

Standard Gain Horn Cage Style Antenna Mount,
Waveguide Size WR1500, IEC R6

Waveguide Antenna Accessories Technical Data Sheet

PEWAN1500-MNT

Features

- Supports WR1500 waveguide size
- Supports flange type: UDR 6, CPR 1500, PDR 6
- All Aluminum material
- Chromate conversion - inside finish
- Anti corrosion grey paint - outside finish
- Easy mount option and Seamless fit

Applications

- Gain Horn or Waveguide Mounting
- Antenna Measurements
- Laboratory use
- Microwave Testing
- Radome Testing
- EMC measurement
- Satellite Antenna Testing

Description

Pasternack's PEWAN1500-MNT is an antenna mount specifically designed for gain horn antennas. This antenna mount is built with a waveguide size of WR1500 and is compatible with the IEC R6 standard which ensures seamless integration with various equipment. Our high-quality WR1500 gain horn antenna mount is suitable for test and measurement applications. This antenna holder from Pasternack weighs 20 pounds which makes it highly portable and easy to handle.

The PEWAN1500-MNT antenna mount is available with 23.23 inches of length and a height of 13.78 inches. Our IEC R6 gain horn antenna holder has an aluminum body with chromate conversion inside finish, providing protection against environmental factors. This WR1500 mount is coated with an anticorrosion gray paint, safeguarding it from moisture and UV radiation. Additional dimensions and specifications for this WR1500 gain horn antenna mount are on our downloadable PDF datasheet above.

This gain horn antenna mount is one of the thousands of products available from Pasternack's in-stock inventory with same business day shipment for local, domestic, and international orders. Make your online purchase for our high-quality IEC R6 standard antenna mount and take advantage of the same business day shipping services. For further information on similar products, our expert technical support and knowledgeable sales team can help you get the perfect WR1500 gain horn antenna mount for your requirement.
