6ft (2m) Power Extension Cord, Right Angle NEMA 5-15P to NEMA 5-15R, 13A 125V, 16AWG, Computer Power Extension Cord, Flat Extension Cord, AC Outlet Extension Cable

Product ID: RFX-6F-POWER-CORD

Configure the NEMA 5-15 power connections in a server room, reduce cable strain for safe and efficient power connections behind office furniture, and extend the length of bulky power cords.

The extension cord features a low-profile right-angled NEMA 5-15 plug. This reduces cable strain and increases the amount of airflow when connecting to a NEMA 5-15 receptacle that is situated behind a cabinet or a desk within a high-density server rack in a data center. Extend any NEMA 5-15 power cord (e.g., for a computer, display, server PDU/UPS, etc.).

The right-angle power cord enables access to previously blocked receptacles, located on power strips, surge protectors, or wall outlets. Since the cable is situated to the side of the outlet, bulky plugs will no longer impede access to nearby receptacles.
