

PCN461: Actuator Plating Change**Issue Date:** October 5th, 2023

Dear Valued Customer,

This notice is to inform of changes affecting finished good(s) you have purchased from Littelfuse.

Description of the Change:

- We are changing the supplier and plating for the actuator utilized in the attached products.

Reason for The Change:

- Our vendor for this actuator has chosen to exit production; we will transition to a vendor who currently supplies Littelfuse with similar components. In selecting this vendor, we chose to transition plating (pictured below) to align with plating on other similar components.

***Prior (Bright Chrome)******New (Bright Nickel)******Effective Date of the Change:***

- Effective immediately, we will supply finished goods that feature the new plating material.
- In March 2024, the manufacturing source of the component will transition vendors.

What You Need to Do:

- No action required; there is no change to fit or function; appearance of the actuator will differ.

If you have any questions, please feel free to contact your Littelfuse Customer Service Representative or your Inside Sales Representative. We appreciate your business and our continued partnership.

Sincerely,

Zachary Naughton
Sr. Manager, Product Management
