

Product Change Notification

Change Notification #: 119652-00

Change Title: Select Intel® RealSense™ Depth Cameras,
PCN 119652-00, Product Design,
Firmware Update

Date of Publication: August 22, 2023

Key Characteristics of the Change:

Product Design

Forecasted Key Milestones:

Date Customer Must be Ready to Receive Post-Conversion Material	September 04, 2023
---	--------------------

Description of Change to the Customer:

The Intel® RealSense™ Depth Camera and Intel® RealSense™ Vision Processor SKUs listed in the products affected table below will have the following changes:

- The firmware version changes on the SKUs detailed in the table below from 5.13.0.55 to 05.15.0.2.
- D435f and D435if cameras with the TA numbers given below are manufactured at Intel's production line with FW version 05.15.0.2.
- These cameras are presented as D435f/D435if respectively by the SDK and the Intel RealSense viewer starting Firmware 5.15.0.2 and SDK version 2.54.1.
- D435f and D435if with pre change TA numbers are presented as D435 and D435i. Updating the FW version to 05.15.0.2 to these units will not support this feature.
- The key features in the various firmware versions are documented in the link provided herein at:
<https://dev.intelrealsense.com/docs/firmware-releases>

Customer Impact of Change and Recommended Action:

The Firmware version of the camera is updated compared to cameras purchased previously. The changes are listed in the link provided herein. The Firmware of the camera can be updated to the previous version if desired, refer to <https://dev.intelrealsense.com/docs/firmware-releases>

Please contact your local Intel Field Sales Representative if you have any further questions about these changes.

Notices & Disclaimers

No license (express or implied, by estoppel or otherwise) to any intellectual property rights is granted by this document.

Intel disclaims all express and implied warranties, including without limitation, the implied warranties of merchantability, fitness for a particular purpose, and non-infringement, as well as any warranty arising from course of performance, course of dealing, or usage in trade, except as provided in a separate written agreement.

You may not use or facilitate the use of this document in connection with any infringement or other legal analysis concerning Intel products described herein. You agree to grant Intel a non-exclusive, royalty-free license to any patent claim thereafter drafted which includes the subject matter disclosed herein.

The products described may contain design defects or errors known as errata which may cause the product to deviate from published specifications. Current characterized errata are available on request.

Statements in this document that refer to future plans or expectations are forward-looking statements. These statements are based on current expectations and involve many risks and uncertainties that could cause actual results to differ materially from those expressed or implied in such statements. For more information on the factors that could cause actual results to differ materially, see our most recent earnings release and SEC filings at www.intc.com.

Customer is responsible for safety of the overall system, including compliance with applicable safety-related requirements or standards.

Intel technologies may require enabled hardware, software or service activation.

No product or component can be absolutely secure.

Your costs and results may vary.
