Re: Digikey Part numbers

To whom it may concern,

This letter is notification that for the avoidance of any confusion part numbers that are sold through Digikey.com, a Parker Chomerics authorized distributor, will have part numbers ending in the "-DK" suffix as part of their labeling.

An example is

69-13463-1656-DK

This part number is the exact same part as 69-13463-1656

The "-DK" suffix is used for administrative purposes only and has no bearing on the part itself.

Thank you.

Matthew Finley
