

## Product Change Notification

This document describes MIOTY product changes. This document is applicable for the following modules:

**RC1882-MIOTY**

Further details are described in the latest revision of the Data Sheet, User Manual, and Errata Note if applicable.

## SDK Product Change Notification

Radiocrafts defines product changes in firmware (FW) by:

**C:** Correction of an existing feature

**N:** Introduction of new features

**P:** Performance improvement

FW Revision	Change Notification		Date
1.0.0	<b>N</b>	New product pre-release	2020-06-26
1.1.0	<b>N</b>	ATZ command for factory reset	2021-03-08
	<b>N</b>	AT%RST command for module reset	
	<b>P</b>	Up to 245 bytes payload in a single transmission	
	<b>C</b>	EUI64 address reversed (MSB <-> LSB) for MIOTY compliance	

**Note!** For new orders you may receive older versions subject to stock rotation as old versions already manufactured and on stock will be sold out first. This given that the reason for the new version is non-critical, such as performance upgrade or added functionality. If the change is critical, such as for regulations compliance, an Errata Note will be issued for the old version and stock material will be called back.

## Known issues

Revision	Issue	Workaround
HW rev 1.01	The crystal may not be according to MIOTY™ specifications in terms of maximum ppm deviation over time and temperature	None, but module is calibrated during production

## Hardware Product Change Notification

No hardware is changed

## Disclaimer

Radiocrafts AS believes the information contained herein is correct and accurate at the time of this printing. However, Radiocrafts AS reserves the right to make changes to this product without notice. Radiocrafts AS does not assume any responsibility for the use of the described product; neither does it convey any license under its patent rights, or the rights of others. The latest updates are available at the Radiocrafts website or by contacting Radiocrafts directly.

As far as possible, major changes of product specifications and functionality, will be stated in product specific Errata Notes published at the Radiocrafts website. Customers are encouraged to check regularly for the most recent updates on products and support tools.
