Gauss

✓ **RoHS Compliant**

Drawings not to scale.
 All dimensions in inches (mm) nominal.

SPECIFICATION

Magnet Material	Alcomax/Alnico
Gauss reading at 6.5mm	1000
Operating temperature	550°C max.
Diameter	0.236"
Height	0.709"

Alnico/Alcomax is a good general purpose material that can be machined or cast to the required shape before magnetizing. The material has the best temperate co-efficient of all permanent magnets. The high nickel content results in good corrosion and oxidation resistance.

As part of the company policy of continued product improvement, specifications may change without notice. Our sales office will be pleased to help you with the latest information on this product range and the details of our full design and manufacturing service. All products are supplied to our standard conditions of sale unless otherwise agreed in writing.
