Bulletin No: PB353

Issue Date: 12-1-2014

Effective Date: 12-2-2014

Product Description:

HAKKO FT-710 Tip Cleaner

Part No:

FT710-04

Specification:

Tip Cleaner	
Model	FT-710
Power Consumption	5W
Stand-by Power Consumption	0.6W
Motor Rating	24VDC 50mA
Brush Rotation Speed	2500 rpm
Dimensions (W x H x D)	71 x 77 x 107 mm (2.8 x 3.0 x 4.2 in.)
Weight (w/o Power Adapter)	450 g (0.99 lb.)

Power Adapter	
Input	100-240VAC 50/60Hz
Output	24VDC 200mA 4.8W
Cord Length	1.8 m (6 ft.)
Dimensions (W x H x D)	35 x 25 x 50 mm (1.4 x 1.0 x 2.0 in.)
Weight	80 g (0.18 lb.)

Comments:

The HAKKO FT-710 Tip Cleaner is designed to quickly and effectively clean the working end of the soldering iron tip with minimum decrease in soldering iron tip temperature. The counter-rotating brushes inside the tip cleaner remove tip oxides, debris, and excess solder without damaging the tip plating and the soldering iron specific receptacle collar provides accurate positioning of the tip for optimal cleaning while mitigating FOD potential from the spatter of the solder that is cleaned from the end of the tip.

The HAKKO FT-710 also features two different types of easily replaceable cleaning brushes to control the amount of residual solder that remains on the tip as a coating to prevent further oxidation, and an internal collection tray for easy removal and disposal of solder waste. The tip cleaner is activated only when the tip is pressed into the holder and the tip cleaner can be mounted to existing FH-200 Series Iron Holders in place of the sponge/tip cleaner tray.
