

# Bezel Compatible with Adafruit Featherwing OLED 128x64 (Button Access) (2-Pack)

# Bezel Compatible with Adafruit Featherwing OLED 128x64 (Button Access) (2-Pack)

## Product Features:

**Clean and Sleek Installation:** Eliminate jagged edges and ensure a polished look for your enclosure display projects. Our bezels provide the perfect cover-up for rough perimeters after cutting a hole in your project enclosure case.

**Secure and Steady:** With a specially designed backside, these bezels keep your display firm and steady. Use silicone or a similar adhesive for easy installation. Benefit from (4) 1/8" clearance holes for hassle-free mounting on your enclosure.

**No Button Access Variant:** This listing features the 'button' variant for a minimalist front. Note: No OLED display or enclosure is included.

**High-Quality Material:** Made with durable PETG material, our bezels promise long-lasting use. Proudly manufactured in the USA, they stand for superior quality and durability.

**Upgrade Your DIY Electronics:** These bezels are a perfect blend of elegance and utility, enhancing the aesthetics of your electronics projects. Interested in different color options, clamshell cases, or personalized text on the front? Contact us for custom options!
