

PTC Thermistors: Type PTF

Over-current Protection

Description

PTC disc thermistor for overcurrent and short-circuit protection

Features

- Low cost solid state fuse
- Available in a broad range of resistances, transition temperatures and voltage ratings
- Exhibits large positive increases in resistance with temperature
- Wide range of trip and non-trip currents; from 30mA to 2.3 amps
- Resistance/temperature characteristic is infinitely repeatable and has no hysteresis associated with its action
- Proven quality and reliability over many years of manufacture
- Standard options include protective coating and tape and reeled to EIA RS-468A

Options

- Protective coating, replace "PTF" suffix with "PFC"
- Tape and reel, replace "PTF" suffix with "PFR"
- Coated and T&R, replace "PTF" suffix with "PFCR"
- Other resistances
- Other tolerances, other transition temperatures
- Alternate size and configurations
- Other voltage ratings
