

Siemens Low Voltage Circuit Protection General Duty Safety Switches. CSA 200A  
3P 600V 3W NON-FUSED GD TYPE 1

| General technical data                             |                        |
|----------------------------------------------------|------------------------|
| principle of operation of the actuating element    | SINGLE THROW           |
| mechanical service life (operating cycles) typical | 8000                   |
| number of poles                                    | 3                      |
| Electricity                                        |                        |
| ampacity                                           | 200 A                  |
| Breaking Capacity                                  |                        |
| switching capacity active power                    | 3 W                    |
| Environmental conditions                           |                        |
| ambient temperature during operation maximum       | 49 °C                  |
| ambient temperature during operation minimum       | -29 °C                 |
| Model                                              |                        |
| product brand name                                 | Siemens                |
| product type designation                           | ENCLOSED/SAFETY SWITCH |
| Mechanical Design                                  |                        |
| design of the housing                              | TYPE 1                 |
| material                                           | STEEL                  |
| General product approval                           |                        |
| certificate of suitability                         | CSA                    |
