Why is this “end of life” taking place?

The cellular module at the heart of this model is now obsolete and Siretta have developed the ZETA-GEP-LTE4 (EU) in it's place, using the same standard ZETA enclosure.

Are there other models that I can use in place of the ZETA-G-LTE (EU) products?

ZETA-GEP-LTE4 (EU) & ZETA-GEP-LTE4 (EU) Starter Kit.
