

Issue Date: April 23rd, 2021

Dear Valued Customer,

This notice is to inform of the obsolescence of finished good(s) you have purchased from Littelfuse.

Description of the Change:

- Littelfuse will obsolete and no longer produce the attached finished goods.

Reason for The Change:

- The legacy supply chain that supplied necessary subcomponents for these finished goods is no longer capable of supporting production of these subcomponents.
- Coupled with decreasing demand on these finished goods, Littelfuse has chosen to obsolete these products, as the re-sourcing or re-tooling of components is not commercially justifiable.

Effective Date of the Change:

- This obsolescence is effective immediately.

What You Need to Do:

- Littelfuse will honor existing orders as allowable with existing components. Last-time buy orders will be serviced, as available, with remaining componentry.
- Any future orders beyond this timing will not be honored as the componentry required to create these products will no longer exist.

If you have any questions, please feel free to contact your Littelfuse Customer Service Representative or your Inside Sales Representative. We appreciate your business and our continued partnership.

Sincerely,

Zachary Naughton
Global Product Manager
Littelfuse Commercial Vehicle Products
