Product Technical fact Sheet

Part Number: NL345R500K

Product Description: Lab Labeling Tape Variety Pack, 500" Length x 3/4" Width, 1 Inch Core [5 Rolls of Assorted Colors]

Application:

This product is designed for color coding and marking of laboratory equipment and glassware. Our rolls are produced to withstand extreme conditions, while simultaneously delicate leaving behind no residue.

Product Features:

- Highly versatile labeling tape that is writeable with a felt – tip marker
- Multi color pack includes one roll of each color: Red, Orange, Yellow, Green and Blue
- Oil, acid, and water resistant, and can withstand temperatures ranging from -23° C to +121° C (-10° F to +250° F)

Construction:

- Printable colored flatback paper backing
- Synthetic rubber based adhesive
- 500" of 3/4" width tape spooled around a 1" corrugate based core

Silicone is not present in the subject product to the best of our knowledge. We do not intentionally add this substance to the formulation, nor is it listed on any of our raw material Safety Data Sheets.
