

F Female to PAL Jack Adapter

RF Adapters Technical Data Sheet

PE9634

Configuration

- F Female Connector 1
- PAL Jack Connector 2
- 75 Ohms
- Straight Body Geometry

Features

- 3 µin minimum contact plating
- Gold Plated Phosphor Bronze Contact

Applications

- Allows Connection Between Series
- General Purpose Test

Description

Pasternack's PE9634 type F female to PAL jack adapter is part of our full line of RF components available for same-day shipping. Our type F to PAL adapter has a female to jack gender configuration.

RF adapters are often used to enable connections between two connector types that would otherwise not mate. Certain adapter configurations can also be used to protect connectors on expensive equipment where the number of connect/disconnect cycles is high. An RF, microwave or millimeter wave adapter is connected to the equipment, and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Pasternack also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.

Mechanical Specifications

Size

Length	1.154 in [29.31 mm]
Width	0.433 in [11 mm]
Weight	0.027 lbs [12.25 g]

Description	Connector 1	Connector 2
Type	F Female	PAL Jack
Polarity	Standard	Standard
