High Magnification Meets Instant Auto Focus

Achieve instant auto focus with Aven's Mighty Mag Auto Focus Macro Lens Video Inspection System. Equipped with the Mighty Cam Auto Focus camera, this system brings your magnified images into focus instantaneously with no need to adjust the focus on the lens. Features a built-in 64GB USB drive for saving image/video files, no computer required. This system also includes Aven's 96 LED Ring Light, 22-inch 1080p HD Monitor, and USB wireless mouse to access on-screen settings.

Features:

- Provides instant focus, significantly reduces inspection time
- Sharp 1080p full HD image
- Save high resolution image/video files to the included 64GB USB drive
- Includes USB mouse for access to settings menu
