WHAT YOU GET:

1. **Stop looking for expensive individual tools**
2. **Learn how to solder**
3. **Assemble cool electronics projects**
4. **Never need another electronics tools pack again!**

What educational kits should NOT do:

Lack actual useful educational content

Be a label for cheap regular toys

Enforce gender stereotypes

What educational kits should do:

Teach you actual science

Provide hours of building and infinite enjoyment

Provide real-world application

What’s inside?

Things you'll get in this super cool Tools box:

1 **Soldering iron**

2 **Solder sucker**

3 **Phillips Screwdriver**

4 **Needle nose pliers**

5 **Diagonal cutter pliers**

6 **Metal soldering iron stand**
