1. Introduction

The Titan AA.105 is a small magnetic mount external active GPS/Galileo antenna. The Titan AA.105 is ideal for robust, covert installations where durability and small size is paramount. It is fully IP67 waterproof rated for installations where water ingress may be an issue. With a small footprint of just 43.3 x 32.7 mm, the Titan AA.105 can be used in applications where space may be a constraint, and with its magnetic mounting style it is perfect for use in transportation applications.

Typical Applications Include:

- Commercial Transportation
- E-Scooters/Electric Vehicles
- Robotics and Autonomous Vehicles
- Asset Tracking

The Titan is also available in an adhesive mount version – [AA.108](#). For further information, please contact your regional Taoglas customer support team.
