

产品或流程变更
PRODUCT / PROCESS CHANGE NOTE

客户名称 (Customer Name) : **ALL**
 产品品名 (Product Name) : **High Current Power Inductor, High Current Power Inductor for Digital AMP**
 申请日期 (Application Date) : **2023.06.01**

变更类别 Change Type	: <input type="checkbox"/> 主要 Major	<input checked="" type="checkbox"/> 一般 Minor		
变更等级 Change Level	: <input type="checkbox"/> 全数变更 All Change	<input type="checkbox"/> 立即更换 Immediate replace	<input checked="" type="checkbox"/> 自然转换 Change All	
变更种类 Change Item	: <input type="checkbox"/> 材料 Material	<input checked="" type="checkbox"/> 工艺流程 Process	<input type="checkbox"/> 外观包装 Packaging	<input type="checkbox"/> 其他 Other
变更对象 Change Object	: <input checked="" type="checkbox"/> 新制成品 New Product	<input type="checkbox"/> 半成品 Semi-Finish Good	<input type="checkbox"/> 成品 Finish Good	

变更内容 Change Description:

Due to environmental protection needs, the marking ink used in high current power inductors and high current power inductors for digital AMP has been stopped production, and it will be changed to that laser marking.

After changing to laser marking, the text is engraved on the surface of the inductors, which is corrosion-resistant, has higher reliability, and will not fade, while saving energy.

Please refer to the following instructions for details:

Example Photo	Before the change: Ink marking	After the change: Laser marking
	Standard printing	Standard lettering
High Current Power Inductors- ALL series		
High Current Power Inductors for Digital AMP- ALL series		

2. Change description:

- 2.1. Maintain the original indicators and performance, only change the marking method to laser marking;
- 2.2. The demand for neutral marking remains unchanged, only changing the marking method to laser
- 2.3. The change will effect from August 1, 2023, and the inventory of finished products will naturally switch and be packaged separately for shipment. The new order is produced according to the changed specifications.
