Fingerprint Sensor with Two-Color LED Ring

PID: MIKROE-4347

The Fingerprint Sensor with Two-Color LED Ring (<u>GROW R503</u>) is a capacitive fingerprint sensor module scanner with a two-color ring indicator from <u>Hangzhou Grow Technology Co., Ltd</u>. designed with the intention to be used as an extension of development boards and placed remotely on Fingerprint 3 Click. The module is designed in a circular shape with a diameter of 28mm. It's important to mention that this module represents an integrated image collecting and algorithm chip together.

R503 datasheet

Mikroe produces entire development toolchains for all major microcontroller architectures.

Committed to excellency, we are dedicated to helping engineers bring the project development up to speed and achieve outstanding results.
