# Servo to Crocodile Clip Adapter Cable

The Servo to Crocodile Clip Adapter Clip Cable allows you to connect a standard servo to a board that accepts crocodile clips. The adapter cable features 100mm colour-coded cables terminating in a male servo connector at one end and a colour-coded 35mm croc clip at the other. This adaptor is ideal for connecting standard servos to the Kitronik Klip Motor Driver Board for the micro: bit.

Wire Colour	Clip Cover Colour	Usual Servo Assignment
Brown Wire	Black Clip Cover	GND
Red Wire	Red Clip Cover	+ve.
Orange Wire	Yello Clip Cover	Signal.

Features

- This adapter cable allows you to attach a standard servo to a board that accepts crocodile connections

- Colour-coded 100mm leads and crocodile connector covers

- Ideal for use in robotics/Buggy projects

Contents and Dimensions

- 1 x Servo to Crocodile Clip Adapter Cable.

- Length: 135mm

Requires

- A suitable Servo

- A crocodile clip-ready board such as the Kitronik Klip Motor Driver Board
