

ATMega328 - microcontroller - bootloader UNO

Code: X000048 / Barcode: 8058333492520

Overview

- **Atmel ATmega328** microcontroller in a DIL-28 package , pre-loaded with the **Arduino UNO** 16MHz bootloader. Using this device enables the use of **Arduino** code in a custom embedded project without having to use an actual **Arduino** board.
