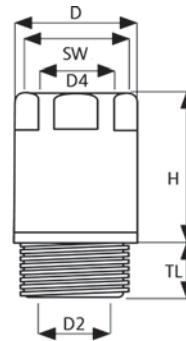

Temperature range: -20°C up to +100°C
Temperature range temporary: -40°C up to +150°C

Properties

- The smooth surface prevents to adhere harmful micro organisms
- Easy, fast and less expensive cleaning because of the smooth surface
- Suitable for high pressure steam cleaning
- Resistant against chemical cleaning supplies
- No threads are exposed
- High tightness
- No enter from water and dirt from outside
- Reliable strain relief due to strain relief element separated from grommet

Note

- For tightening from outside use the listed tightening tool
- Assembly with commercial socket wrench
- Delivery including counternut

HELUTOP® HT-MS Plus

Cable gland
For increased strain relief

HELUTOP® HT-MS Plus

Nickel-coated brass cable gland for very high density and strain relief.

Application

- Plant and machine construction
- Automation technology
- Vehicle construction and shipbuilding
- Installation technology
- Control cabinet construction

Material

Brass, nickel plated
Seal: NBR
O-ring: NBR

Properties

- Optimum strain relief through clamping plates (strain relief B to EN 50262 over the entire clamping region)
- Easy to assemble
- Large clamping areas

Note

For rotating the cap nut use tool. Note tightening torque!

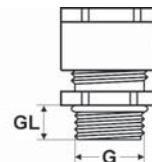

Details on the individual tests appear in section "Technical Information".

Technical data

Protection class: IP 68 - 40 bar / IP 69K

HSSV-KF Collapsible flange gland

HSSV-KF Collapsible flange gland

Opening flange angle for connection glands or cable glands.

- Flange angle opened to enable simple insertion of pre-assembled cables
- Simple assembly
- Highly stable

Material

Polyamide PA 6

Flammability acc. to UL 94: V0

- halogen-free
- cadmium-free

Properties

Resistant to a multitude of

- Fuels
- Mineral oils
- Greases
- Weak bases
- Weak acids

Note

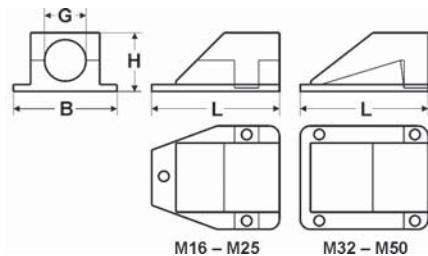

- UR-tested
- Threaded connection metric to EN 60423

Technical data

Protection class: IP 65

Temperature range: -40°C up to +110°C

Temperature range temporary up to +140°C

HELUTOP® HT-AIR-PA To prevent water condensation

HELUTOP® HT-AIR-PA

Cable gland with integrated pressure compensation and ventilation system. Prevents water condensation.

Application

- High sealing enclosures
- Environments with extensive temperature ranges

Material

Polyamide PA 6
Seal: Chloroprene-rubber (CR)
Flat seal: NBR
Vent element: PTFE

- phosphor-free
- silicone-free
- cadmium-free

Technical data

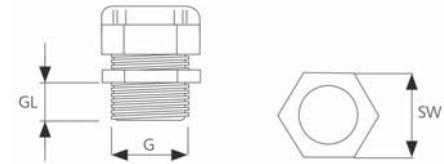

Protection class: IP 66 / IP 67 / IP 69k

Temperature range: -20°C up to +80°C
Temperature range temporary: -30°C up to +150°C

Test standard: EN 50262, EN 60423 (metric thread)

Properties

- A membrane accounts for, that air humidity can leave the enclosure, just at less pressure differences
- Different pressures will reduce water condensation
- No enter from water and dirt from outside
- High strain relief
- Large clamping areas

Dimensions

G Thread size
GL Thread length

HELUcond PE Corrugated tubes, polyethylene

Weak stress

HELUcond PE-F / PE-B

Cable protection tube for weak stress applications.

Capacity/100mm NW 17: approx. 200 N

Application

- Plant and machine construction
- Automation technology
- Installation technology
- Control cabinet construction

Material

Mod. Polyethylene

Flammability acc. to UL 94: HB

- halogen-free

Properties

- Resistant to bases.

Note

Suitable connection glands:
HELUquick.

Technical data

Temperature range: -40°C up to +70°C

Temperature range temporary up to +90°C

HELUcond PA6-L Corrugated tubes, polyamide

Weak stress

HELUcond PA6-L

Cable protection tube for weak to medium stress applications.

Capacity/100mm NW 17: approx. 250 N

Application

- Plant and machine construction
- Automation technology
- Vehicle construction and shipbuilding
- Installation technology
- Control cabinet construction

Material

Mod. Polyamide PA 6

Flammability acc. to UL 94: V2

- halogen-free
- phosphor-free

Properties

Resistant to a multitude of

- Fuels
- Mineral oils
- Greases
- Weak bases
- Weak acids

Technical data

Temperature range: -40°C up to +120°C
Temperature range temporary up to +150°C

Fine profile

| Part no. grey | Part no. black | Nominal size mm | Inner Ø mm | Outer Ø mm | Per metres | Net EUR/100 metres at a purchase of up to 100 | 101 - 500 | 501 - 1000 |

HELUcond PA6-S Corrugated tubes, polyamide

Medium stress

HELUcond PA6-S

Cable protection tube for medium to heavy-duty applications.

Capacity/100mm NW 17: approx. 350 N

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

Material

Mod. Polyamide PA 6

Flammability acc. to UL 94: V2

- halogen-free
- cadmium-free

Properties

Resistant to a multitude of

- Fuels
- Mineral oils
- Greases
- Weak bases
- Weak acids

Technical data

Temperature range: -40°C up to +120°C

Temperature range temporary up to +150°C

Note

Suitable connection glands:
HELUquick, HSSV.

Plastic male thread

HELUquick gland straight

Quick-insert glands for a reliable, quick connection.

Suitable for parallel-corrugated HELUcond protection tubes.

Material

Polyamide PA 6

- halogen-free
- silicone-free
- cadmium-free

Technical data

Protection class: IP 68

Temperature range: -40°C up to +115°C

Properties

Resistant to a multitude of

- Oil
- Gasoline
- Weak bases
- Weak acids

Note

- UR-tested

Disassembly without additional opener.
Also available angled (45° and 90°).

■ HELUKABEL® PROTECTION TUBE SYSTEMS

PLASTIC/METAL

HSSV HELUcond Quick Connection

Just insert the tube and you are done

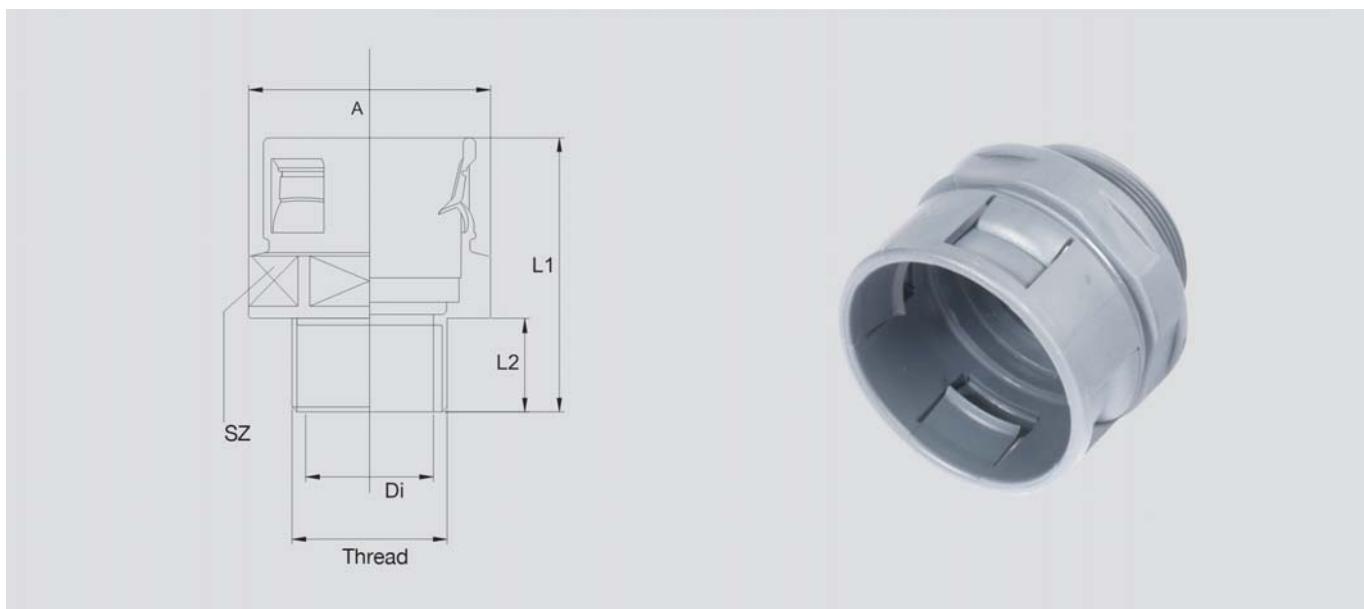

The quick and easy one-hand installation or removal saves time. The corrugated tube will be just inserted into the gland body and the connection is ready. The connection is released by sliding a special opener over the corrugated conduit until the raster unit is pushed outwards from the recesses in the conduit. Pull tou the corrugated conduit. This operation is completed manually in just a few minutes.

The BENEFITS of this system

- Captive components from one piece
- Quick and easy single-handed assembly using the connection system
 - even in locations which are difficult to access
- Compact gland design enables adjacent installation
 - extremely high packing density
- Yellow safety opener enables simple disassembly from the front
- Universal gland installation
 - universal gland installation for a number of different corrugated profiles
- Protection classification: IP 65 to IP 68
 - Seating surface in gland (corrugated tube) is cylindrical, improving tightness
- Extremely reliable, especially in the field of robotics
 - vibrations do not cause connection to self-release
 - high extraction forces
 - corrugated conduit can be released only using the yellow safety opener
 - cannot be opened accidentally
 - corrugated conduit can rotate in the gland, thus preventing torsion
- Environmentally-friendly
 - halogen-free polyamide PA 6, combustibility to UL 94:V0
 - Material is UL and CSA listed
 - gland body is 100% recyclable
- Very cost-effective
 - optimum price/performance ratio thanks to one gland providing entire function

HSSV Corrugated tubes conduit gland - straight

Male thread, plastic

HSSV gland straight

Quick-insert glands for a reliable, quick connection.

Suitable for parallel-corrugated HELUcond protection tubes.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

Material

Polyamide PA 6

Flammability acc. to UL 94: V0

- halogen-free
- cadmium-free

Properties

Resistant to a multitude of

- Fuels
- Mineral oils
- Greases
- Weak bases
- Weak acids

Technical data

Protection class: IP 65

Temperature range: -40°C up to +110°C

Note

- UR-tested

Protection classification:

- IP 66 with outer seal

Threaded connection:

Metric to EN 60423

Each unit includes 1 safety opener

HSSV Corrugated tubes conduit gland - straight

Metal female thread

HSSV gland straight

Quick-insert glands with metallic female thread for a reliable, quick connection. Suitable for parallel-corrugated HELUcond protection.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

Material

Polyamide PA 6

Flammability acc. to UL 94: V0 tubes.

- halogen-free
- cadmium-free

Properties

Resistant to a multitude of

- Fuels
- Mineral oils
- Greases
- Weak bases
- Weak acids

Note

Protection classification:

- IP 66 with outer seal

Threaded connection:

Metric to EN 60423

Each unit includes 1 safety opener

Technical data

Protection class: IP 65

Temperature range: -40°C up to +110°C

HSSV-ZE Corrugated tubes cable gland with strain relief

Plastic male thread

Conduit gland HSSV with strain relief

Combined quick-insert cable glands for a reliable, quick connection.

Suitable for parallel-corrugated HELUcond protection tubes.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

Material

Polyamide PA 6

- halogen-free
- cadmium-free

Technical data

Protection class by tube: IP 65

Temperature range: -25°C up to +100°C

Properties

Resistant to a multitude of

- Fuels
- Mineral oils
- Greases
- Weak bases
- Weak acids

Note

Threaded connection:

metric to EN 60423

Each unit includes 1 safety opener

HSSV combination Corrugated tubes cable gland

Conduit gland HSSV, combined

Combined with brass cable gland.

Combined quick-insert cable glands with single sealing insert for a reliable, quick connection. Suitable for parallel-corrugated HELUcond protection tubes.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

Material

Flammability acc. to UL 94: V0

- halogen-free
- cadmium-free

Properties

Resistant to a multitude of

- Fuels
- Mineral oils
- Greases
- Weak bases
- Weak acids

Note

Protection classification on cable with UNI-DICHT sealing insert:

- with colour-coded sealing insert: IP 68 - 10 bar in indicated clamping area
- with multiple sealing inserts to IP 65 and/or IP 68, when bore diameter in seal insert and cable diameter are identical
- Threaded connection:
Metric to EN 60423
- Each unit includes 1 safety opener
- Gland also available with PG thread on request.
- Suitable UNI-DICHT sealing inserts are detailed in Section "Cable glands".

Technical data

Protection class by tube: IP 65

Temperature range: -40°C up to +110°C

With flange pipe holder

USH

Tube holder for HELUcond protection tube.
Universal, high-strength tube holder with double struts.
Fastening bores suitable for horizontal and vertical rail systems in control cabinet.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

Material

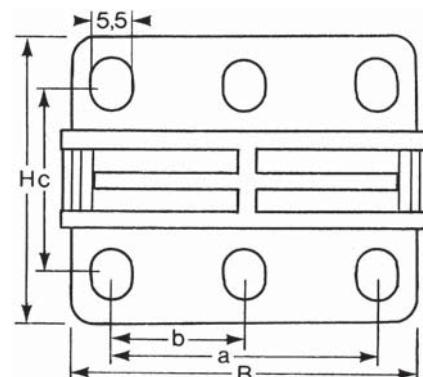

Polycarbonate

Flammability acc. to UL 94

- halogen-free
- phosphor-free
- cadmium-free

Technical data

Temperature range: -30°C up to +100°C

■ HELUCOND PROTECTION TUBE

Cable protection tube distributor

Protection tube distributor for a secure and fast connection.
Suitable for parallel corrugated HELUcond protection tubes.

Application

- Plant construction and mechanical engineering
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

Material properties

- Material:
- Polyamide PA6
 - Halogen-free, cadmium-free
 - In black UV resistant
- Properties:
- Resistant against a number of: fuels, mineral oils, greases weak bases, weak acids

Technical data

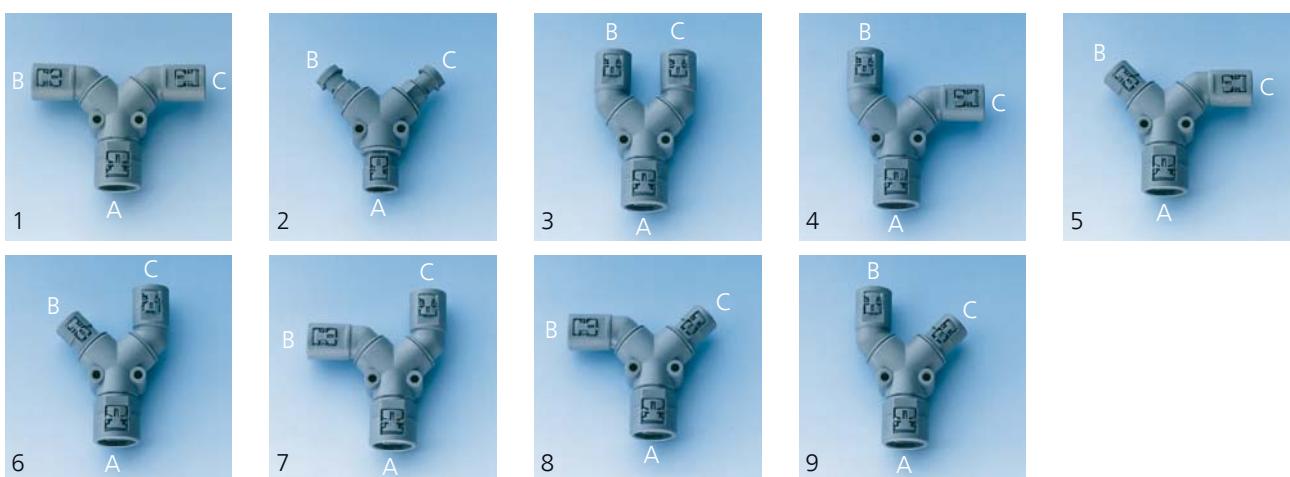

- Protection classification:
• IP 54
- Operating temperature:
-40°C to +110°C
- Recommended warehousing:
• Storage temperature +20°C ±5°C
• Humidity 55% to 75%

The variable HELUcond protection tube distributor for nominal widths NW 17 reduces to 7.5

1 Basis = 9 different versions

The different variations are numbered from 1 to 9. Please select the required version and indicate the necessary nominal width of the corrugated tube for connection A, B and C. The corrugated tube connections will be pre-assembled at factory following your wishes. You will exactly receive the distributor according to your requirements.

Bore distance: 24 mm / bore diameter: 5.2 mm

■ HELUCOND PROTECTION TUBE

Cable protection tube distributor

Protection tube distributor for a secure and fast connection.
Suitable for parallel corrugated HELUcond protection tubes.

Application areas:

- Plant construction and mechanical engineering
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

Material properties

- Material
- Polyamide PA6
 - Halogen-free, cadmium-free
 - In black UV resistant
- Properties:
- Resistant against a number of: fuels, mineral oils, greases weak bases, weak acids

Technical data

- Protection classification:
• IP 54
- Operating temperature:
-40°C to +110°C
- Recommended warehousing:
• Storage temperature +20°C ±5°C
• Humidity 55% to 75%

The variable HELUcond protection tube distributor for nominal widths NW 29 reduces to 7.5

1 Basis = 2 x 3 different versions

The basic model is the same on both sides and enables 2 x 3 variations.

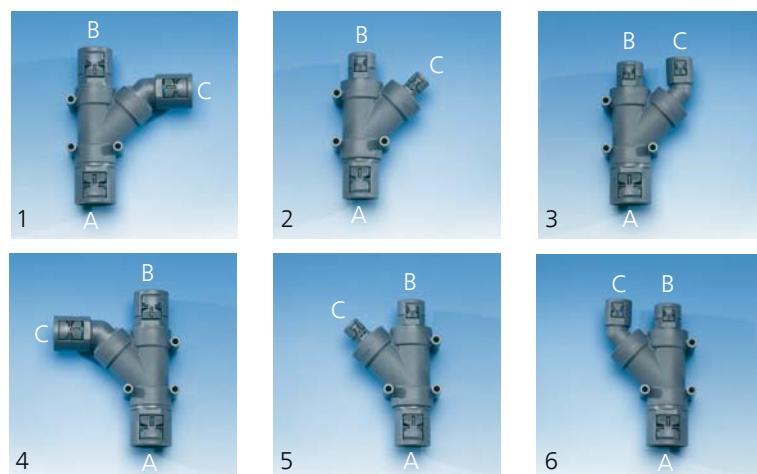

The different variation possibilities are numbered from 1 to 6.

Please select the required version and indicate the necessary nominal width of the corrugated tube for connection A, B and C.

The corrugated tube connections will be pre-assembled at factory following your wishes.

You will exactly receive the distributor according to your requirements.

Bore distance: 47 mm / bore diameter: 6.2 mm

■ JUMBO ASSEMBLY INSTRUCTION

JUMBO

One-piece flange connection

Suitable for parallel corrugated JUMBO protection tubes.

Saves time and money when it comes to install cables and wires to machines and systems.

There are often many cables and wires have to be installed between machines and equipment. These cables and wires are for compressed air or hydraulic liquids or used for power supply cables. For safety reasons, it is recommended to lay these cables in bundles. Therefore, there are protection tubes which protect cables for damages.

So far it has been difficult to replace a damaged cable or to add a new one as the connecting parts - especially those with an angle profile - made it almost impossible to assemble or disassemble the particular cable.

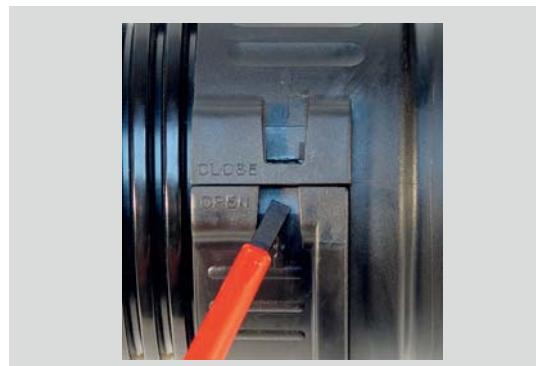

This problem has now been solved by the protection tube form JUMBO series. It features straight and angle single-part profiles.

The JUMBO multi-tubing is pushed by pressure into the threaded joint at an angle of 30° until it clicks in. It is now already pre-fixed. The hinge is locks, this can be done with and without tools. You will benefit from a safe, flexible, and optically appealing cable protection system.

Another advantage of the JUMBO systems is that additional cables can be added and damaged cables can be replaced easily and without any problems.

You just need commercial tools to disengage the notch opposite the film flange. The tube is still held. The tubing is dismantled from the joint by pulling the safety fish at the lever extension of the safety notch.

Easy mounting through pre-locking mechanism

JUMBO PA6 oversize corrugated tubes, polyamide

For heavy-duty mechanical applications

JUMBO PA6

Cable protection tube for medium to heavy-duty applications.

Capacity/100mm: approx. 1200 N / 800 N

Material

Mod. Polyamide PA 6

Flammability acc. to UL 94: V0

Technical data

Temperature range: -40°C up to +140°C

Temperature range temporary up to +160°C

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

Properties

Resistant to a multitude of

- Fuels
- Mineral oils
- Greases
- Weak bases
- Weak acids

Note

Suitable connection glands:

JUMBO gland

Bending behaviour: very good

JUMBO PA12 Oversize corrugated tubes, polyamide PA12

For heavy-duty mechanical applications

JUMBO PA12

Cable protection tube for heavy-duty applications.
Capacity/100mm: approx. 700 N / 800 N

Application

- Robotics
- Handling systems
- Vehicle construction
- Drag chains

Material

Mod. Polyamide 12
Flammability acc. to UL 94: V0

- halogen-free
- cadmium-free

Properties

Resistant to a multitude of

- Fuels
- Mineral oils
- Greases
- Weak bases
- Weak acids

Note

Suitable connection glands:
JUMBO gland

JUMBO PUR oversize corrugated tubes, polyurethane

For maximum mechanical applications

JUMBO PUR

Cable protection tube for maximum duty robot applications.

- Lowest reset quality
- High abrasion resistance

Capacity/100mm: approx. 500 N / 800 N

Application

- Robotics
- Handling systems
- Vehicle construction
- Drag chains

Material

Mod. Polyurethane PUR

Flammability acc. to UL 94: HB

- halogen-free
- cadmium-free

Properties

Resistant to a multitude of

- Fuels
- Mineral oils
- Greases
- Weak bases
- Weak acids

Note

Suitable connection glands:

JUMBO gland

Bending behaviour: very good

Technical data

Temperature range: -40°C up to +125°C

Temperature range temporary up to +140°C

JUMBO-FP Flange connection

JUMBO-FP

One-piece straight flange connection.
Suitable for parallel-coiled JUMBO protection tubes.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

Material

Polyamide PA 6

Flammability acc. to UL 94: V0

- halogen-free
- cadmium-free

Properties

Resistant to a multitude of

- Fuels
- Mineral oils
- Greases
- Weak bases
- Weak acids

Technical data

Protection class: IP 54

Temperature range: -40°C up to +115°C

Note

Additional seal increases protection classification
to IP 65

■ SPLIT PROTECTION TUBES

Split protection tubes are perfectly suited for subsequent protection.

Cables and wires are often wired with their connectors. If protection then becomes necessary, HELUcond CO-PA and HELUcond CO-PP are the right solution.

The wires can be inserted into the inner protection tube using the KE cable insertion aid. The second protection tube closes and protects finally. The dividable COV gland including the lock nut protects the housing connection. The tube holder COS and the flanged pipe holder USH are used for fastening the protection tube.

HELUcond CO-PA Corrugated tubes, polyamide

Dividable

HELUcond CO-PA

The dividable and reclosable cable protection tube for subsequent mechanical protection.

- Trouble-free retrofitting
- High mechanical strength
- Simple installation of pre-fabricated cables
- Repair of existing systems

Application

- Plant and machine construction
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

Material

Polyamide 6
UV-resistant

Flammability acc. to UL 94: HB

- halogen-free

Properties

Resistant to a multitude of:

- Fuels
- Mineral oils
- Greases
- Weak bases
- Weak acids

Technical data

Temperature range: -40°C up to +120°C

Temperature range temporary up to +150°C

LT-E-UI
EEK

S Cable protection tube

With integrated PVC sheathed spring steel wire helix

Type S

Cable protection tube type S with integrated spring steel wire, extremely flexible, expandable and compressible.

Application

- Plant and machine construction
- Automation technology
- Installation technology
- Control cabinet construction

Material

PVC

- silicone-free
- cadmium-free

Note

Suitable connection glands:
USK, LK-I, US and LI

Technical data

Temperature range: -25°C up to +80°C

Temperature range temporary up to +100°C

S-PU Cable protection tube

With integrated PUR sheathed spring steel wire helix

Type S-PU

Cable protection tube type S-PU with PUR outer sheath and integrated spring steel wire, extremely flexible, expandable and compressible.

Application

- Plant and machine construction
- Automation technology
- Installation technology
- Control cabinet construction

Material

Polyurethane
UV-resistant

- halogen-free
- silicone-free
- cadmium-free

Properties

Resistant to

- Oil
- Gasoline
- Microbial attack
- UV-radiation
- Weathering
- Extensively to acids and alkalis

Technical data

Temperature range: -40°C up to +80°C

M Metal cable tube

With Agraff profile

Type M

Spiral wound metallic tube with double-folded profile (Agraff profile).
High tensile and torsional strength.

Material

Cold strip DC 03 acc. to EN 10139, galvanized,
Fe/Zn 3
UV-resistant

Technical data

Temperature range: up to +220°C

Application

- Plant and machine construction
- Automation technology
- Installation technology
- Control cabinet construction

Note

SPR-AS Metal cable tube

With latched profile

Type SPR-AS

Spiral wound metal sleeve with hooked profile.
High tensile and transverse pressure load rating.

Material

Cold strip DC 03 acc. to EN 10139, galvanized,
Fe/Zn 3
UV-resistant

Technical data

Temperature range: up to +220°C

Application

- Plant- and machine construction
- Automation and installation technology
- control cabinet construction

SPR-PVC-AS Metal cable tube with plastic sheath

With latched profile

Type SPR-PVC-AS

Spiral wound metallic tube with latched profile and PVC sheath.
Weather-resistant, high tensile and transverse pressure load rating.

Application

- Plant and machine construction
- Automation technology
- Control cabinet construction

Material

Cold strip DC 03 acc. to EN 10139, galvanized, Fe/Zn 3

Outer sheath material: PVC

Technical data

Temperature range: -25°C up to +80°C
Temperature range temporary up to +100°C

With agraff-profile

**Type UI**

Spiral wound tube made by stainless steel with double-folded profile (Agraff profile).
High tensile and torsional strength.

Material

Stainless steel
UV-resistant

Technical data

Temperature range: -100°C up to +600°C

Application

- Robotics
- Steel and aluminium foundry industry
- Maschine and apparatus building
- Off-shore-industry
- Security
- Metal, glass and ceramics industry

Note

USK Tube connectors, plastic

With high degree of protection

USK

Tube gland for type S, S-PU and K protection tubes.

Material

Polypropylene

Technical data

Protection class: IP 65

Temperature range: -10°C up to +110°C

Application

- Plant and machine construction
- Automation technology
- Installation technology
- Control cabinet construction

L Tube gland, metal

With circlip

L

Tube gland for protection tubes type S, S-PU, M, SPR-AS, SPR-EDU-AS, SPR-PVC-AS.

The rotating interior sockets with tube rotation lock is inserted into the gland and secured against tearing by the spring steel ring.

Material

Brass, nickel plated

Grounding sleeve: Brass, bare

Retaining ring: ex spring steel

Technical data

Protection class: IP 40

Temperature range: -40°C up to +250°C

LT-E-UI straight

LIQUIDTIGHT gland for stainless steel protection tubes UI.
The conical earthing sleeve offers maximum surface contact for optimum sealing and earthing.

Material

Stainless steel
Grounding sleeve: Brass, nickel plated
Seal: Brass, nickel plated
Seal: NBR

- halogen-free

Technical data

Protection class: IP 40

Temperature range: -55°C up to +260°C

Application

- Robotics
- Steel and aluminium foundry industry
- Machine and apparatus building
- Off-shore industry
- Security
- Metal, glass and ceramics industry

EES
T&B TUBE CONNECTOR
LT-CNP

ANACONDA
SEALTITE®

EF

Universal applications.
Protection tube from reinforced, galvanized steel band with spiral wound, latched profile, a continuous cord seal and extruded plastic sheath. This complex construction method keeps the plastic sheath and the internal tube together.

Material

Galvanized steel

Outer sheath material: PVC

Note

Suitable connection glands:
LT straight, LT angled, T&B straight, T&B angled.
Dimensions 2 1/2", 3", 4", 5" and 6" available
on request.

Technical data

Protection class: IP 67

Temperature range: -25°C up to +70°C
Temperature range temporary up to +90°C

HC

For extremely extensive temperature ranges. Protection tubes from reinforced, galvanized steel band with spiral wound, latched profile, a continuous cord seal and extruded plastic sheath. This complex construction method keeps the plastic sheath and the internal tube together.

Material

Galvanized steel
UV-resistant

Outer sheath material: PVC

Technical data

Protection class: IP 67

Temperature range: -45°C up to +105°C

Temperature range temporary up to +120°C

Note

Suitable connection glands:
LT straight, LT angled, T&B straight, T&B angled.

HCX

For extensive temperature ranges.
Protection tubes from reinforced, galvanized steel band with spiral wound, latched profile, a continuous cord seal and extruded plastic sheath. This complex construction method keeps the plastic sheath and the internal tube together.

Material

Galvanized steel
UV-resistant
Outer sheath material: Elastomer

Technical data

Protection class: IP 67

Temperature range: -55°C up to +145°C
Temperature range temporary up to +160°C

Note

Suitable connection glands:
LT straight, LT angled, T&B straight, T&B angled

ZHLS

Halogen-free, low smoke generation.
Protection tube from reinforced, galvanized steel band with spiral wound, latched profile, a continuous cord seal and extruded plastic sheath. This complex construction method keeps the plastic sheath and the internal tube together.

Material

UV-resistant

Outer sheath material: Polyolefin

- halogen-free

Technical data

Protection class: IP 67

Temperature range: -25°C up to +80°C

Temperature range temporary up to +100°C

Note

Suitable connection glands:

LT straight, LT angled, T&B straight, T&B angled

HFX

Halogen-free, low smoke generation, UV-resistant, oil-resistant, weather-resistant. Protection tube from reinforced, galvanized steel band with spiral wound, latched profile, a continuous cord seal and extruded plastic sheath. This complex construction method keeps the plastic sheath and the internal tube together.

Material

Galvanized steel
UV-resistant

Outer sheath material: Polyurethane

- halogen-free

Properties

Low toxicity in case of fire.
Flexible at low temperatures, very good UV-resistance and oil resistance.
EN standard approved tube, for railways, tunnels, ships, public buildings.

Note

Suitable connection glands:
T&B straight, T&B angled, Anamet straight,
Anamet angled

Technical data

Protection class: IP 67

Temperature range: -45°C up to +105°C
Temperature range temporary up to +125°C

CNP

Full plastic, UL/CSA approval.
Extremely abrasion-resistant plastic tube for heavy-duty applications.
Construction: Neoprene internal tube with nylon weave and abrasion-proof special PVC sheath. Very good UV- and oil-resistance

Material

PVC
UV-resistant

Outer sheath material: PVC
With woven nylon insert

Technical data

Protection class: IP 67

Temperature range: -20°C up to +60°C
Temperature range temporary up to +80°C

Note

Suitable connection glands:
LT-CNP and LT-CNP-E

Anaconda Sealtite® NMFG-Clean

For highest standards of cleanliness and purity

NMFG-Clean, blue

Thick, soft, smooth, thermoplastic PVC tube with integrated Hard PVC spiral

Application

- Food industry - milk - and meat products
- Packaging of food machines
- Beverage industry
- Pharmaceutical industry
- Biotechnology
- Chemical industry

Material

Special PVC according to FDA CFR 21 and NSF 51 (USA-standard)

Properties

- Liquid tight
- The smooth surface prevents to adhere harmful micro organisms
- Easy and fast cleaning because of the smooth surface
- Suitable for high pressure steam cleaning
- Resistant against chemical cleaning supplies
- High flexible

Technical data

Protection class: IP 67 - in conjunction with the suitable tube connectors

Temperature range: -20°C up to +60°C
Temperature range temporary up to +80°C

Note

Suitable connection glands:
LT-FG-Clean (up to M50), LT-straight,
LT-angled, LT-E-UI-straight, LT-E-UI-angled

CV Compact Conduit gland - straight

Brass

Conduit gland CV Compact straight

Brass nickel-plated conduit gland.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

Material

Brass, nickel plated
Grounding sleeve: Steel
Seal: Polyamide

Technical data

Protection class: IP 67

Temperature range: -45°C up to +105°C

Note

Suitable for metallic protection tubes:
EF, HTDL, OR, HC, HCX, ZHLS, HFX

Conduit gland LT 90°

LIQUIDTIGHT gland for plastic-coated metallic protection tubes and high temperature protection tubes HTP. (An additional clamping ring ist required). UL/CSA approval. The conical earthing sleeve offers maximum surface contact for optimum sealing and earthing.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

Material

Brass, nickel plated
Grounding sleeve: Steel
Seal: Polyamide

Technical data

Protection class: IP 67

Temperature range: -45°C up to +105°C

Properties

- Halogen-free

Note

Suitable for metallic protection tubes:
EF, HTDL, OR, HC, HCX, ZHLS, HFX

LT-FG-Clean Conduit gland, stainless steel

LT-FG-Clean

Highest requirements to cleanliness and cleaning.

Application

- Food industry - milk and meat products
- Packaging of food machines
- Beverage industry
- Pharmaceutical industry
- Chemical industry

Material

Housing material: Stainless steel AISI 316

Ferrule: Brass, nickel plated

Clamping ring and insert: PA 6

Outer seal and sealing ring: TPE according to FDA 21 CFR and NSF 51 (USA-Norm)

Grounding sleeve: Steel

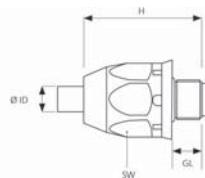

Properties

- High corrosion resistance
- The smooth surface prevents to adhere harmful micro organisms
- Easy, fast and less expensive cleaning supplies
- No threads are exposed
- High tightness
- No enter from water and dirt from outside
- High mechanical load capacity

Technical data

Protection class: IP67 (40bar, 80°C)

Temperature range: -45°C up to +105°C

Note

Suitable protection tubes:

Anaconda Sealite FG-Clean, also possible EF, HTDL, OR, HC, HCX, ZHLS, HFX

■ INSTALLATION MANUAL

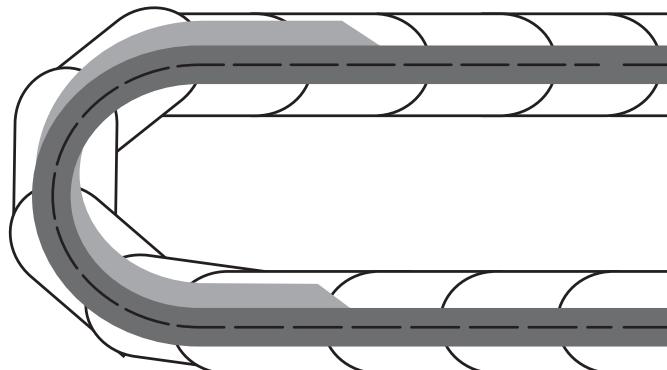

Cable installation in drag chains

The control cables in drag chains undertake an important task for the controlling and power technique, must be good synchronized with each other in the power chain systems. Further the installation of the cables and prediction tubes in the power drag

chains must be conducted with great care. Basically, please note the following:

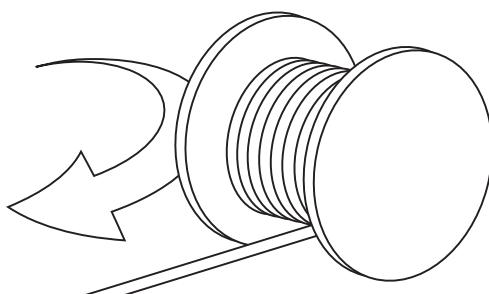

1. Cables (flat and round) should be installed separately next to another. Separators should be placed between the cables next to each other. Please avoid to place different sizes of round cables with higher differences in cable diameters next to each another. If it is not possible to install cables on top of each other, due to the limited space, please install separators.

2. The cables must move freely in the chain web. The free space for the cables should be at least 10 % of the cable diameter.

3. Always ensure that the cable runs through the radius of curvature without problems.

If the cables should be installed in the drag chain in layers then it is important to check that there is enough space in the curvature.

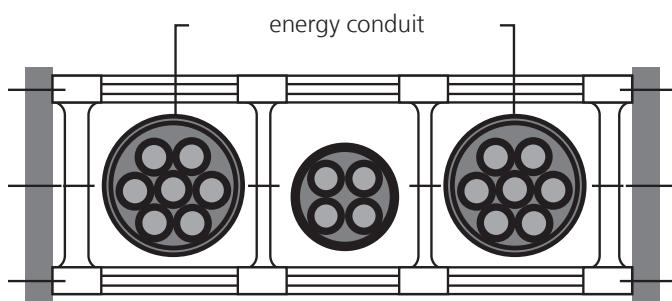

5. Cables should always be installed free of twists into the drag chains. The cables must be reeled down tangential from the reels or drums; the cables should not be lifted up in twisted or looping form over head. The cables must be laid in straight and non-twisted form on plane surface before installation. The cables must have an additional length of at least 10% of the whole length so that these can be laid freely without twisting in the drag chain. Notes for a vertical installation:

The cables must have at least 20% more space within the root-face height because the cable weight including the chain is heavy and the cables could sag downwards. This drawdown should be kept in mind and must be adjusted periodically.

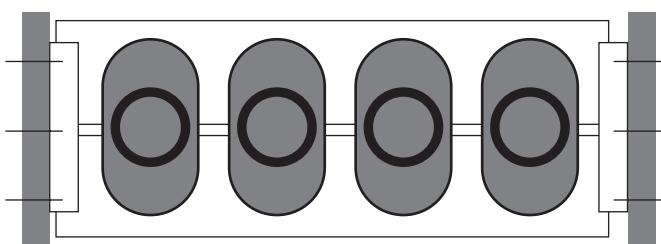

Download Questionnaire for Energy Drag Chain Systems:

You can download the questionnaire for energy drag chains simply under: www.helukabel.de/Erhebungsbogen-Energie.pdf

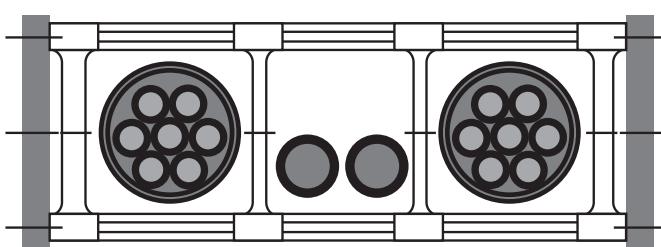

6. In case that is not possible to lay the cables as described in point 1, we recommend the use of a guiding tube, in which these cables should loosely laid when using several multi-wire highly flexible cables with a diameter < 10 mm. The cross section of the tube has to be much larger than the sum of the single cable cross sections.

7. In case that pressure- or hydraulic tubes are integrated in a power drag system, it should be guaranteed that the tubes can be freely move in the chain web due to the fact that they will shorten or stretch under alternating loads. Please contact the Cable Accessories department for further information.

8. The weight distribution in the chain web should be symmetrical. Ensure that the weight of the cables inside is divided up evenly, with the heavier cables installed on the edges and the lighter types in the middle. The cables should be connected on both sides on strain relief, or at least at the flexible part of the drag chain. Therefore it has to be noticed, that the compression occurs on a large area so that the cable is fixed on the outer sheath. The clamping has to be proceeded so that the single cores cannot be pinched in the cable and a movement of cables is not possible. This is the only way that a necessary length compensation is possible. A distance from 20 to 30 x cable diameters between end of the bending movement and fixing should be an indicative value. Generally it is recommended, if possible, not to use cables with a multi layer construction, e.g. >25 cores, but to split the necessary number of conductors over several cables.

Order number: 0182 018 028 0000

Specification of the chain length

$$\text{Length} = \frac{L}{2} + p \times R + 2 \times T + E$$

< 1 m Chain = 30 piece. Chain links à 33 mm

Please order per chain
2 chain connections.
You will automatically receive
1 piece with bore
and 1 piece with bolt.

Subject to technical modifications.

The fixed point of the drag chain should be in the middle of the movement distance

middle of movement distance

This arrangement gives the shortest connection between fixed point and the moving consumer and thus the most efficient chain length.

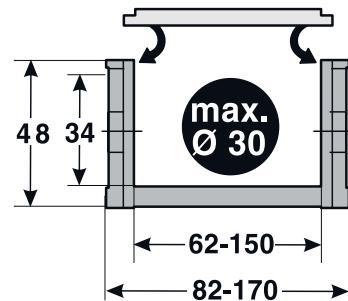

HELUKABEL®

MULTILINE EFK 35

Technical data

- Internal height 34 mm
- Internal width 62-150 mm
- Loading side - inside bend
- Links per meter: 17
- Chain pitch: 58 mm
- Maximum cable diameter: 30 mm
- Maximum movement distance: max. 80 m
- Material: Modified Polyamid

Copper, tinned

**Braided hose CU**

Braided sleeve for screening and interference protection of electrical cables and wires; also used for mechanical protection and building.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

Material

Copper, tinned

Properties

Axially compressible

Technical data

Temperature range: -75°C up to +150°C

Note

Also available in 10m lengths

Copper, tinned

HGP Braided hose

Polyester

HGP

Polyester braided sleeve for bundling and for mechanical protection of electrical cables and wires.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

Material

Polyester

- halogen-free

Properties

Axially compressible

Technical data

Temperature range: -50°C up to +150°C

Temperature range temporary up to +220°C

HTP Protection tube

High temperature protection

HTP

This product is extremely heat resistant. HTP has a high insulation factor and, due to the iron oxide containing silicone sheath, is resistant to small quantities of liquid steel. HTP also protects against burn injuries from steam tubes, hot air or hot water wires.

Material

Interior sheath of knitted glass-fibre braid

Silicone sheath (contains iron oxide)

Colour: orange

Technical data

Permanent load: +260°C
Short-time load: +1090°C (up to approx. 20 minutes)
Loading moment: +1640°C (approx. 15-30 seconds)

Protection tube

Material

Brass, nickel plated

Note

In conjunction with the tube connectors LT:
Protection classification IP 54

Technical data

Temperature range: -45°C up to +105°C

IB Insulating tube

PVC

IB

PVC insulated tube for later insulating and bundling cables and wires.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Installation technology
- Control cabinet construction

Material

PVC

Colour: black

Flammability acc. to UL 94: V0

- silicone-free

Technical data

DIN 40621

Temperature range: -20°C up to +85°C
Temperature range temporary up to +90°C

**IC**

PVC insulating tube for insulating and bundling cables and wires.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Installation technology
- Control cabinet construction

Material

PVC

Flammability acc. to UL 94: V2

- silicone-free

Technical data

DIN 40621

Temperature range: -20°C up to +90°C

Note**Colour code:**

Replace the "x" in the table with the following figures to obtain the product number of your required colour.

0=white, 1=blue, 2=yellow, 3=red,
4=transparent, 5=green, 6=orange, 7=violet,
8=grey, 9=brown

SI Insulating tube

Silicone

SI

Silicone insulating tube for insulating and bundling wires and lines.

Application

- Plant and machine construction
- Roboics
- Automation technology
- Vehicle construction and shipbuilding
- Installation technology
- Control cabinet construction

Properties

Softener and heavy metal free, physiologically and toxicologically harmless with good chemical resistance.

Technical data

DIN 40628

Temperature range: -50°C up to +180°C

SCH Heat-shrink tubing 2:1

PVC

SCH

PVC shrink tubing for repairing insulation and sealing electrical components.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Installation technology
- Control cabinet construction

Material

PVC

Colour: black

Flammability acc. to UL 94: V0

- silicone-free

Technical data

Temperature range: -20°C up to +90°C

Note

Attention: Do not store tubes at temperatures over 18°C! Otherwise properties will be changed!
Longitude shrinkage approx. 20-30%
The colours orange, yellow, white, blue, green, brown, red are available on request.

Black

CMP

Polyolefin shrink tube for repairing insulation and sealing electrical components.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

Material

PO (Polyolefin)

Colour: black

Note

Form of shipment:
CMP box (1.2m sections) (25 sections = 30.5m;
10 sections = 12.2m)
CMP rolls

Technical data

Temperature range: -55°C up to +125°C

SK Heat-shrink 3:1 - with interior adhesive

Polyolefin - thin - walled

SK

Polyolefin shrink tube with internal adhesive for repairing insulation and sealing electrical components.

Material

PO (Polyolefin) with internal adhesive

Colour: black

Technical data

Temperature range: -55°C up to +110°C

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Installation technology
- Control cabinet construction

Note

Form of shipment:
Box

SK-D Heat shrink 3:1 - with interior adhesive

Polyolefin - thick walled

SK-D

Polyolefin shrink tube with internal adhesive for repairing insulation and sealing electrical components.

For the protection of cable sleeves and terminations for low-voltage applications (600V).

Good protection against impact and abrasion.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Installation technology
- Control cabinet construction

Material

PO (Polyolefin) with internal adhesive

Colour: black

- halogen-free

SVRO Heat shrink 2:1 - high resistant

FKM

SVRO

FKM shrink tube to protect against aggressive media.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Installation technology
- Control cabinet construction

Material

FKM

Colour: black

Technical data

Temperature range: -55°C up to +220°C

Properties

Weather, flame and chemical resistant

Note

MfF VASMI - Sleeve for telephone cable

MfF

Connection and branch sleeve for telecommunication cables. For connecting telecommunication cables and producing cable branch lines for telecommunication cables.

Application

- Outdoors
- Indoors
- Underground
- Water

Properties

- high electrical insulation values
- water-tight and moisture-protected
- good mechanical strength
- highly resistant to UV radiation, earth alkalis and chemical influences
- with temperature indicator colour
- suitable for cut and uncut cables
- dismountable
- unlimited storage

Scope of delivery

- shield bonding lead with special clamp
- desiccant
- protection inlay
- flame protection film
- shrink-on sleeve
- insulating band
- cleaning agent
- sanding
- assembly instruction

AV Core connectors for communication and signal cables

AV core connectors

Core connectors type **AV** connect plastic-insulated telecommunication and signal cable cores. They are characterised by their space-saving and assembly-friendly structure. Satisfy the requirements of DIN 47627 (solder-free core connections in sleeves for telecommunication cables). When clamping with the **AVZ** tool, the vertical forces are transferred evenly to the core connectors, thus guaranteeing reliable contacting of the copper wires to be processed.

Properties

- high electrical insulation values
- high mechanical and thermal strength
- impact-proof plastic housing
- corrosion protection through grease charge
- improved contacting through U-contact principle
- core diameters up to 2.0 mm possible
- larger application range from 0.4 - 0.9 mm conductor diameter
- stripping, connection and insulation in one action

Scope of delivery

Colour: transparent

NSVM-S E90 Low voltage heat-shrinkable straight joint

NSVM-S E90

Flame-resistant heat-shrinkable low-voltage connecting sleeve. For connection type (N)HX(HX) and (N)HXCHX safety cables wherever specified.

Application

Power stations, tunnels, airports, elevators, stairways etc.

Properties

- flame-resistant
- halogen-free
- very low flue gas
- self-extinguishing
- suitable for all installation types

Scope of delivery

- inner seal
- insulation tube
- outer seal
- illustrated assembly instruction

Test

DIN4102, part 12,
draft february 1996 (E90)
DIN VDE 0472, part 814 (FE 180)
IEC 332

For cable type (N) HXHX

MSVM-S Medium voltage heat-shrinkable straight joint

Single core

MSVM-S

Medium voltage connection sleeve for connecting all single-core plastic power cables with external conductor layer up to 18/30(36)kV. For connecting cables with different cross-sections, conductor materials and cable designs with regard to external conductor layer and sheathing.

Properties

- safe field effect
- simple assembly
- large cross-sections
- unlimited conductivity
- immediately operational

Scope of delivery

- packing unit: 1
- two suspensible silicon control elements
- field effect filler tape (blue)
- thick-walled heat shrink tube
- copper fabric shielding
- heat shrink tube as oversheath
- assembly instruction

Single core

MSVM-S Medium voltage heat-shrinkable straight joint

Triple core

MSVM-S

Medium voltage connection sleeve for connecting all 3-core plastic power cables with external conductor layer up to 18/30(36)kV. For connecting cables with differing cross-sections, conductor materials and cable designs with regard to external conductor layer and sheathing.

Special solutions enable a 3-core plastic power cable to be connected to 3 single-core plastic power cables.

Properties

- safe field effect
- simple assembly
- large cross-sections
- unlimited conductivity
- immediately operational

Scope of delivery

- packing unit: 1
- two suspensible silicon control elements
- field effect filler tape (blue)
- thick-walled heat shrink tube
- copper fabric shielding
- heat shrink tube as oversheath
- assembly instruction

IREV-S Indoor termination, shrink type

IREV-S

Interior end seals for all single-conductor and three-conductor.

Medium voltage plastic cables with layers and screen designs up to 18/30(36)kV.

Properties

- safe field effect
- simple assembly
- wide application range
- excellent external layer behaviour
- unlimited conductivity
- immediately operational

Scope of delivery

- packing unit: 1
- suspensible silicon control element
- sealing band
- creeping current resistant, weather-proof heat shrink tube
- assembly instruction
- suspensible silicone sheds

Note

- An additional earthing kit is required for cables with copper sheath.
- Without terminals.
- 1 unit = 1 set with 3 items.

MSVM-A Medium voltage straight-joint with slip-on method

Single core

MSVM-A

Medium voltage straight-joint with slip-on method for connecting single-core plastic power cables up to 12/20(24)kV. For connecting cables with differing cross-sections, conductor materials and cable designs with regard to external conductor layer and shielding.

Properties

- quick and simple assembly
- large cross-sections
- unlimited conductivity
- immediately operational

Scope of delivery

- packing unit: 1
- two suspensible silicon control elements
- one-piece silicon insulating body with integrated conductor smoothing
- thick-walled heat shrink tube
- copper fabric shielding
- assembly instruction

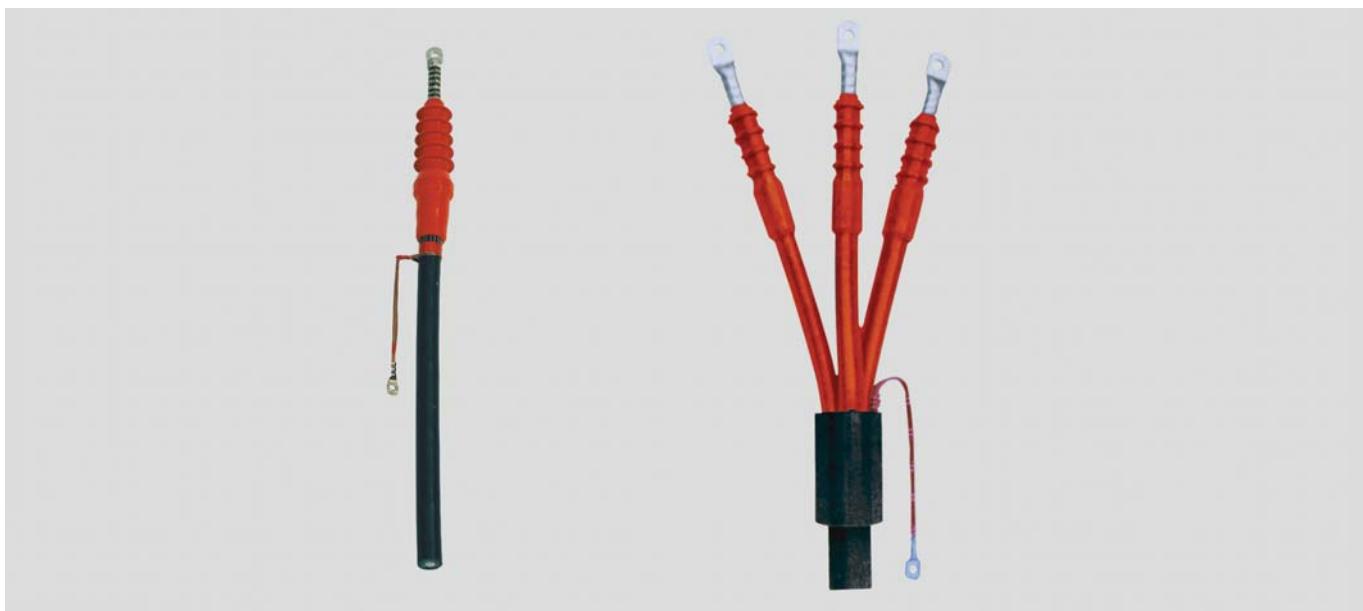

Single core

IREV-A, FLEV-A Termination with slip-on method

IREV-A/FLEV-A

Interior end seals and outside end seals in push-on technology for all single-conductor medium-range voltage plastic cables with differing conductor layers and sheath designs up to 18/30(36)kV.

Properties

- simple, quick assembly
- large cross-sections
- unlimited conductivity
- no pre-expansion
- no flame or heat source required
- immediately operational

Scope of delivery

- packing unit: 1
- one-piece suspensible silicon end lock
- integrated field control
- assembly instruction

IREV-A - indoor termination with slip-on method

Medium voltage accessories

Medium-range voltage accessories

KMRS: for a fast, reliable repair of sheath damage up to 1000 V. Consisting of cable sheath repair tape, emery cloth, cleaning cloth.

Sealant: for cable penetration, halogen-free dual-component PUR cast resin, practical dual chamber mixing bag.

Sealing tape, black: for sealing of cable and wire gussets, repair of damaged cable sheaths, water-tight sealing of cable penetrations.

Properties

KMRS: vulcanising, extremely good electrical properties; outstanding tensile strength, absolute moisture tight.

Sealant: good adhesion to metals, plastic, concrete, plastic and natural stones; removable, environmentally compatible, gas and water-tight to 1.5 bar, soft-elastic following hardening.

Sealing tape: very good adhesion to metal, glass, rubber, plastic, good dielectric and physical properties.

Medium voltage accessories

Medium-range voltage accessories

HSIB, black: as conductor insulation for plastic-insulated cables to 69kV, repair and connection of numerous insulating and cable materials, for sealing casting moulds and stuffing cable insulation.

Cable warning tape, yellow with black marking: used as an early warning device for excavation work. It should be placed approx. 40 cm above the supply cable, PE laminated film.

Properties

HSIB: good electric and physical properties guarantee long tool life, good dielectric properties, highly weather-resistant, extremely expandable, non-adhesive, welds quickly to form homogenous, cavity-free mass, easy to handle, easy to process, completely removable.

Cable warning tape: Good warning effect through more than 400% expansion, colour-fast, age and cold-resistant, expansion remains unchanged, permanently legible through crystal clear film coating over lettering.

KW plastic helix

Plastic helix made of polyethylene.
Protects wiring harnesses, wires and conductors.
Bundles and binds single wires and provides
mechanical protection for loosely installed or
moving cables and wires.

Material

Polyethylene

- halogen-free

Note

Other materials or colours on request.

Technical data

Temperature range: -30°C up to +80°C

Application

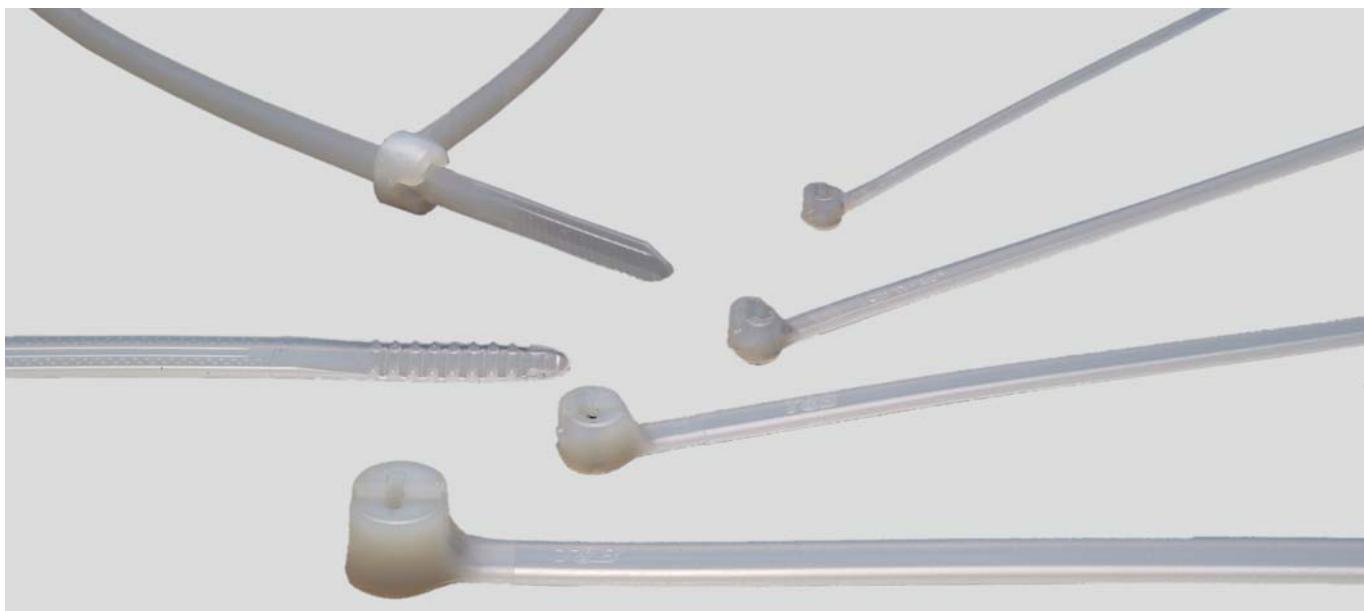

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

TY-RAP® Cable tie with steel lug lock

TY-RAP® transparent

Cable tie with steel lug lock made of corrosion-resistant, non-magnetic steel. This technology enables the cable tie to offer excellent binding properties even under most rigorous conditions such as heat, cold, humidity etc. It is impervious to vibrations and external influences.

Material

Polyamide 6.6

- halogen-free

Note

Brown, red, orange, yellow, green, purple or grey available on request.

Technical data

Temperature range: -60°C up to +85°C

Flammability acc. to UL 94: V2

TYH Cable tie with steel lug lock

TY-RAP®

Cable tie with steel lug lock made of corrosion-resistant, non-magnetic steel. This technology enables the cable tie to offer excellent binding properties even under most rigorous conditions such as heat, cold, humidity etc. It is impervious to vibrations and external influences.

Heat stabilised

TYZ Cable tie with steel lug lock

TY-RAP®

Cable tie with steel lug lock made of corrosion-resistant, non-magnetic steel. This technology enables the tie to offer excellent binding properties even under the most rigorous conditions such as heat, cold, humidity etc. It is impervious to vibrations and external influences.

Material

ETFE Fluoropolymer
UV-resistant

- halogen-free
- silicone-free

Technical data

Temperature range: -60°C up to +170°C

Flammability acc. to UL 94: V0

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

High resistant

TY-RAP® Detectable cable ties

TY-RAP® Detectable cable ties

- Detectable by metal detectors set at minimum 1.5mm diameter ferrous sphere
- Detectable by X-Ray equipment
- Bright blue colour for an easy visual detection
- Help achieve the HACCP EU-Directive, compliant to the FDA regulation
- For liquid-processing applications

Material

- halogen-free

Note

Available versions:

- PA 6.6
- Polypropylene

Technical data

Temperature range: -40°C up to +85°C

Flammability acc. to UL 94: V2

W Cable tie

Unlockable

Cable tie

Detachable cable tie for temporary assembly. This cable tie can be opened by hand without using a tool.

Material

Polyamide 6.6

- halogen-free
- silicone-free

Technical data

Temperature range: -40°C up to +80°C

Flammability acc. to UL 94: V2

| Part no. black | Length mm | Width mm | Bundle Ø mm | Capacity N | Unit | Net EUR/100 items at a purchase of up to 1000 | 1001 - 5000 | 5001 - 10000 |

**Cable tie**

Cable tie made of stainless steel with ball lock for use in extreme conditions, such as high temperatures, aggressive environment, high tensile load.

Material

Stainless steel 1.4401 / AISI 316

Technical data

Temperature range: -80°C up to +538°C

Properties

Corrosion and radiation resistant, anti-magnetic, resistant to high temperatures and aggressive chemicals

Note

Approvals: GL, DNV, Lloyd's, UL

KLL / KLÖ Hook and loop cable tie

Velcro tie

Particularly suited for sensitive cables and wires that are to be bundled or fastened without kinking or pinching. Velcro binders exert only low pressure on the wires and lie evenly and flush. Suitable for up to 10,000 actuations in reusable bundling applications.

Material

KLL - Polyamide sleeve / PE mushroom head tape / with punched hole

Technical data

Temperature range: -40°C up to +85°C

Note

KLL – pre-punched on rolls
KLÖ – Packed small in poly bags

KLL with punched hole

BS Mounting base

BS

BS mounting base self-adhesive and screwable for installing cables, wires, tubes and pipes. Simple handling by the combination with cable ties.

Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

Material

Polyamide 6.6

Colour: transparent

Technical data

Temperature range: -40°C up to +85°C

Note

Foamed self-adhesive foil adheres to smooth and grease-free surfaces and smooths out slightly uneven surfaces.

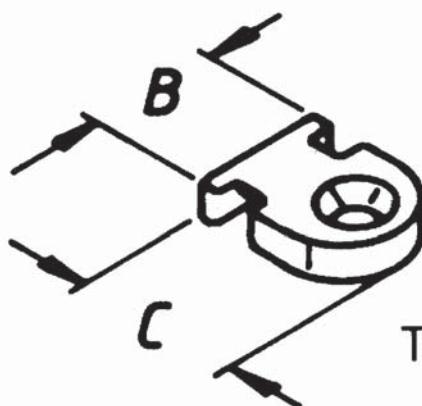

As adhesive base

Dimensions and specifications may change without prior notice.

KME Cable marker + KTE Carrier strip

KME/KTE

Cable marker for extreme conditions

Easy mounting with stainless steel cable ties

Symbol combinations can be created by assemble the individual components

Pressure: stamped (embossed)

Material

Stainless steel

Technical data

Not flammable

Notes

Replace XX with the number of your required letter, figure or symbol. please see marking rings page 371.

Suitable product: Cable tie series E item no. 90900 to 90907.

Dimensions

Stainless steel marker KME

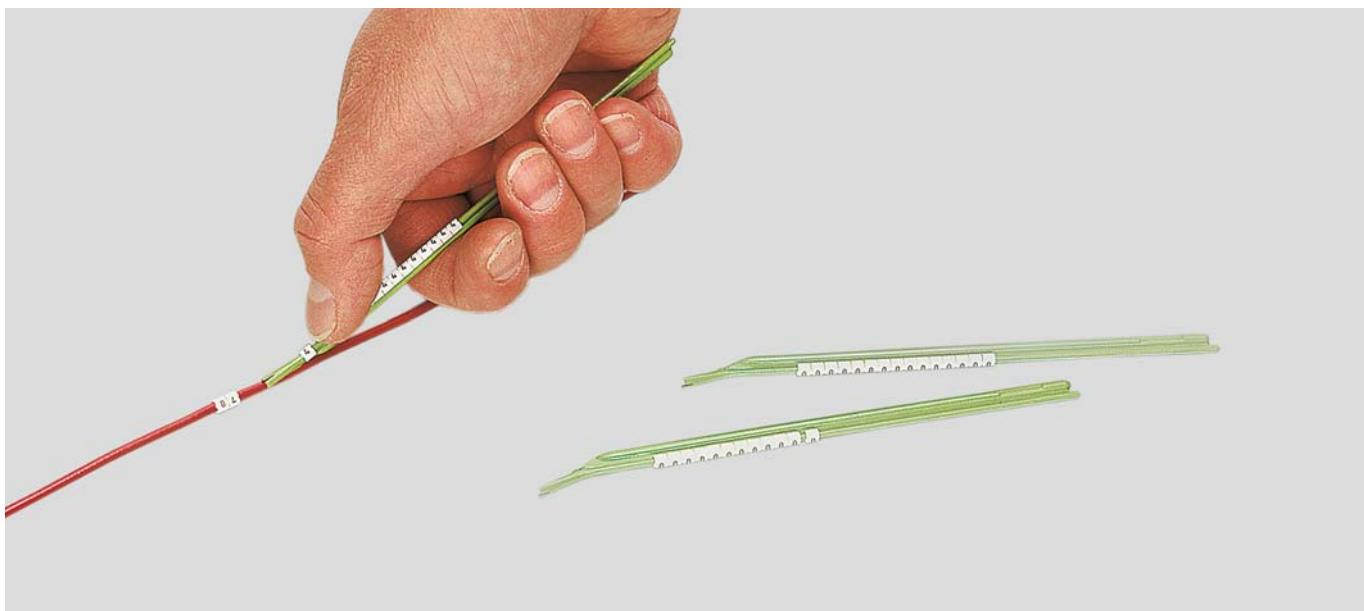

| Item no: | Type | Length in mm | Height in mm | Unit | Net EUR/100 piece |
|----------|--------|--------------|--------------|------|-------------------|
| 9097xx | KME 55 | 5,5 | 10,9 | 50 | o.r. |

Carrier strip KTE (slotted for stainless steel cable ties)

| Item no: | Type | Length in mm | Height in mm | Unit | Net EUR/100 piece |
|----------|---------|--------------|--------------|------|-------------------|
| 909801 | KTE 47 | 47 | 6 | 50 | o.r. |

| 909804 | KTE 107 | 107 | 17 | 50 | o.r. |
| 909967 | KTE 128 | 128 | 20 | 50 | o.r. |

Dimensions and specifications may change without prior notice.

SR Applicator

SR applicator

Simple handling afforded by marking rods characterise these marking rings. The nozzle-shaped marking rod is forced onto the cable and the snap-on sleeve pushed with the thumb. The marker sits tight on the cable without slip.

Material

Copolymer

- halogen-free

Technical data

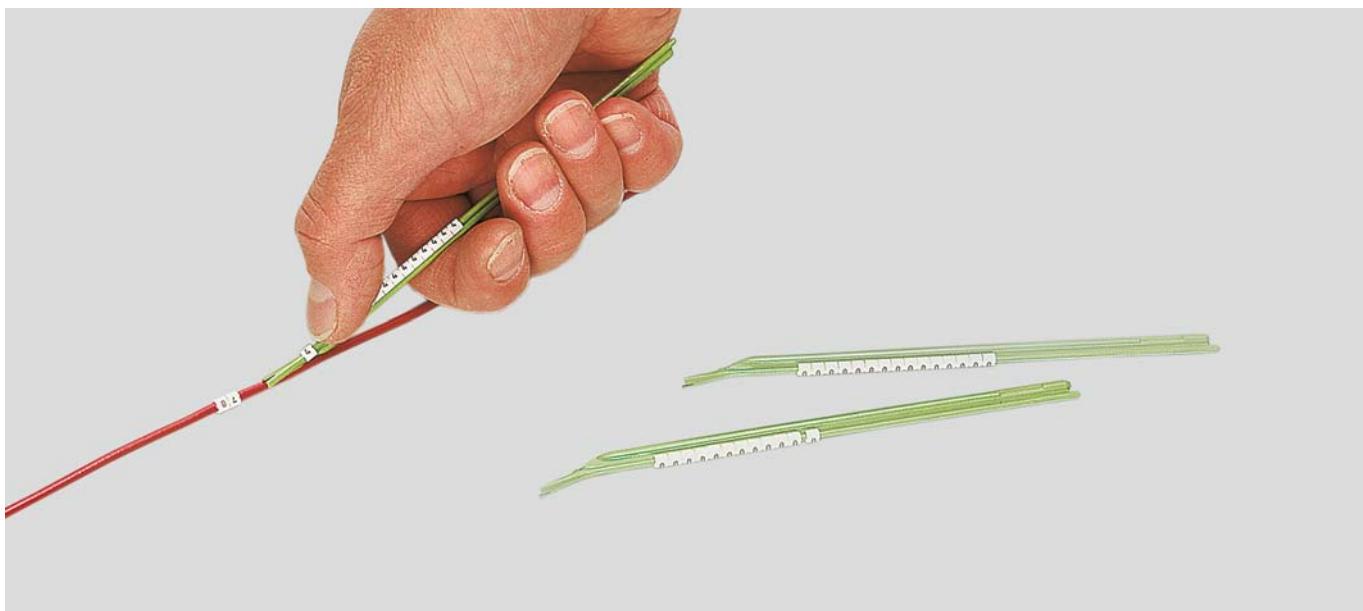

Temperature range: -40°C up to +105°C

SR Marking rings

SR

Simple handling afforded by applicator characterise these marking rings.

The nozzle-shaped applicator is forced onto the cable and the snap-on sleeve pushed with the thumb.

The marker sits tight on the cable without slip. Available in white or yellow with black marking.

Application

1.0 mm to 19.0 mm
0.10 mm² - 100 mm²

Material

Copolymer

- halogen-free

Properties

Halogen-free, resistant to oils, cleaning agents, fuels and alkalis.

Technical data

Temperature range: -40°C up to +105°C

Note

Code:

Replace the XX by the number of your required letter, figure or symbol.

1 unit = 10 rods with each 30 rings.

Product 956xx up to 959xx without rod. The rod can be ordered separately.

E WM Cable marker

E WM

Self-adhesive cable marker in practical pocket book size.

10 side marker on siliconised carrier cards.
Installation applications, for repair and maintenance.

Book dimension: 15 x 8 cm

Marker: 5 x 31 mm

Perforated individual characters, 5 x 5 mm

Material

Fibre tape

self-adhesive

Covering: carton

Technical data

Temperature range: -35°C up to +95°C

Properties

Permanently self-adhesive, insensitive to moisture and oils.

TM Cable marker

TM

Self-adhesive, writable cable marker in practical pocket book size.

10 side marker on siliconised carrier cards.
Installation applications, for repair and maintenance.
Book dimension: 15 x 8 cm

Material

PVC

self-adhesive
self-extinguishing
UV-resistant
oil-resistant

Adhesive: acrylate
Covering: carton

Technical data

Temperature range: -40°C up to +80°C
Temperature range temporary up to +120°C

Properties

Resistant to:

- Water
- Alcohol
- Oils
- Greases
- Fuels
- Aliphatic solvents
- Weak acids
- Salts
- Alkalies

Insulated

ADI

Insulated core end sleeves prevent stripped wires from fanning. The hopper-shaped plastic collar enables them to be pushed easily onto the wires. To DIN, ZF, and Telemecanique colour code.

Material

Socket: Copper
Surface: tinned

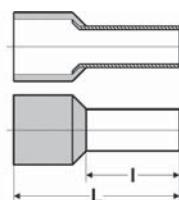

Insulating shroud: polypropylene

Note

Assignment to cable cross section according to DIN 46228: up to 50mm² to nominal size an DIN color code - over 50mm² no specification; Assignment to suitable size possible.

Technical data

Temperature range: up to +105°C
Temperature range temporary up to +120°C

ADI-B Core end sleeves

Insulated

ADI-B

Tape products for processing with Stripax-Plus (strip products) or automatic crimpers (coil products).

Insulated core end sleeves prevent stripped wires from fanning.

The hopper-shaped plastic collar enables them to be pushed easily onto the wires.

Material

Socket: Copper
Surface: tinned

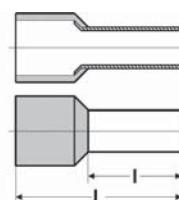

Insulating shroud: polypropylene

Note

Delivery formats:
Strips: 1 item = 10 strips x 50 pcs.
Coils: Endless on cardboard coil

Technical data

Temperature range: up to +105°C
Temperature range temporary up to +120°C

Dimensions

L Total length
I Stick length

ESD-ADI Assortment box

Insulated

ESD-ADI

Practical pocket sized assortment box. Refillable, split into 4 or 5 compartments, with cross-section lettering.
Refilling with ADI core end sleeves.

Material

Assortment box: PVC
Socket: Copper
Surface: tinned

Insulating shroud: Polypropylene

Note

Empty cans:

- ESD 3: 5-part with lettering 0.5 mm² / 0.75 mm² / 1.0 mm² / 1.5 mm² / 2.5 mm²
- ESD 4: 4-part with lettering 4.0 mm² / 6.0 mm² / 10.0 mm² / 16.0 mm²

All sizes in regular length.

ESD-DUO Assortment box

Insulated - for 2 conductors

ESD-DUO

Practical pocket sized assortment box. Refillable, split into 4 or 5 compartments, with cross-section lettering.
Refilling with DUO core end sleeves.

Material

Assortment box: PVC
Socket: Copper
Surface: tinned

Insulating shroud: Polypropylene

Note

Empty cans:

- ESD 7: 4-part with lettering 2x0.75 mm² / 2x1.0 mm² / 2x1.5 mm² / 2x2.5 mm²
- ESD 8: 4-part with lettering 2x4.0 mm² / 2x6.0 mm² / 2x1.0 mm² / 2x16.0 mm²

All sizes in regular length.

ADU Core end sleeves

Non insulated

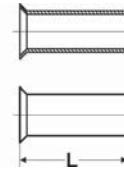

ADU

Non-insulated core end sleeves prevent stripped wires from fanning. The hopper-shaped socket enables them to be pushed easily onto the wires.

Material

Socket: Copper

Note

Assignment to cable cross section according to DIN 46228: up to 50mm² to nominal size - over 50mm² no specification; Assignment to suitable size possible.

■ INSTALLATION METHODS AND PROCEDURE SHIELD-KON® ONE-PIECE CONNECTOR

Processing method

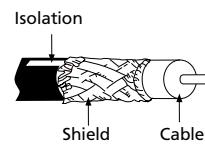

Standard method

Use the standard method when the shielded cable or the inner conductors are embedded in a dielectric.

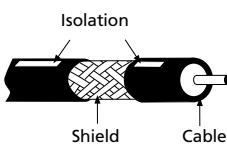

"Fold-back" - Method 1

If there is no common dielectric for several interior cables but the gaps are filled by textile threads or something similar, care should be taken to ensure that the insulating thickness of the individual cables is not less than 0.38 mm for PVC, and not less than 0.25 mm for Teflon. If this insulation thickness falls below this value, fold-back method 1 should be used.

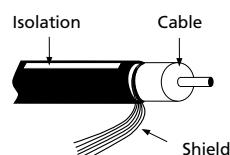

"Mid-Span" - Method

Allows installation anywhere along the cable.

"Fold-back" - Method 2

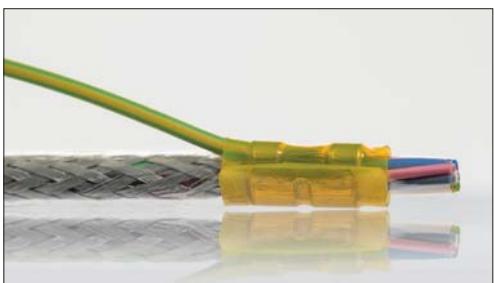

Fold-back method 2 should be used if the cable shield is applied spirally or if a foil shield is being used.

Installation procedures

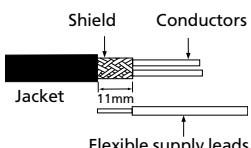

Step 1

Prepare shielded wire and drain wire insulation as shown. If two earth wires are required, twist both conductors before insertion into the connector.

Step 2

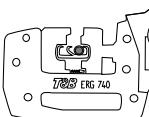

Select the appropriate connector according to the size of the shielded cable. Adjusting the tool is not necessary. Place the 11 mm insulated drain wire around the trap hook and the shielded wire into the bottom of the connector.

Step 3

Squeeze the tool handles firmly to crimp the connector around the shielding and the drain wire.

Connector opening faces away from tool

Shield Kon® RSK Shield connectors

Shield Kon®

Shield connectors are crimped like a cable lug. The special crimping technique using ERG tools enables the connector to roll around the sheath. Inside the connector is a clevis-type connector for the connector strip and a support for the sheathed cable.

ERG 740 processing tool

Material

Copper
Surface: tinned

Insulation: Polyester film

Technical data

Temperature range: -40°C up to +125°C

Note

Processing tool ERG and the matching inserts see chapter "Tools".
Processing method see chapter "Technical information".

Solderless terminals

Insulated

Insulated solderless terminals

PA insulated solderless terminals for cross sections of 0.25 to 6.0mm².
Simple cable inlet through Easy-Entry (expanded sleeve).
Insulated with high dielectric strength.

Material

Socket: Copper
Surface: tinned
Insulation: Partially-insulated, PA

Technical data

Temperature range: -60°C up to +125°C

Round pin plugs

Solderless terminals

Insulated - tape product

Solderless terminals, tape product

Polycarbonate-insulated connection material on tape has been developed as a cost-effective solution for medium and large pre-fabricated cables.

Material

Socket: Brass
Surface: tinned

Insulation: partially-insulated

Technical data

Temperature range: -20°C up to +115°C
Temperature range temporary up to +130°C
Self-extinguishing acc. to UL 94 V0

Note

Roll diameter 450mm
Inner diameter of inclusion 27mm
Blade terminal / blade receptacle / pin-type cable lug on tape on request.

B Solderless terminals

Non insulated

Solderless terminals type B

Non-insulated solderless terminals in fork design.

Material

Socket: Copper
Surface: tinned

Technical data

Temperature range: up to +125°C

Dimensions

- a Diameter of the boring
d Inner diameter of the cable insertion
b Flange width
l Length till middle of the boring

Forked

HELU-S-RK-CU Copper tubular cable lug - straight

Not insulated

Tubular cable lug

HELU-S-RK-CU

Uninsulated, straight tubular cable lugs in eye type design.

Material

Socket: Copper according to DIN EN 13600

Surface: tin plated

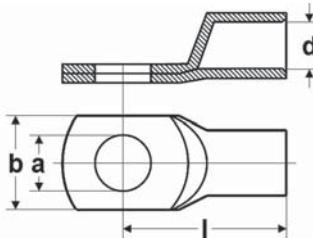

Note

Also available in angulated version (45° and 90°).

Compression instruction and instruction for assembly see chapter "Technical information".

Technical data

Temperature range: up to +120°C

Tubular cable lug angled

HELU-S-RK-45-CU-UL

Non-insulated tubular cable lugs in eye type design, 45° angled.

Material

Socket: Copper according to DIN EN 13600

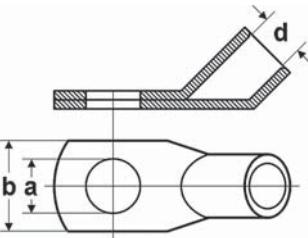

Surface: tin plated

Technical data

Temperature range: up to +120°C

Note

Compression instruction and instruction for assembly see chapter "Technical information".

Dimensions

- a Diameter of the boring
- d Inner diameter of the cable insertion
- b Flange width

Tubular cable lug angled

HELU-S-RK-90-CU-UL

Non-insulated tubular cable lugs in eye type design, 90° angled.

Material

Socket: Copper according to DIN EN 13600

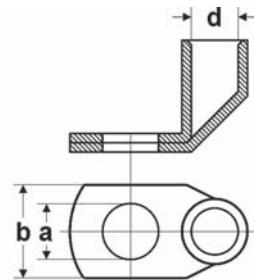

Surface: tin plated

Technical data

Temperature range: up to +120°C

Note

Compression instruction and instruction for assembly see chapter "Technical information".

HELU-S-RK-S-CU-UL

Tubular cable lug - straight - small flange

Not insulated

Tubular cable lug

HELU-S-RK-S-CU-UL

Non-insulated tubular cable lugs in eye type design with small flange.

For screwing in switch cabinets with reduced connecting space.

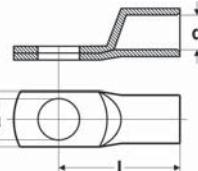

Material

Socket: Copper

Surface: tinned

Note

Compression instruction and instruction for assembly see chapter "Technical information".

HELU-S-RK-F-CU Tubular cable lugs for fine stranded wires - straight

Not insulated

Tubular cable lug HELU-S-RK-F-CU

Uninsulated, straight tubular cable lugs in eye type design for fine stranded wires. The expanded sleeve facilitates cable inlet.

Material

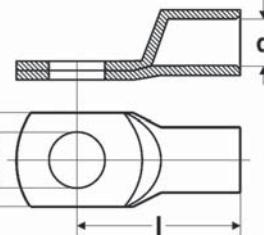

Socket: Copper according to DIN EN 13600
Surface: tin plated

Note

Compression instruction and instruction for assembly see chapter "Technical information".

Technical data

Temperature range: up to +120°C

HELU-S-PK-CU Tubular compression cable lugs - straight

Not insulated

Tubular cable lugs HELU-S-PK-CU

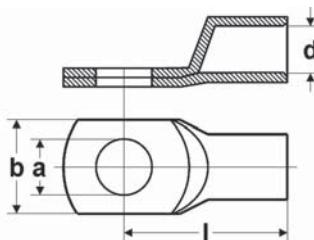

Non-insulated tubular cable lugs in eye type design for conductor arrangement RM. Tube dimensions to DIN 46235.

Material

Socket: Copper according to DIN EN 13600
Surface: tin plated or optionally uncoated

Note

Code type indicates the required hexagonal clamping insert.
Compression instruction and instruction for assembly see chapter "Technical information".

Diameter

| a | Diameter of the boring |
|---|---------------------------------------|
| d | Inner diameter of the cable insertion |
| b | Flange width |
| l | Length till middle of the boring |

HELU-S-PK-CU-DIN Tubular compression cable lugs - straight

Tubular compression lug

HELU-S-PK-CU-DIN

Uninsulated tubular compression lugs in eye type design for conductor arrangement RM, to DIN 46235.

Material

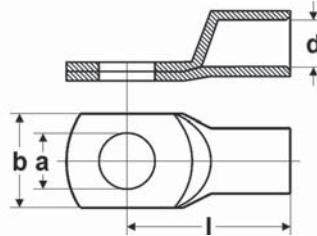

Socket: Copper according to DIN EN 13600

Surface: tin plated or optionally uncoated

Note

Code type indicates the required hexagonal clamping insert.

Compression instruction and instruction for assembly see chapter "Technical information".

Diameter

| a | Diameter of the boring |
|---|---------------------------------------|
| d | Inner diameter of the cable insertion |
| b | Flange width |
| l | Length till middle of the boring |

HELU-S-PK-AL-DIN Tubular compression cable lugs

uninsulated

Compression cable lug

HELU-S-PK-AL-DIN

Uninsulated, straight tubular cable lug in eye type design made of aluminium. High quality version for reliable crimping. Designed for conductor type RM acc. to DIN 48201 and circularly reshaped conductors.

Material

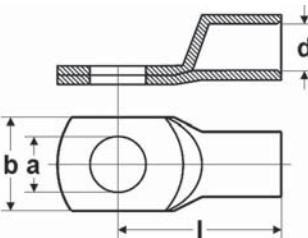

AL 99,5

Surface: bare

Note

Code type indicates the required hexagonal crimping insert.
Sleeves are prefilled with contact grease and sealed with plastic plug

Compression instruction and instruction for assembly see chapter "Technical information".

Dimensions

| a | Diameter of the bore |
|---|---------------------------------------|
| d | Inner diameter of the cable inclusion |
| b | Flange width |

HELU-S-PK-AL/CU Aluminium / Copper compression cable lug – straight

Compression cable lug

HELU-S-PK-AL/CU

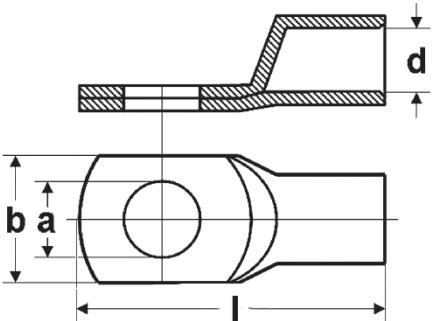

Non-insulated, straight compression lug in eye type design made of aluminium. High quality version for reliable crimping. Designed for conductor type RM and circularly reshaped conductors.

Material

Socket: Al 99,5 and Cu acc. to DIN EN 13601
Surface: bare

Note

Code type indicates the required hexagonal crimping insert.
Al-sleeves are pre-filled with contact grease and sealed with plastic plugs
Compression instruction and instruction for assembly see chapter "Technical information".

HELU-S-SV-CU Copper tubular butt connectors

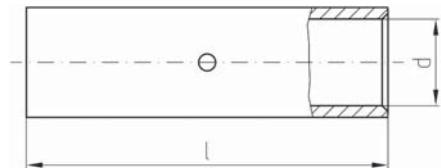

Compression joint

HELU-S-SV-CU

Clamping connection sleeves for unstrained clamping.
Type: With wirestop

Material

Socket: Cu according to DIN EN 13600
Surface: tin plated

Dimensions

d Inner diameter of the cable inclusion
l Length

CM - blank

HELU-S-PV-AL-DIN Aluminium press connector

Press connector

HELU-S-PV-AL-DIN

Press connector for strain-relieved connections of conductors designed acc. to DIN 46267 part 2.

Material

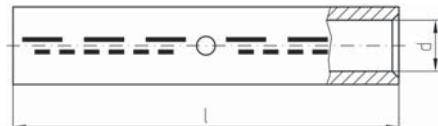

Socket: Al 99,5
Surface: bare

Note

- Code type indicates the required hexagonal crimping insert.
- Part No. 907835 is not standardized.
- Sleeves are prefilled with contact grease and sealed with plastic plug.

Technical data

Temperature range: up to +120°C

HELUTOOL HKS 1 Cable shear

Cable shear HELUTOOL HKS 1

High quality cable shear for cutting finewire
stranded Cu-/Al-wires

- Blade made of special stainless steel according to EN10020
- Ergonomical and extremely robust
- High cutting performance
- Loose-free screw/pin fixing
- 2-component-handles
- With special safety box
- Cutting area:
 - Straight blade area 0,5-6mm²
 - Integrated cable cutter up to 50mm²
- Length: 150mm
- Weight: 0,17g

Scope of delivery

Cable shear HKS 1, Safetybox

HELUTOOL HKS 35 cable shear

Cable shear HELUTOOL HKS 35

High quality forged cable cutter for cutting stranded aluminium and copper cables up to 35mm².

Long life cycle, low efforts during cutting and a clean round cut characterize this cable cutter.

- For cutting cables with outer diameters up to 11mm.
- Forged
- Tempered blade with precise finish
- Burnished
- Plastic coated handle
- Length 165mm
- Weight 200g

| Part no. | Type | Unit | Net EUR/item at a purchase of | | |

HELUTOOL D20 Cable shear

Cable shear HELUTOOL D20

- VDE approved, 1000V
- For cutting copper and aluminium cables, single and multi-core
- Low handforce required due to favourable lever ratio and special blade geometry
- Clean and smooth cut without crushing and deformation
- Initial and final cut (upper and lower blade)
- Allows cables of up to 20 mm dia. to be cut
- With guard
- Handles plastic coated
- Precision ground , hardened blades
- Adjustable bolted joint, self-retaining screw
- High-grade special tool steel, forged, oil-hardened
- Length 200 mm
- Weight 340 g

| Part no. | Type | Unit | Net EUR/item at a purchase of | | |

HELUTOOL HKS 32 Cable shear

Cable shear HKS 32

- For cutting stranded Al- and Cu-cables, single and multi-core
- Cutting ranges up to 32mm
- The cutting blades consist of a hardened special tool steel
- Length 600 mm
- Weight 1500 g

Note

Not applicable for cutting steelwires, cables with steel-insertion and solid conductors.

| Part no. | Type | Unit | Net EUR/item at a purchase of | | |

HELUTOOL HKS 34 S Cable cutter

Cable Cutter HKS 34 S

Very robust and smooth running cable cutter for cutting stranded aluminium and copper cables.

- Up to 4x70mm² approx. 1x185mm²
- For finewireing conductors up to 34mm outer-diameter
- Double needle beared and excentric drive combined with a special blade design guarantees the excellent efficiency of this cable cutter
- Length: 250mm
- Weight: 0,9kg

Note

Not applicable for cutting steel-wires, cables with steel-insertion and solid conductors.

HELUTOOL HKS 52 S Cable shear

Cable cutter HKS 52 S

Very robust and smooth running cable cutter for cutting stranded aluminium and copper cables.

- Up to 4x120mm² approx. 1x300mm² and finewiring conductors up to 52mm outside-diameter
- Double, needle bared and patented eccentric dive combined with a special blade design guarantees the excellent efficiency of this cable cutter.
- Length: 325mm
- Weight: 1,2kg

Note

Not applicable for cutting steel-wires, cables with steel-insertion and solid conductors.

HELUTOOL HKM 1 Cable stripping knife

Cable stripping knife HKM 1

- With special grinding. The special blade prevented a damage of the conductor. The knife has a blade protection, sinking into the handle
- The changeable blade is made of stainless steel according to DIN EN 10020, hardness minimum 50 HRC
- High-quality, ergonomically formed handle is out of impact plastic (PA)
- Admission of the VDE up to 1000 volt according to EN/IEC 60900:2004 and GS-sign
- Length: 200 mm
- Weight: 0,1 kg

Note

Spare blade with moulded plastic insert for HKM 1, part no. 906246

HELUTOOL HWW 6/50 Crimping tool

Crimping tool HWW 6/50

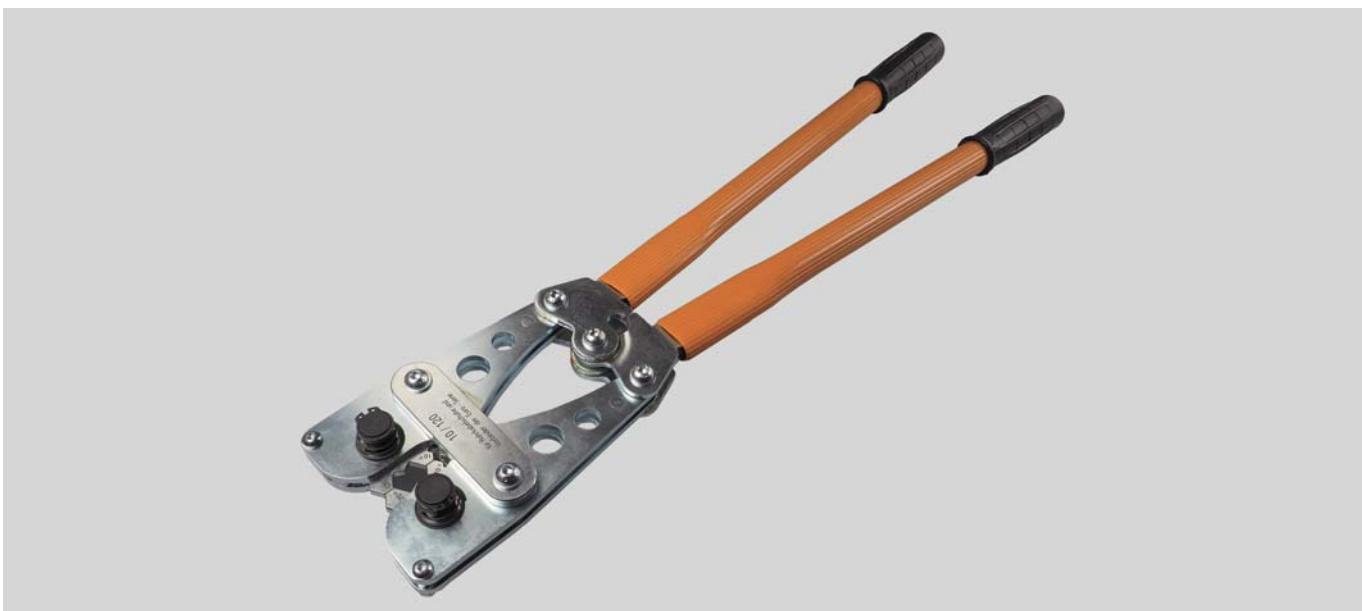

- Crimping tool for crimping tubular cable lugs and connectors of the HELU-S-RK tubular cable lugs and HELU-S-SV tubular butt connectors - series
- Application range: 6 up to 50mm²
- Cross section can be adjusted by turning the in-built revolving dies
- No need of changing dies
- Tool points by small measurements, light weight and an extremely high crimping quality due to WM-crimping
- Length: 380 mm
- Weight: 1,3 kg

HELUTOOL HMPI 20 Mechanical hand press in toolbox

HELUTOOL HMPI20

Hand-operated mechanical compression tool in toolbox

Hand-operated mechanical compression tool for crimping cable lugs and connectors up to 300mm²

- Light and compactly construction form
- Universal usage: dies for all versions of cable lugs are available
- 360° revolving head with quick opening and closing
- Continous moveable telescopic handle
- Press force: approx. 60 kN
- Length: 560 up to 830 mm
- Weight: 3,6 kg

Note

Exclusive inserts

Matching inserts:

HELU-S-PE-SK and HELU-S-PE-WM

HELUTOOL SZ Screw pliers

HELUTOOL SZ

The patented 2-component screw pliers that have been awarded with the Design Prize is the ideal solution for embedded, dirty or corrosion-damaged screws.

In addition, the pliers consist of a single joint with induction hardened precision blade. Arched, horizontally and vertically ridged gripping surface, for all self-tapping or metric screws from M2 to M6.

The special head shape of the pliers securely surrounds the screw head, thus loosening the screw which can no longer be removed with conventional tools.

- Size: 160 mm
- Weight: 140 g
- Handle: 2-component precision blade
- Induction-hardened precision blade with single joint
- Compatible with the screw size M2 to M6

Outside cleaving cutter HAMX

With rapid clamping system for low voltage- and medium voltage conductors

Outside cleaving cutter HAMX

The outside cleaving cutter with rapid clamping system can be used to strip the outer sheath from low voltage and medium voltage conductors with an outside diameter of 16 up to 54 mm.

A switch lever between longitudinal section and round cut as well as an additional claw for breaking the insulation are available. The positioning on the cable is made by a clamping system. The cut depth is adjustable from 0-5 mm in steps of 0,1 mm. The feed rate is made by a ratchet wrench. The maximum rotation diameter is 300 mm.

The components are produced from aluminium and stainless steel. The moldings are made of impact-resistant plastic material. The blades are from alloyed steel according to EN 10020 with a hardness of least 58 HRC.

Weight: 1,32 kg

Note

Cable stripper for vulcanized semi conductive layer HFBS

For stripping the vulcanized semi conductive layer

Cable stripper for vulcanized semi conductive layer HFBS

The device is for stripping the vulcanized semi conductive layer of low voltage and medium voltage conductors. The maximum layer thickness is 1,5 mm. The stripper can be used for insulation diameter of 10 up to 52 mm. The positioning on the cable is made by a clamping system. The stripping process can be started and stopped in every position of the cable. A switch lever to activate/inactivate the axial traverse speed is available. The device has optimum gliding properties through coated contact surfaces. The maximum rotation diameter is 200 mm.

The components are made of aluminium, steel and brass, with anodized, chromium-plated and nickel-plated surfaces. The form parts are of impact resistant plastic. The blades are from alloyed steel with a hardness of least 55 HRC.

Length: 170 mm

Weight: 0,79 kg

For medium voltage conductors

Inside cleaving cutter (universal) HIMS II

- The inside cleaving cutter HIMS II can be used for stripping-off the primary insulation on the ends of medium voltage conductors of 6 up to 45 kV with outside diameters of 15 up to 52 mm and a maximum insulation thickness of 15 mm.
- The positioning on the cable is made by a clamping System. Spiral and circle cuts are possible. The cut depth is adjustable of 0 up to 15 mm and the feed rate is selectable in 5 steps. The stripping can be stopped in every Position of the cable. The stripping length is unlimited. The device has optimum gliding properties through coated contacts surfaces. The maximum rotation diameter is 220 mm.
- The components are made of aluminium, steel and brass, with anodized, chromium-plated and nickel-plated surfaces. The blades are from alloyed steel with a hardness of least 55 HRC.
- Length: 170 mm
- Weight: 1 kg

Note

- Spare blade for HIMS, part no. 906241
- Spare tube silicone paste 100ml, part no. 906239

Scope of delivery

HIMS II device, silicone paste, allen wrench 2,5 mm, plastic case

Chamfer cutter HUFS

For medium voltage conductors

Chamfer cutter HUFS

- Chamfer cutter HUFS is for chamfering the primary insulation of medium voltage conductors with outside diameter from 15 up to 60 mm.
- Positioning on the cable is made by a clamping system. The device has PTFE-plates for optional gliding properties on the cable. A silicone paste is not necessary.
- Size of the chamfer: 2 mm x 60°
- Maximum rotation diameter is 220 mm
- The device is light and has a robust construction form. The components are made of aluminium and steel. The blades are from alloyed steel with a hardness of least 55 HRC.
- Length: 145 mm
- Weight: 0,39 kg

Note

Spare blade for HUFS, part no. 906243

HELUTOOL HKM 1 Cable stripping knife

Cable stripping knife HKM 1

- With special grinding. The special blade prevented a damage of the conductor. The knife has a blade protection, sinking into the handle
- The changeable blade is made of stainless steel according to DIN EN 10020, hardness minimum 50 HRC
- High-quality, ergonomically formed handle is out of impact plastic (PA)
- Admission of the VDE up to 1000 volt according to EN/IEC 60900:2004 and GS-sign
- Length: 200 mm
- Weight: 0,1 kg

Note

■ HELUTEC® SIGNAL AND POWER PLUG CONNECTORS

| Description | Page |
|---|------|
| Three technologies for easy handling | 488 |
| Functional design for harsh environments | 489 |
| HELUTEC®-Series 617 / 623 / 627 | 490 |
| HELUTEC®-Series 917 / 923 / 932 / 940 / 958 | 491 |
| HELUTEC®-Series 615 / 915 | 492 |
| HELUTEC®-Series 926 | 493 |
| Tools and accessories | 494 |
| Selection Guide | 495 |

■ HELUTEC® – THREE TECHNOLOGIES FOR EASY HANDLING

The innovative HELUTEC® system

This sensational, quick fastening connector is safe and stable while saving time and installation costs. The vibration-resistant lock mechanism was perfected for plug connectors sizes M17, M23 and M40, which can be found in the HELUTEC® series 617, 917, 623, 723, 923 and 940. The HELUTEC® angle junction boxes can be easily combined at any time with the HELUTEC® system or with standard lock nuts. This also addresses the issue of downward compatibility. Slide it on and rotate for a tight fit. Patented perfection included.

The Patented Special Development for the HELUTEC® Series 615/915

Fits in tight locations. In areas with limited space, just wind the pre-tensioned lock nut before sliding the nut into the lock position. A small rotation with a little pull at the plug releases the lock nut preventing an unintended release of the vibration resistant quick fastener. Only a quarter turn and a slight pull on the connector is required to disconnect. The connection is absolutely vibration proof. This was specially developed and patented for the HELUTEC® series 615/915.

The freely customizable connector

Bonded for life. Once the connector housing and the shell are united in the assembly process they can not be separated anymore. This provides the required manipulation security for customized units - a design that is normally only available for cast versions. All commercially available cables at any length can be connected to the inner section of the robust metal housing. This is for both options: Standard screw connections or those items that include a patented fast lock system. For almost any pin design.

■ HELUTEC® – FUNCTIONAL DESIGN FOR HARSH ENVIRONMENTS

Frost protection down to -50 °C

A cool thing: HELUTEC®-connectors are temperature-resistant way down below freezing point. It is therefore predestined for special tasks in extreme climate zones, where they work without failure and fail-safe. The electric and mechanic values remain unimpressed. Even if it heats up: the connectors do no have a problem with 130°C, they stay cool. Also in smallest sizes available - they withstand harsh conditions and keep their unique design.

Protection classification IP 66/67 & 69K

Perfect for wetlands: Generally all HELUTEC® connectors are protected against water spray and temporary immersion. Every cable assembly with connector and cable strand is IP 66/67 protected. For special applications such as in water and/or steam, they can additionally qualified acc. to IP 69K. To fulfil the requirements of this highest protection classification and to guarantee unlimited safety, the cable clamp is fine tuned to the relevant cable. Even if standard screw connectors or HELUTEC® system – the robust metal housing with integrated EMC screening withstands extremely moisture.

Protection classification IP 68

Working under pressure: The special HELUTEC® series 615/915 are also capable of long-term missions under water. Even permanent immersion of about 120 hours at 15 meter under water with 1.5 bar pressure do not cause any problems, as tests have shown. Reward of these efforts: the qualification of both series acc. to protection classification IP68.

■ HELUTEC® – SERIES 617 / 623 / 627 SIGNAL CONNECTORS – CONTROLLING – MONITORING

Stable, versatile, safe: HELUTEC® series can be found where a safe connection is required within a limited installation space. The plug connectors in the 617, 623 and 627 series are designed especially for extra-low voltages, and are used in any application that transmits signals, controls motors or monitors the smooth functioning of a system.

For this purpose, a multitude of multi-pin insulation bodies - matching a variety of different designs such as plugs, couplings and flush-mounted boxes - are available for the user. Consequently, HELUTEC® engineers are able to handle a multitude of customer-specific connector requirements in a very innovative way.

Properties:

- Drive systems
- Robotics
- Mechanical engineering
- Automation mechatronics
- Medical technology
- Packaging and Printing
- Aerospace
- Equipment construction machinery
- Railway technology
- Shipbuilding
- Renewable energies
- Lightning, sound and stage equipment
- Food industry
- Textile industry

Technical data, please see selection table for signal and power / hybrid on page 519.
For detailed information and our online configurator, please see www.helutec.de

■ HELUTEC® – SERIES 917 / 923 / 932 / 940 / 958 POWER PLUG CONNECTORS – STRONG AND SAFE

Extremely resilient: HELUTEC® power plug connectors accelerate torque heavy drive motors, spindle drives and servo motors reliably up to the highest rotational speeds while tolerating millions of abrupt starts and stops. Voltages up to 630 V and currents of up to 200 A are transferred reliably even in continuous operation and under the most demanding conditions. Cable cross sections of up to 50 mm² and the smallest possible designs are - depending on the application - part of the scope of delivery as well as a perfect EMC shielding for the highest operational and work safety.

Strong vibrations and sudden stops have no impact on these plug connectors in day-to-day operations, neither do heat, cold, moisture, dust and dirt.

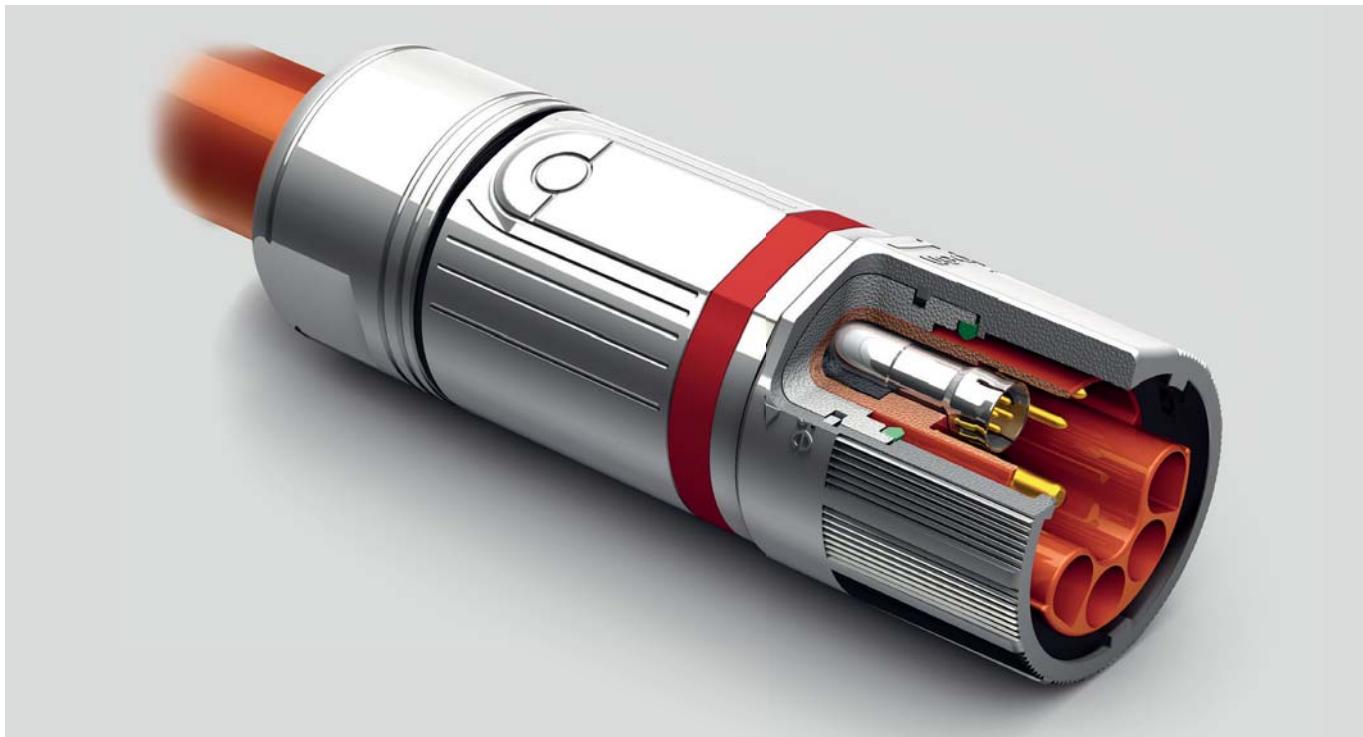

All high performance connectors are tested in the test lab to safeguard the long-term durability in the field (up to 50 G). Besides special stress tests, individual customer requirements are analysed in terms of adjustments to the installation situation and integrated system solutions.

Properties:

- Drive systems
- Robotics
- Mechanical engineering
- Automation mechatronics
- Medical technology
- Packaging and Printing
- Aerospace
- Equipment construction machinery
- Railway technology
- Shipbuilding
- Renewable energies
- Lightning, sound and stage equipment
- Food industry
- Textile industry

Technical data, please see selection table for signal and power / hybrid on page 519.
For detailed information and our online configurator, please see www.helutec.de

■ HELUTEC® – SERIES 723 HYBRID-CONNECTOR WITH BUS MODUL

Full speed ahead - with six signal contacts plus one quadrax element. The latter provides for fast Industrial Ethernet (CAT 5) connections in real time mode and opens completely new possibilities with its ready-to-assemble, separately shielded Ethernet element. When daisy-chaining decentrally controlled servo motors for example, it is possible to run 850 VDC. Therefore the super-hybrid connector size M23 can also handle 30 A of current and a wire cross section up to 4.0 mm².

The superior technical data speak for themselves as well as the many versions that are available: HELUTEC®-Serie 723 for all common flange and screw-in versions. No matter if it is a straight, angled or continuously rotating connector housing - this connector with patented HELUTEC® system is the new star on the horizon for application in automation technology.

Notes:

Lightning fast data transfer with a numerous field bus systems.

CANopen®

DeviceNet®

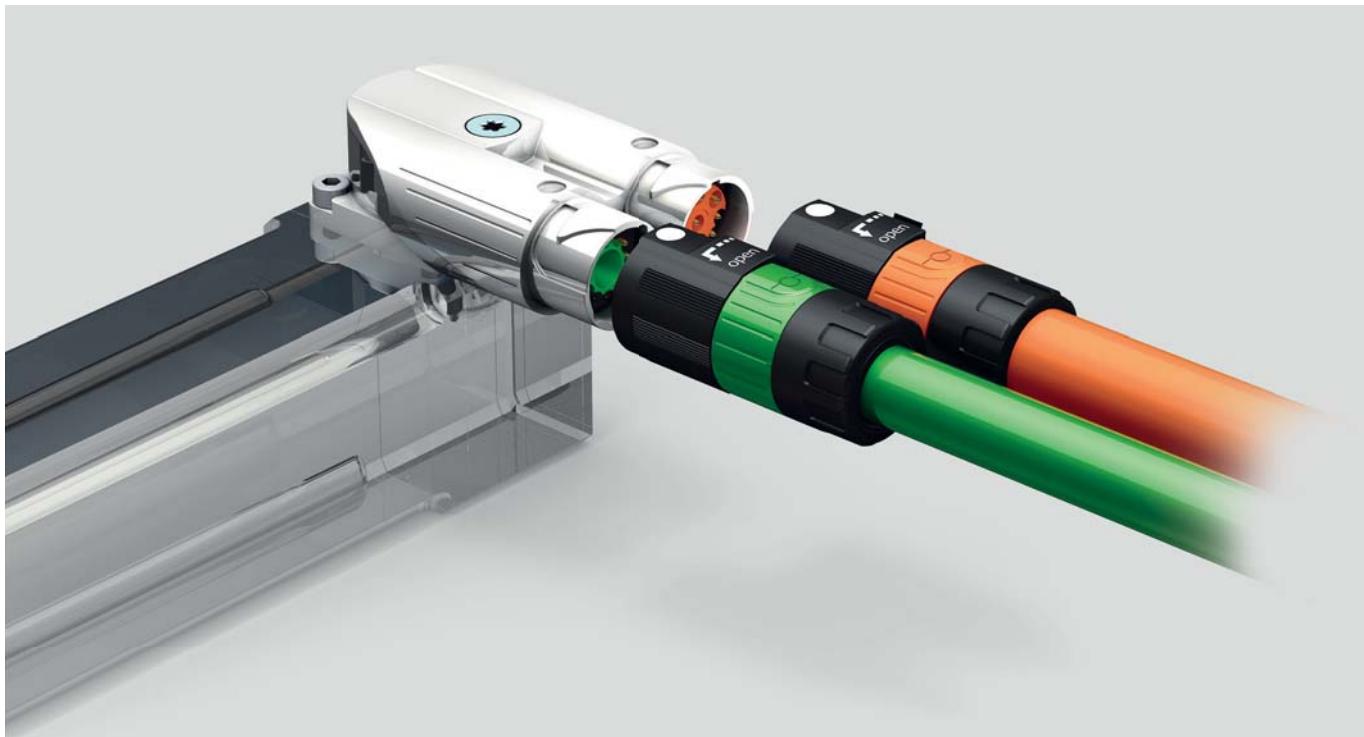

EtherCAT®
Technology Group

PROFIBUS®

Technical data, please see selection table for signal and power / hybrid on page 519.
For detailed information and our online configurator, please see www.helutec.de

■ HELUTEC® – SERIES 615 / 915 THE ULTRA-FLAT DEVICE CONNECTOR

Small in size yet great in performance: The system impresses with high performance in small format.

Only one mounting hole is required to realize a combination of power and signal connection or power and bus connection on a small motor. The optimal partition of connector lid and connector housing and the therefore available large assembly space makes it easier than ever: Mechanical as well as colour codings provide additional safety. Except for crimping the system requires no special tools. In addition, the system remains 300° continuously rotatable after installation.

The single version offers the same characteristics as its big brother and is available as signal or power connector. Thus it is perfectly suitable for miniaturized applications, where space is critical and room for cabling limited. There is no easier way to establish save connections today.

Properties:

- **EMC**
- **IP 66/67**
- **To 20G**
Vibration-resistant
- **c UR**

Technical data, please see selection table for signal and power / hybrid on page 519.
For detailed information and our online configurator, please see www.helutec.de

■ HELUTEC® – SERIES 926

A PLASTIC CONNECTOR FOR STAGE AND LIGHTNING

Curtains up - for the series 926 and for everybody who stands in the limelight treading the boards. These connectors are a shining example for an innovative, reliable and easy to use plastic connector.

Safety is a top-priority: Lightning and stage technicians must be protected from electric shock when handling cables and equipment.

The solid plastic design, flame retardant according to UL 94 VO and the modern connection method with a 'one hand push-pull mechanism' point the way into the future. Connectors are also clearly coded facilitating fast and intuitive handling.

Thanks to its high protection classification of IP66/67 and with outstanding 630 V rated voltage and 66 A rated current while ready to take on 16 mm² wires - the series 926 is well established for the use in other fields. Offshore and marine applications from oil rigs and wind turbines to any kind of seafaring vessel are only examples for the capabilities of this system. Thus, nobody is standing in the dark on the high seas.

Properties:

- **IP 66/67**

Technical data, please see selection table for signal and power / hybrid on page 519.

■ TOOLS AND ACCESSORIES

Crimping pliers

CRIMPING PLIERS FOR SERIES A, B AND F

Manual crimping pliers

for Ø 1 mm contacts
to core cross-section 1 mm²
including positioning insert
Order no.: C0.101.00

CRIMPING PLIERS FOR SERIES A, B, C, D AND F

Manual crimping pliers

for Ø 1 mm contacts and
Ø 2 mm
contacts to core cross-section 4 mm²
inclusive positioning basic body
Order no.: C0.201.00

Positioning insert
for Ø 1 mm contacts
Order no.: C0.003.00

Positioning insert
for Ø 2 mm contacts
Order no.: C0.004.00

Positioning insert
for Ø 1 mm contacts and
Ø 2 mm contacts
Order no.: C0.009.00

■ BASIC FUNCTIONS OF A CABLE GLAND

| | |
|---------------------------|--|
| Cables and wires transfer | <ul style="list-style-type: none">• Energy (current)• Signals and data (current, voltage, light) |
| Cable protection | If a wire has to be connected in a housing, the housing must have a protective lead-through. Otherwise, there is the risk that the wire could be damaged in case of movement. |
| Strain relief | A wire is moving more or less - during installation or in long-term use. Important is the tensile load protection. The movements may be either constant or intermittent. Therefore, a cable gland with strain relief is necessary. Strain reliefs are described in EN 50262. A differentiation is made between retention, strain relief A and strain relief B. Generally, cable glands have strain relief A. |
| Protection classification | The lead-through in the wall of the housing must be sealed. This is described by the protection classification IP. The cable glands presented here have protection classification IP68, 5 bar. The 6 stands for "no dust penetration", the 8 stands for "protected when permanently submerged in water" - this is tested at a water pressure of 5 bar (corresponds to 50 m depth) for a duration of 30 min. |
| Seal with insert | A seal is compressed by tightening the cap nut. A particularly high quality seal and strain relief are achieved. |
| Seal with clamping plates | When the cap nuts are screwed tight, lamellae press against the moulded seal - the wire is thereby sealed and the strain is relieved. The particular advantage of the clamping plate is that they make a large clamping range possible, to allow for different wire diameters. |
| Resistance | Different applications demand different degrees of resistance. Plastic cable glands made of Polyamide 6 can be used at a temperature range from -20°C to +100°C, they are abrasion and impact resistant, and withstands hydrocarbons/fuels and cleaning agents. Stainless steel cable glands are suitable for heavy-duty use - they are watertight and resistant to a large number of disinfectants used in food production. Brass glands are used when a long-lasting metal gland is required. Cable glands for electromagnetic compatibility (EMC) are made of brass. |
| Compact design | <ul style="list-style-type: none">• No disassembly during final assembly. Simply loosening the cap nuts.• No losing components• Quick assembly |
| Standard EN 50262 | Cable glands are produced and tested according to the standard EN 50262. This stipulates the dimensions of the connection threads ('metric connection thread') as well as a series of safety-relevant parameters, e.g. strain relief. Cable glands are also available with another threaded connection (PG, NPT etc.). |
| RoHS | Due to the directive 2002/95/EG environmental-relevant standards for electrical and electronic components and devices are generated. This is known as RoHS for short: Restriction of the use of certain hazardous substances in electrical and electronic equipment. The use of heavy metals (lead, cadmium, etc.) and a number of other hazardous substances is forbidden. |

■ INSTALLATION NOTES - CABLE GLANDS

Disassembly of the glands

HELUTOP® HT, HSK, Helufast, UNI-DICHT, KVA, SD is not necessary – provided that the cap nut is applied in such a way as to allow smooth running, there is no problem with subsequent insertion of the cable.

Screwing in

When screwing, observe the necessary tightening torque. If only one through-hole without thread is available, a lock nut must be used; exception are the threadless cable glands.

Protection classification

In order to achieve the desired protection classification even when working with an unfavourable surface, it may be necessary to use an O-ring or a connection thread gasket. To ensure a consistently high-quality seal, we recommend re-tightening the gland some time after assembly.

Lead through cable - turn cap nut - that's all there is to it!

■ APPROVALS HELUTOP® HT

■ IP-PROTECTION CLASSIFICATION

Definition of IP-Code Protection classification acc. to EN 60529

The IEC 60529 „Protection classifications using enclosure (IP-Code)“ provides a system for classifying the protection ratings of electrical operating materials by enclosure. This standard defines terms for the protection classifications by enclosure concerning:

- Protection of persons against access to dangerous parts inside the enclosure
- Protection of operating material inside the enclosure against ingress by solid foreign substances
- Protection of operating material inside the enclosure against damage by the ingress of water

| Protection level against solid foreign bodies | | | Protection level against water | | |
|---|---|---|--------------------------------|---|---|
| First number | Short description | Definition | Second number | Short description | Definition |
| 0 | Not protected | The object sensor, a 50 mm ball, must not fully penetrate. | 0 | Not protected | Vertically falling droplets must not have a damaging effect. |
| 1 | Protected against solid foreign bodies of 50 mm diameter and larger | The object sensor, a 12.5 mm ball, must not fully penetrate. | 1 | Protected against dripping water | Vertically falling droplets must not have a damaging effect if the enclosure is tilted by an angle of up to 15° on both sides of the perpendiculars. |
| 2 | Protected against solid foreign bodies of 12.5 mm diameter and larger | The object sensor, a 2.5 mm ball, must not penetrate at all. | 2 | Protected against dripping water if the enclosure is tilted by up to 15°. | Water sprayed at both sides of the perpendiculars at an angle of up to 60° must not have a damaging effect. |
| 3 | Protected against solid foreign bodies of 2.5 mm diameter and larger | The object sensor, a 2.5 mm ball, must not penetrate at all. | 3 | Protected against spray water | Water sprayed at both sides of the perpendiculars at an angle of up to 60° must not have a damaging effect. |
| 4 | Protected against solid foreign bodies of 1.0 mm diameter and larger | The object sensor, a 1.0 mm ball, must not penetrate at all. | 4 | Protected against spray water | Water sprayed against the enclosure from one direction must not have a damaging effect. |
| | | | 4K | Protected against spray water with high pressure | Water sprayed against the enclosure from any direction at increased pressure must not have any damaging effects. (Only applies to road vehicles according to DIN 40 050 Part 9) |
| 5 | Dust protection | Dust penetration is not prevented completely. The amount of penetration, however, must not impair the function or safety of the device. | 5 | Protected against | Water sprayed against the housing in a strong jet from every direction must not have a damaging effect. |
| 6 | Dust protection | No dust penetration | 6 | Protected against strong hose water | Water sprayed against the housing in a strong jet from every direction must not have a damaging effect. |
| | | | 6K | Protected against strong hose water with high pressure | Water sprayed against the housing with high pressure from one direction must not have a damaging effect. (Only applies to road vehicles according to DIN 40050 Part 9) |
| | | | 7 | Protected against the effect when temporarily submerged under water | The volume of penetrating water must not have a damaging effect when the housing is temporarily submerged under water at a certain pressure. |
| | | | 8 | Protected against the effect when permanently submerged under water | The volume of penetrating water must not have a damaging effect when the housing is permanently submerged under water at a certain pressure. |
| For example: Letters | | | 9K | Protected against the effect of water from high-pressure cleaners. | Water sprayed against the housing under increased pressure from one direction must not have a damaging effect. (Only applies to road vehicles according to DIN 40050 Part 9) |
| First index: IP 65 | | | | | |
| Second index: Protection against liquid | | | | | |

■ DESCRIPTION OF FIRE PROTECTION ACC. TO UL 94

Fire protection HB

In the horizontal combustion test, the material combusts slowly. Therefore, the combustion speed must not exceed 3 inch/min to 3 mm wall thickness and 1,5 inch 7 min at over 3 mm wall thickness. Materials exceeding this combustion speed are not UL listed.

Fire protection V2

In the vertical combustion test, the material must self-extinguish after an average of 25 seconds (no single values over 30 seconds). Material drips can ignite wool placed underneath it. The afterglow, however, must not exceed 60 seconds.

Fire protection V1

In the vertical combustion test, the material must self-extinguish after an average of 25 seconds (no single values over 30 seconds). By contrast, any drips must not ignite the wool. The afterglow must not exceed 30 seconds.

Fire protection V0

In the vertical combustion test, the material must self-extinguish after an average of less than 5 seconds (no single values over 10 seconds). Eventually, any drips must not ignite wool and the afterglow must not exceed 30 seconds.

■ SIZE COMPARISON AND METRIC/PG/NPT/BSP INSTALLATION DIMENSIONS

x Metric long thread acc. to EN 60423

| Nominal size | Outer diameter | Through-hole |
|--------------|----------------|--------------|

■ INSTRUCTIONS FOR ASSEMBLY OF CABLE LUGS AND JOINTS – GENERAL

1. The measurements of the cable lugs/joints as well as their cross-section assignment have to be taken from the catalogue.
2. The end of the cable has to be cut right-angled to the joint and to be stripped ca. 10 % corresponding to the length of the cable lug receptacle. (The receptacle elongates a bit during the compression)
3. The wire ends have to be cleaned thoroughly of dirt and oxide rests prior to the compression. Sector wires have to be rounded.
4. The wire is pushed as far as it will go in the cable lug receptacle, or rather to the middle of the joint.
5. Prior to the compression it has to be checked if the wire and the cable lug, or rather the joint, have the same cross-section marking and match according to the catalogue.
6. It has to be detected if the compression tool is ready for the montage with the right compression insert. This information is written in the catalogue of the producer or rather in the operating instructions of the compression tool, for each series and every cross-section.
7. The compression process, with cable lug and joint, happens from the end of the cable in the direction of the end of the receptacle (see sketch).

The number of compressions is based on the following tables.

■ COMPRESSION INSTRUCTION

Min. number of required compressions while manufacturing HELU-S-RK-tubular cable lugs and HELU-S-SV-compression joints (WM-compression):

| Cross-section in mm | Compression amount x width | HWW 6/50 907612 | HWW 10/120 907613 | HMPi 20 907614 | HHPi 20 908286 | HAP 60-2 908494 |
|---------------------|------------------------------------|--------------------|----------------------|-------------------|-------------------|--------------------|
| 6 | 1 x 5 mm 1 x 7 mm | | | • | • | • |
| 10 | 1 x 5 mm 1 x 7 mm | • | • | • | • | • |
| 16 | 2 x 5 mm 1 x 7 mm | • | • | • | • | • |
| 25 | 2 x 5 mm 1 x 12 mm | • | • | • | • | • |
| 35 | 2 x 5 mm 1 x 10 mm 1 x 12 mm | • | • | • | • | • |
| 50 | 2 x 5 mm 1 x 12 mm | • | • | • | • | • |
| 70 | 2 x 5 mm 1 x 12 mm | | • | • | • | • |
| 95 | 2 x 5 mm 1 x 12 mm | | • | • | • | • |
| 120 | 3 x 5 mm 2 x 7 mm 1 x 12 mm | | • | • | • | • |
| 150 | 3 x 5 mm 2 x 7 mm | | | • | • | • |
| 185 | 3 x 5 mm 2 x 7 mm 2 x 10 mm | | | • | • | • |
| 240 | 3 x 5 mm 3 x 7 mm 2 x 13 mm | | | • | • | • |
| 300 | 4 x 5 mm 3 x 7 mm 2 x 13 mm | | | • | • | • |

Important : Please note the "Instruction for Assembly of Cable Lugs and Joints - General" when producing compressions.
 Joints : Minimum number of necessary compressions per side.

■ COMPRESSION INSTRUCTION

Min. number of required compressions when using CU tubular cable lug of series HELU-S-PK-CU-DIN- and HELU-S-PV-CU-DIN

| Cross-section in mm | Code type | Compression Width | HMPi 20 907614 | HHPi 20 908286 | HAP 60-2 908494 |
|------------------------|-----------|------------------------------------|--------------------------|-------------------|--------------------|

■ NOTES

NOTES

Prices

Prices are valid from 01. April 2016. Errors excepted. All prices are subject to change and without obligation

Technical modifications

© HELUKABEL® GmbH Hemmingen

Dimensions and specifications may change without prior notice. Consequently all illustrations, numerical data, etc. are provided without guarantee. Colour deviations between photos and delivered goods cannot be avoided. Reproduction or duplication of the text and illustrations, in whole or in part, remain reserved. The transfer of copyrights always requires the written consent of HELUKABEL® GmbH. Our General Terms of Delivery and Payment, which can be viewed at www.helukabel.com, apply.

Length markings

The length marking, which cannot be calibrated, is an aid, e.g. for easy material allowance determination or for determination of the length remaining on the drum. Deviation of the line length shown by the marking is up to 1%. Incomplete length markings or length markings missing on sections, deviations of the cable length shown by the length marking do not substantiate any legal obligation whatsoever. Only use calibrated measurement devices to determine line length.

Safety notice

The cables and wires described in the catalog are produced in accordance with national and international standards, as well as plant standards; application safety, as stipulated in the safety directives, standards, and statutory regulations, as amended, is provided. Following proper installation and usage guidelines, the possibility of product-specific dangers can be excluded. For each product this catalog describes general information for use. Independent of the above, the applicable DIN VDE specifications apply. Installation and processing must only be executed by qualified electricians.

VDE approval

„Extracts from DIN standards with VDE classification are reproduced for the registered limited press run via permit no. 392.013, issued by Deutsches Institut für Normung e.V. [German Institute for Standardization] and VDE Verband der Elektrotechnik Elektronik Informationstechnik e.V. [Institute of Electrical and Electronics Engineers]. Any further reproduction or printing of these materials is subject to a specific permit. The versions of the standards with the most recent issue data are binding for the application thereof. These versions can be obtained from VDE VERLAG GMBH, Bismarckstr. 33, 10625 Berlin, www.vde-verlag.de.“
