BOTRON COMPANY INC.

Botron Elite Complete HID Part Numbers

The part numbers listed below require the ID Reader Request Form to be completed and sent to Botron Company Inc for evaluation. This process is for new Elite Complete HID customers that have not already completed this step. This is a one-time request and the card reader data will be stored for future orders in our database. We will request 2-3 (active or inactive) badges/cards to be shipped to Botron for evaluation. These cards will be shipped back with their order and used as part of the final QC.
