

Product Change Notification

TE Connectivity

Product Change Notification: PCN-21-101654

PCN Date: 08-APR-21

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:

AMPSEAL Sealed Connector System

Description of Changes

The Industrial and Commercial Transportation business unit of TE Connectivity is qualifying a natural material with colorant in addition to the pre-colored material currently used for AMPSEAL plug assembly part number(s) listed below. These PNs are TE proprietary designs, therefore considered catalog/general market product. PPAP and/or sample requests must be submitted within 14 days of PCN submission via ict-ppap-request@te.com or ePPAP system. Submission will not occur without request. Customer drawing(s) are not affected.

Reason for Changes:

This change is necessary since the material vendor is experiencing material supply constraints for the current pre-colored material used for plug housings. The color shade may vary slightly between new & current pre-colored material. The change doesn't impact performance. IMPORTANT: The current and previous revisions can be used interchangeably in the field. The change is being phased in gradually and previous revision can remain stocked until use. Shipments of both configurations may be mixed.

Estimated Dates:

Last Order Date (Obsolete Parts Only):	First Date To Ship (Changed Parts Only):
	12-APR-2021
Last Ship Date (Obsolete Parts Only):	Last Date for Mixed Shipments: (Changed Parts Only):
	12-OCT-2022
