TECHNICAL DATA SHEET BOW 1000 THINNER

DESCRIPTION

BOW 1000 Thinner is a clear organic flux thinner for use with BOW liquid organic fluxes. It has been developed to replace solvent loss due to evaporation during flux application. As evaporation occurs, the fluxes may experience density and viscosity changes. The 1000 Series Thinner is added to maintain the proper specific gravity and solid content for the flux.

PHYSICAL PROPERTIES

Color and Appearance	Clear Liquid
Specific Gravity @77°F	0.787
Density (lbs./Gallon)	6.5
Flash Point (°F)	53°F

PACKAGING AND STORAGE INFORMATION

Bow 1000 Thinner available in 1 pint, 1 quart, 1 gallon, 5 gallon and 55 gallon containers. They should be stored in a cool dry place. Since this flux is flammable, keep away from open flames and spark sources. Please consult Safety Data Sheets prior to use.
